

Introducing all-new PDFelement 7

Experience the easiest and fastest way to work with PDF documents on Windows and Mac.

G2 Crowd recognizes PDFelement as a market leader in Document Creation Software.

"PDFelement is everything that Adobe Acrobat isn't: simple, affordable, with effective features to manage every day office documents."

Joe Garrison, IT Manager

What's new and improved in PDFelement 7

Reimagined UI

Work easily with an all-new minimalist, yet powerful, user interface. Even novice users can get up and running quickly.

Convert Documents with Greater Accuracy

Deliver the richest, most engaging PDF communications. Convert PDFs to office files, retaining layout, formatting, and tables.

Advanced Writing Tools

Create great-looking documents in minutes with advanced writing and editing tools that are so easy to use.

User Management Console

User friendly also means IT friendly. Get the flexibility to provision, track, and manage licensing across groups and teams.

Improved Team Collaboration

More powerfully communicate with people using a complete set of commenting and markup tools.

Simplified Licensing

Get more value from your software investment with simple licensing options. PDFelement delivers faster ROI at a fraction of the cost of Adobe Acrobat.

PDFelement 7 Pro vs. Adobe Acrobat Pro DC

		
Empower teams with document collaboration		
Stop retyping PDFs Reduce the time you spend retyping information stuck in PDF files. Convert your PDF file to an editable Microsoft Office document. And save fonts, formatting, and effort.	●	●
Robust Editing Add or delete PDF text and images, and adjust font attributes like type, size, and color as you would in any other text editing software	●	●
Automatically reflow paragraphs Don't worry about your layout. Just add or delete text, and the paragraph formatting will take care of itself.	●	●
Find and replace text In one step, you can find and update every instance of a word or phrase throughout an entire PDF.	●	●
Instant Spell Check Fix typos with instant spell check while editing your documents.	●	●
Match Fonts and Style Automatically match fonts and style accurately from your original documents.	●	●
Create and convert to PDF files		
Automatically reflow paragraphs Create PDF documents from any application that prints by selecting PDFelement as your printer.	●	●
Easily convert files to PDFs Convert PDF files with one-button ease in Windows® from Microsoft Office applications, including Word, Excel, and PowerPoint.	●	●
PDF to Word or Excel Reuse content from PDF documents to get a head start on new projects. Save PDF retaining layouts, formatting, and tables.	●	●
Scan to PDF with OCR Scan paper documents to PDF and automatically recognize text to create compact, searchable and editable PDF documents.	●	●
Convert e-mail to PDF Archive e-mail from Microsoft Outlook to PDF using the print dialog on Outlook.	●	●
Batch PDF Creation Combine hundreds of files in different file types into a single PDF document.	●	●

PDFelement 7 Pro vs. Adobe Acrobat Pro DC

		
Process forms and gain actionable insights		
One-click Form Creation Turn flat or any non-fillable form made in Word, Excel, or any other application into a fillable and editable PDF form with just one click.	●	●
Build forms and gather data faster Drag and drop to create PDF or web forms in minutes. Then move them online for easy distribution, collection, and analysis.	●	●
Quickly Edit Forms Edit forms quickly and make any field fillable by adding text fields, check boxes, buttons, and more.	●	●
Export Form Data into Excel Easily collect data by creating fillable PDF forms from paper or existing electronic files. Quickly distribute forms and analyze results.	●	●
Batch Form Data Extraction Extract data from custom fields on a scanned invoice or form with easy setup, then apply the same data extraction rules to hundreds of scanned PDF.	●	●
Combine and optimize files		
Merge multiple documents into one PDF file Combine documents, drawings, and forms in a single polished PDF document. Optimize file size and arrange files in any order regardless of file type or orientation.	●	●
Attaching native files Make sure source files are simple to locate, access, and archive. Attach them to any PDF document in their original, native formats, ensuring a complete document of record.	●	●
Include only the pages you need Specify which pages, layouts, or sheets should be included from source files in your final, merged PDF file.	●	●
Optimize PDF output Select from multiple file size and quality settings to optimize PDF output for your intended purpose.	●	●

PDFelement 7 Pro vs. Adobe Acrobat Pro DC

		
Empower teams with document collaboration		
Manage electronic document reviews Gain the input you need and help participants see and build on other reviewers' comments, which can be sorted by author, date, or page.	•	•
Enhanced commenting tools Emphasize important details on internal memos, revise contracts and add notes to staff documents with a full set of commenting tools, including highlight, strikeout, sticky notes, and custom stamps.	•	•
View and print comments Easily compile all comments into a single PDF document. View and print feedback for easy reconciliation.	•	•
Get others to sign documents Get the green light faster. Send PDFs to others for signature approval and define signature workflows.	•	•
Protect PDF files and documents		
Passwords and Permissions Apply permissions to restrict printing, copying, or altering. Save passwords and permissions as security policies that can be easily applied to new PDF files.	•	•
Removing and redacting information Use redaction tools to permanently delete sensitive information, including specific text and illustrations.	•	•
Applying digital signatures Digitally sign PDF documents or add document timestamps. Add certified digital signatures to help recipients validate document authenticity.	•	•
System Requirements and Languages		
Windows • A computer with an Intel® Pentium® 4, higher, or equivalent processor. • Supported operating systems - Windows 10, 8.1, 8, 7, Vista. • 512 MB of memory (RAM), 1 GB recommended. • 1.5GB of free hard disk space for application files. • Web access needed for product registration, activation, product help, and obtaining live updates for the program. System Languages English, French, German, Italian, Japanese, Spanish, Portuguese, Dutch, Russian, Simplified Chinese, Traditional Chinese	

Lower Software Management Costs

From productivity gains to lower licensing and IT support costs, PDFelement enables you to standardize on a single PDF solution at a fraction of the cost of Adobe Acrobat.

Lower IT Support Costs

Standardizing from multiple PDF editors to a single product solution lowers support overhead.

Lower TCO

Perpetual licensing delivers faster ROI and reduces your TCO by an average of 60% relative to your Adobe® Acrobat® agreement.

Reduce Operational Costs

Reduce printing and operational costs by migrating workflows from paper to digital.

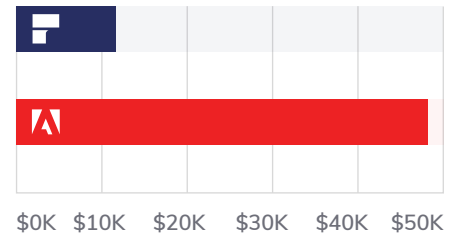

Lower Maintenance Costs

By purchasing Software Assurance, your organization receives upgrades to the next product version as it is released.

Total Cost of Ownership (TCO)

By switching from Adobe® Acrobat® Pro DC to PDFelement Pro, our customers typically cut costs by at least 60%.

Gain control of your volume licensing

	 Volume License (VL)	 Virtual/Terminal Server	 Site License (SL)
