

CleverGround

CleverGround

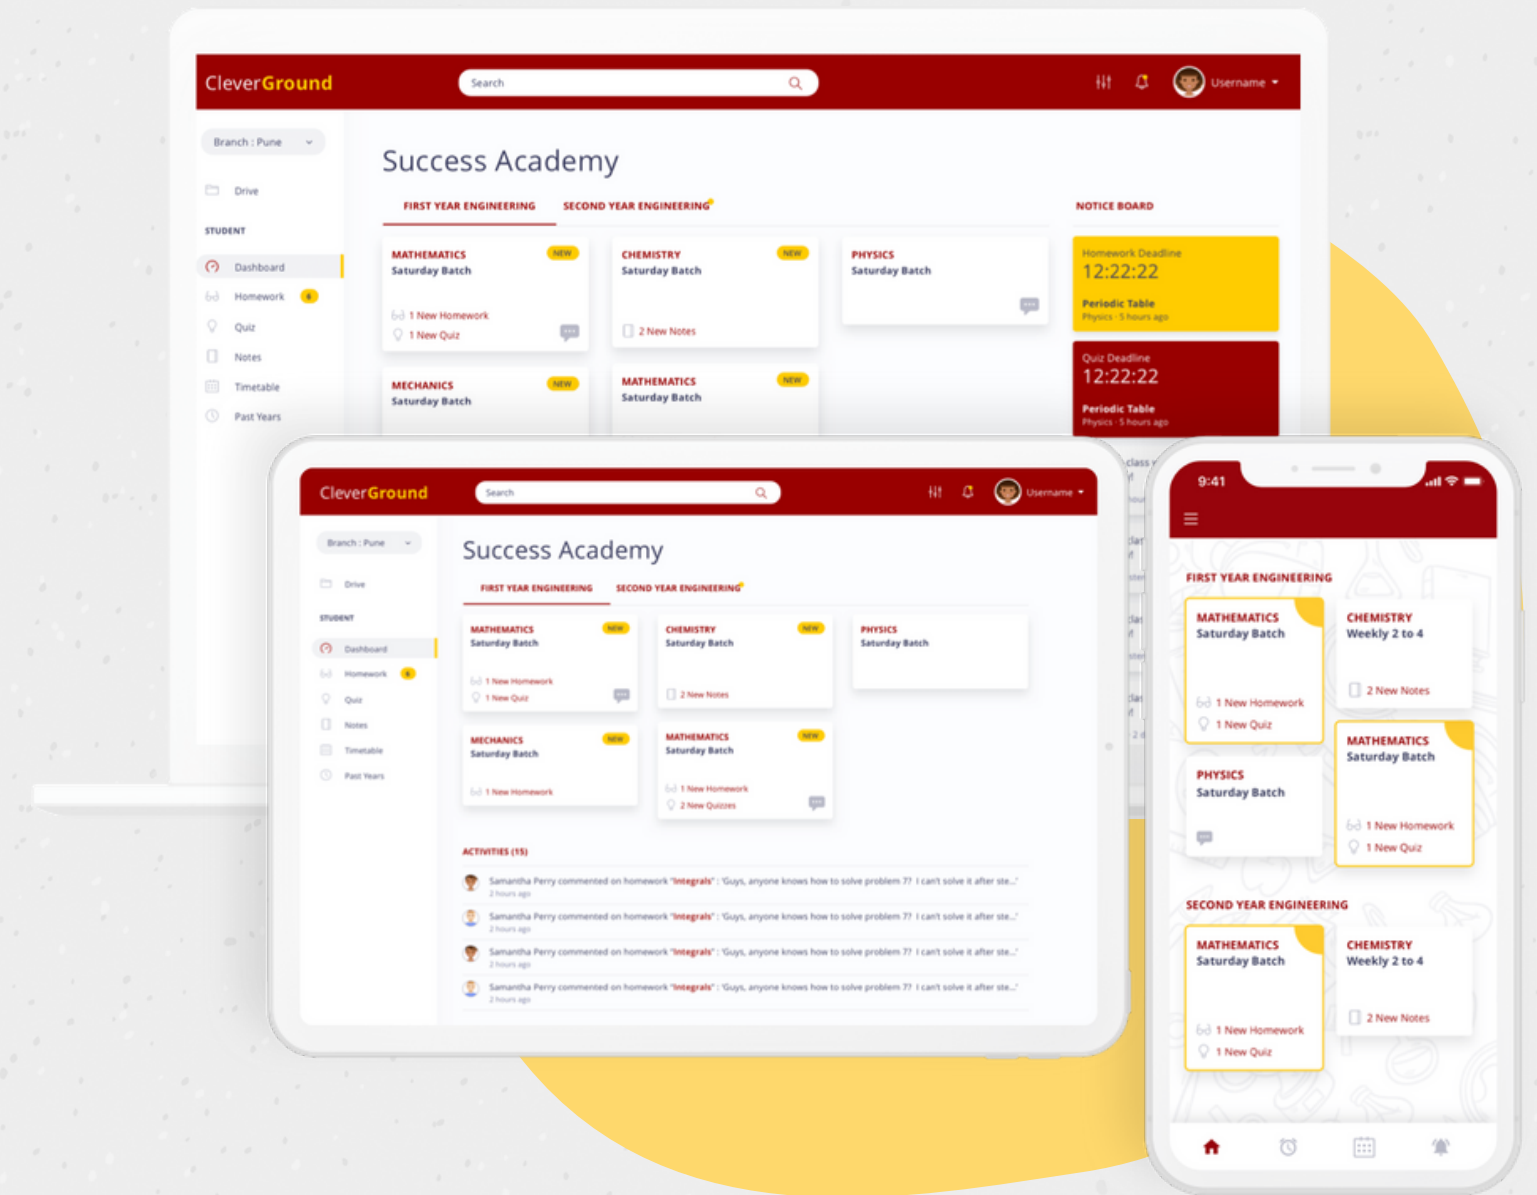

Learning Management System

Value Proposition

Enabling Institutes to grow their 'hybrid-education' model.

- **Setup, Implement** and **Support** you throughout the journey.
- Easy to use LMS - Web and Mobile App
- Built considering long term NAAC & NBA compliances

Our Objective

Provide highest quality in:

Application, Customer Support and Future Requests

Enable Institutes go and grow digital with ease and without hassle.

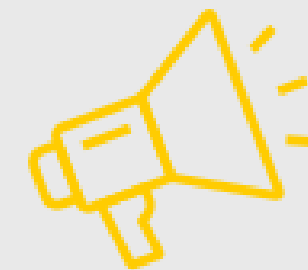

Education

Digital education accessible through laptops, tablets & mobile-phones

Automation

One-Time design of institute workflows that will improve digital adaptation

Compliance

Design to comply with government accreditations and connectivity (NAAC, NBA)

Learning Management System - LMS

- Course Setup
- Content Management
- LMS Automation
- Ease and Access
- LMS Monitoring and Control
- Course Outcome

LMS 01

Content and Courses

Create and store your own content

Create course workflows

Automate your LMS

Unit, Chapter, Topic wise Course Creation

LMS 02

Video Lectures

- Live Lectures with attendance for teachers and Students

- Upload Video lectures & Cloud Storage

- 3rd party video integration (Live & Recorded)

- Offline video downloading facility using secure in-app features

- Easy access to learning on Laptops, Tablets and Mobile Phones

LMS 03

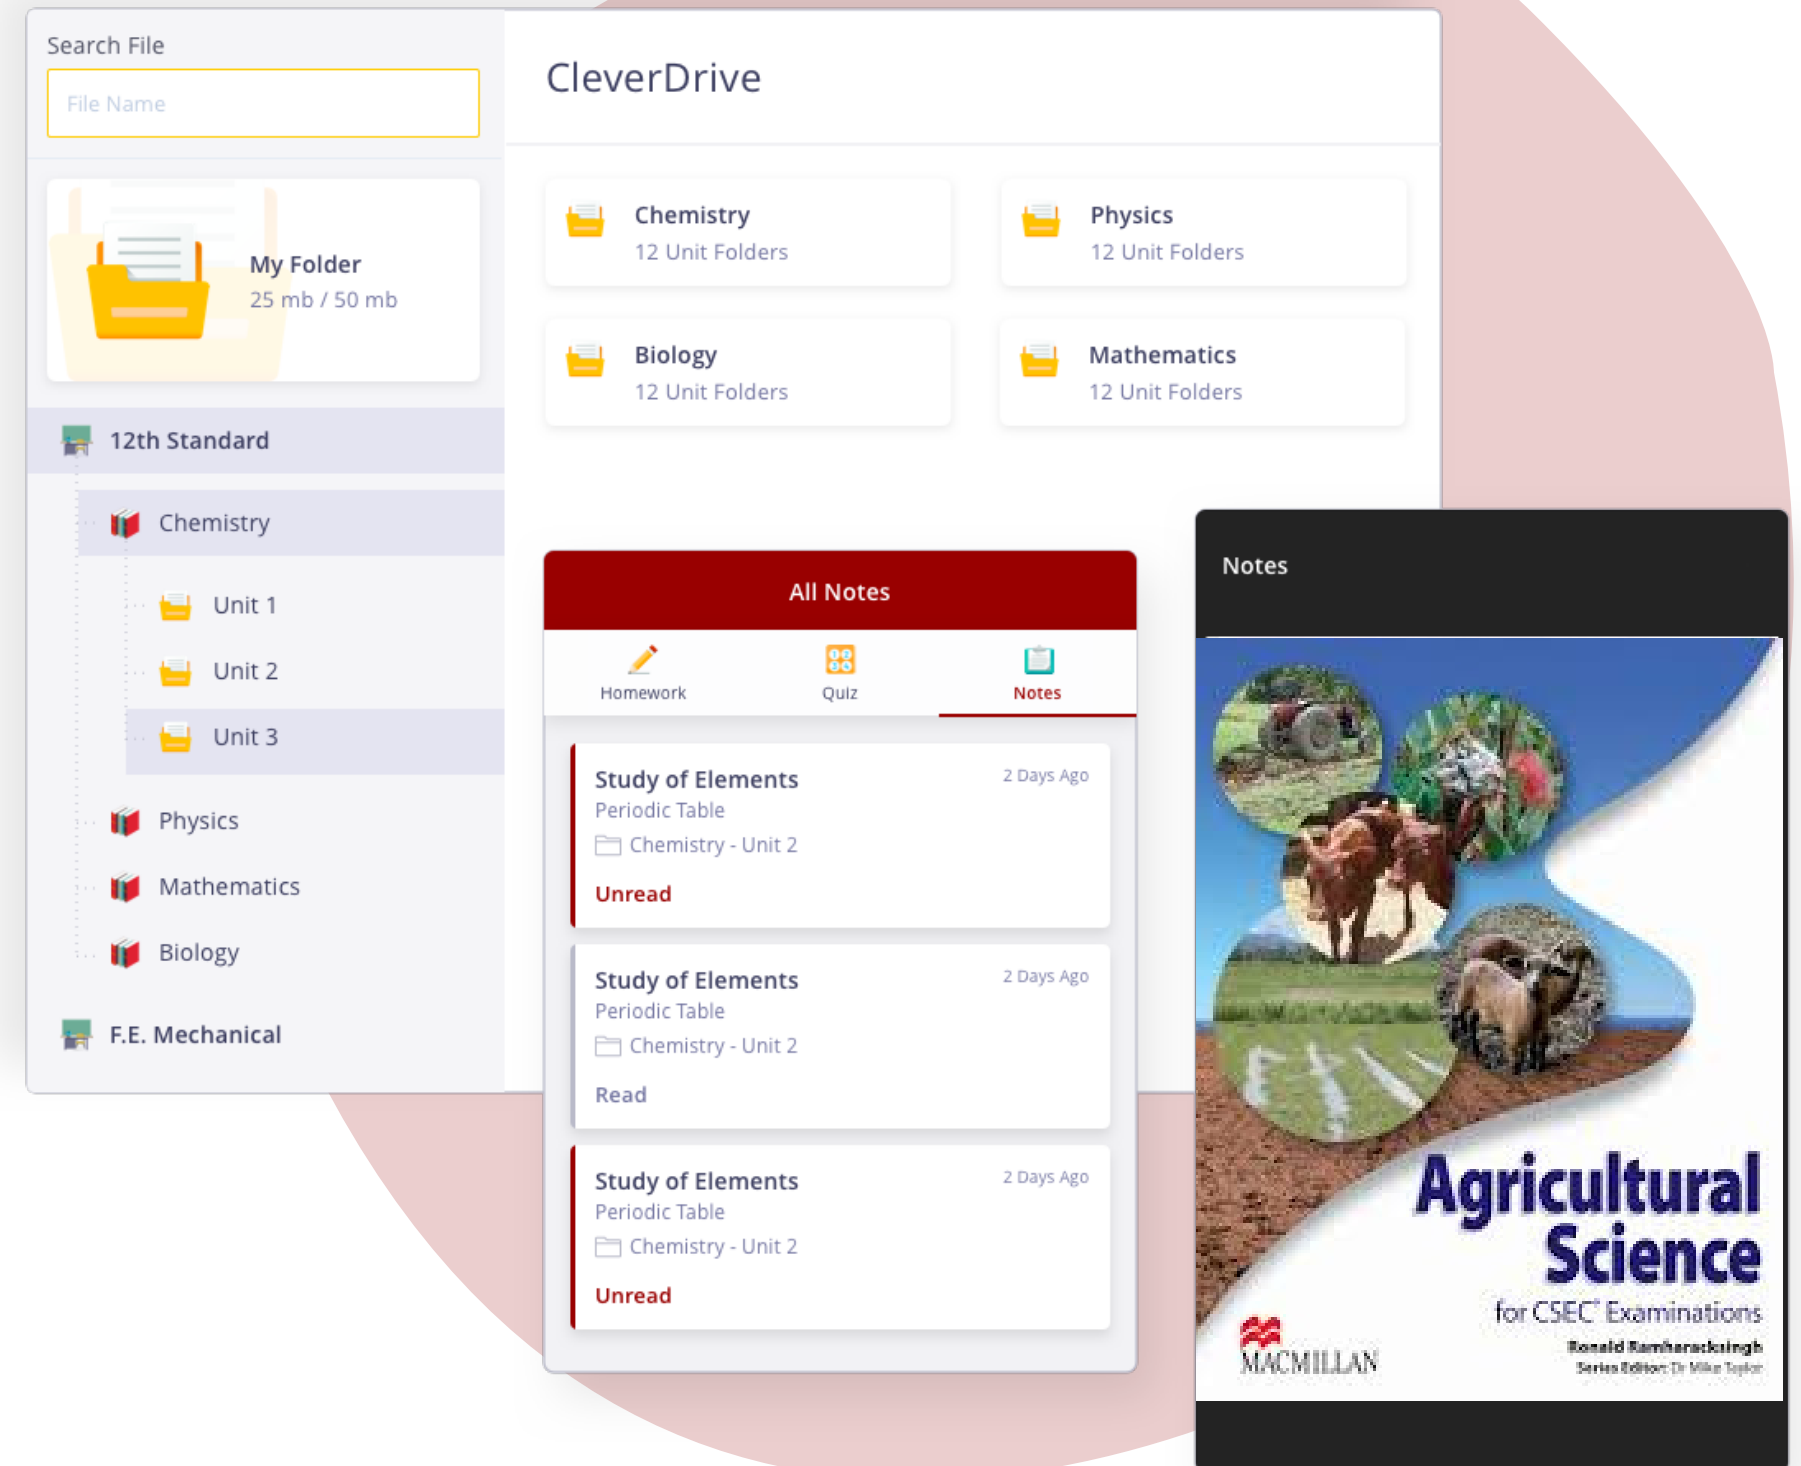

Digital Textbooks

Share PDF Textbooks with all the students

Share cost effective, PDF versions of textbooks to students which can be accessed anytime, anywhere

Cloud Based Drive

Professors and Students can upload their own assignments and work on their drive which can be accessed for long time use

LMS 04

Online Exams

Automated Checking

Automated setup and checking of MCQ exams

Scholarship Format MCQ Test

Scholarship format tests can be conducted by teachers for more online practice

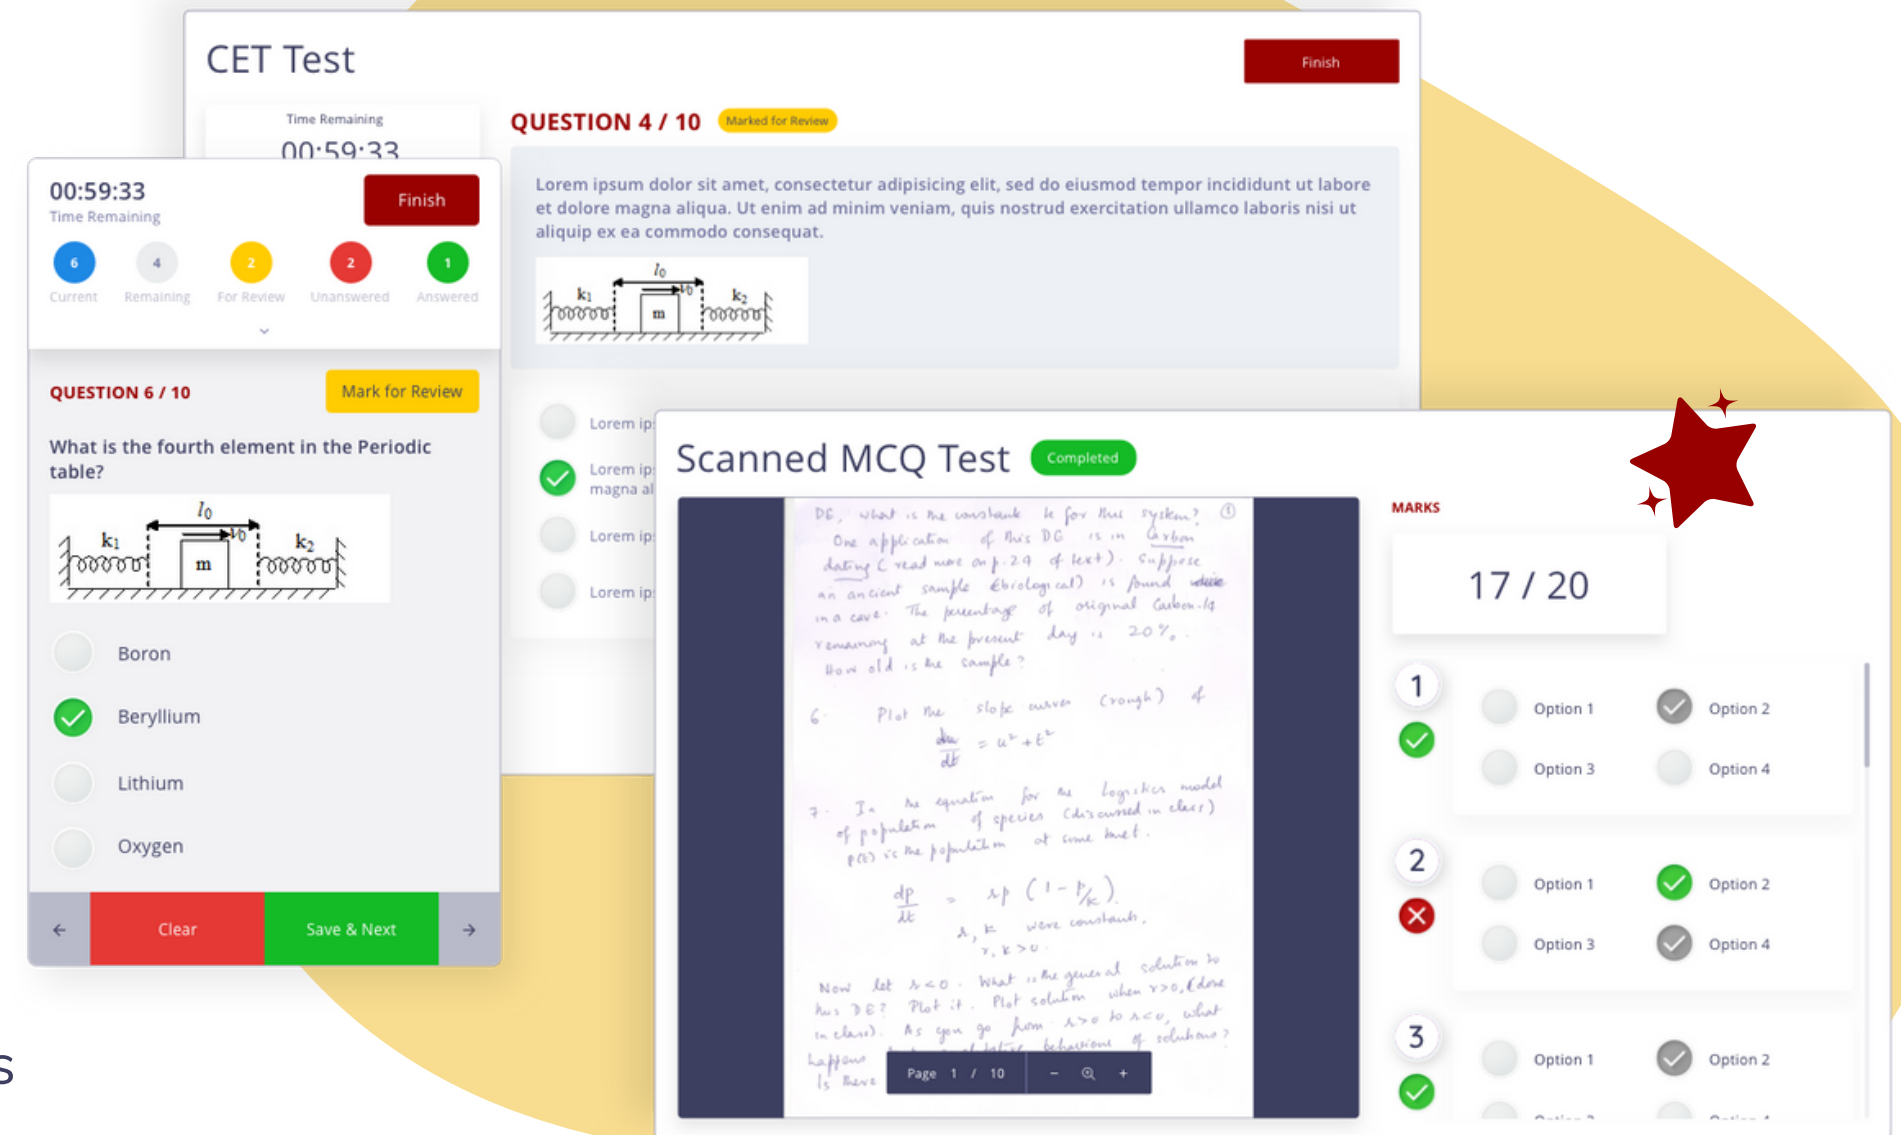

Question Bank & Exam Paper Creation

Store all your Questions and create custom questionnaires

Match the Following, True or False and Fill in the Blanks

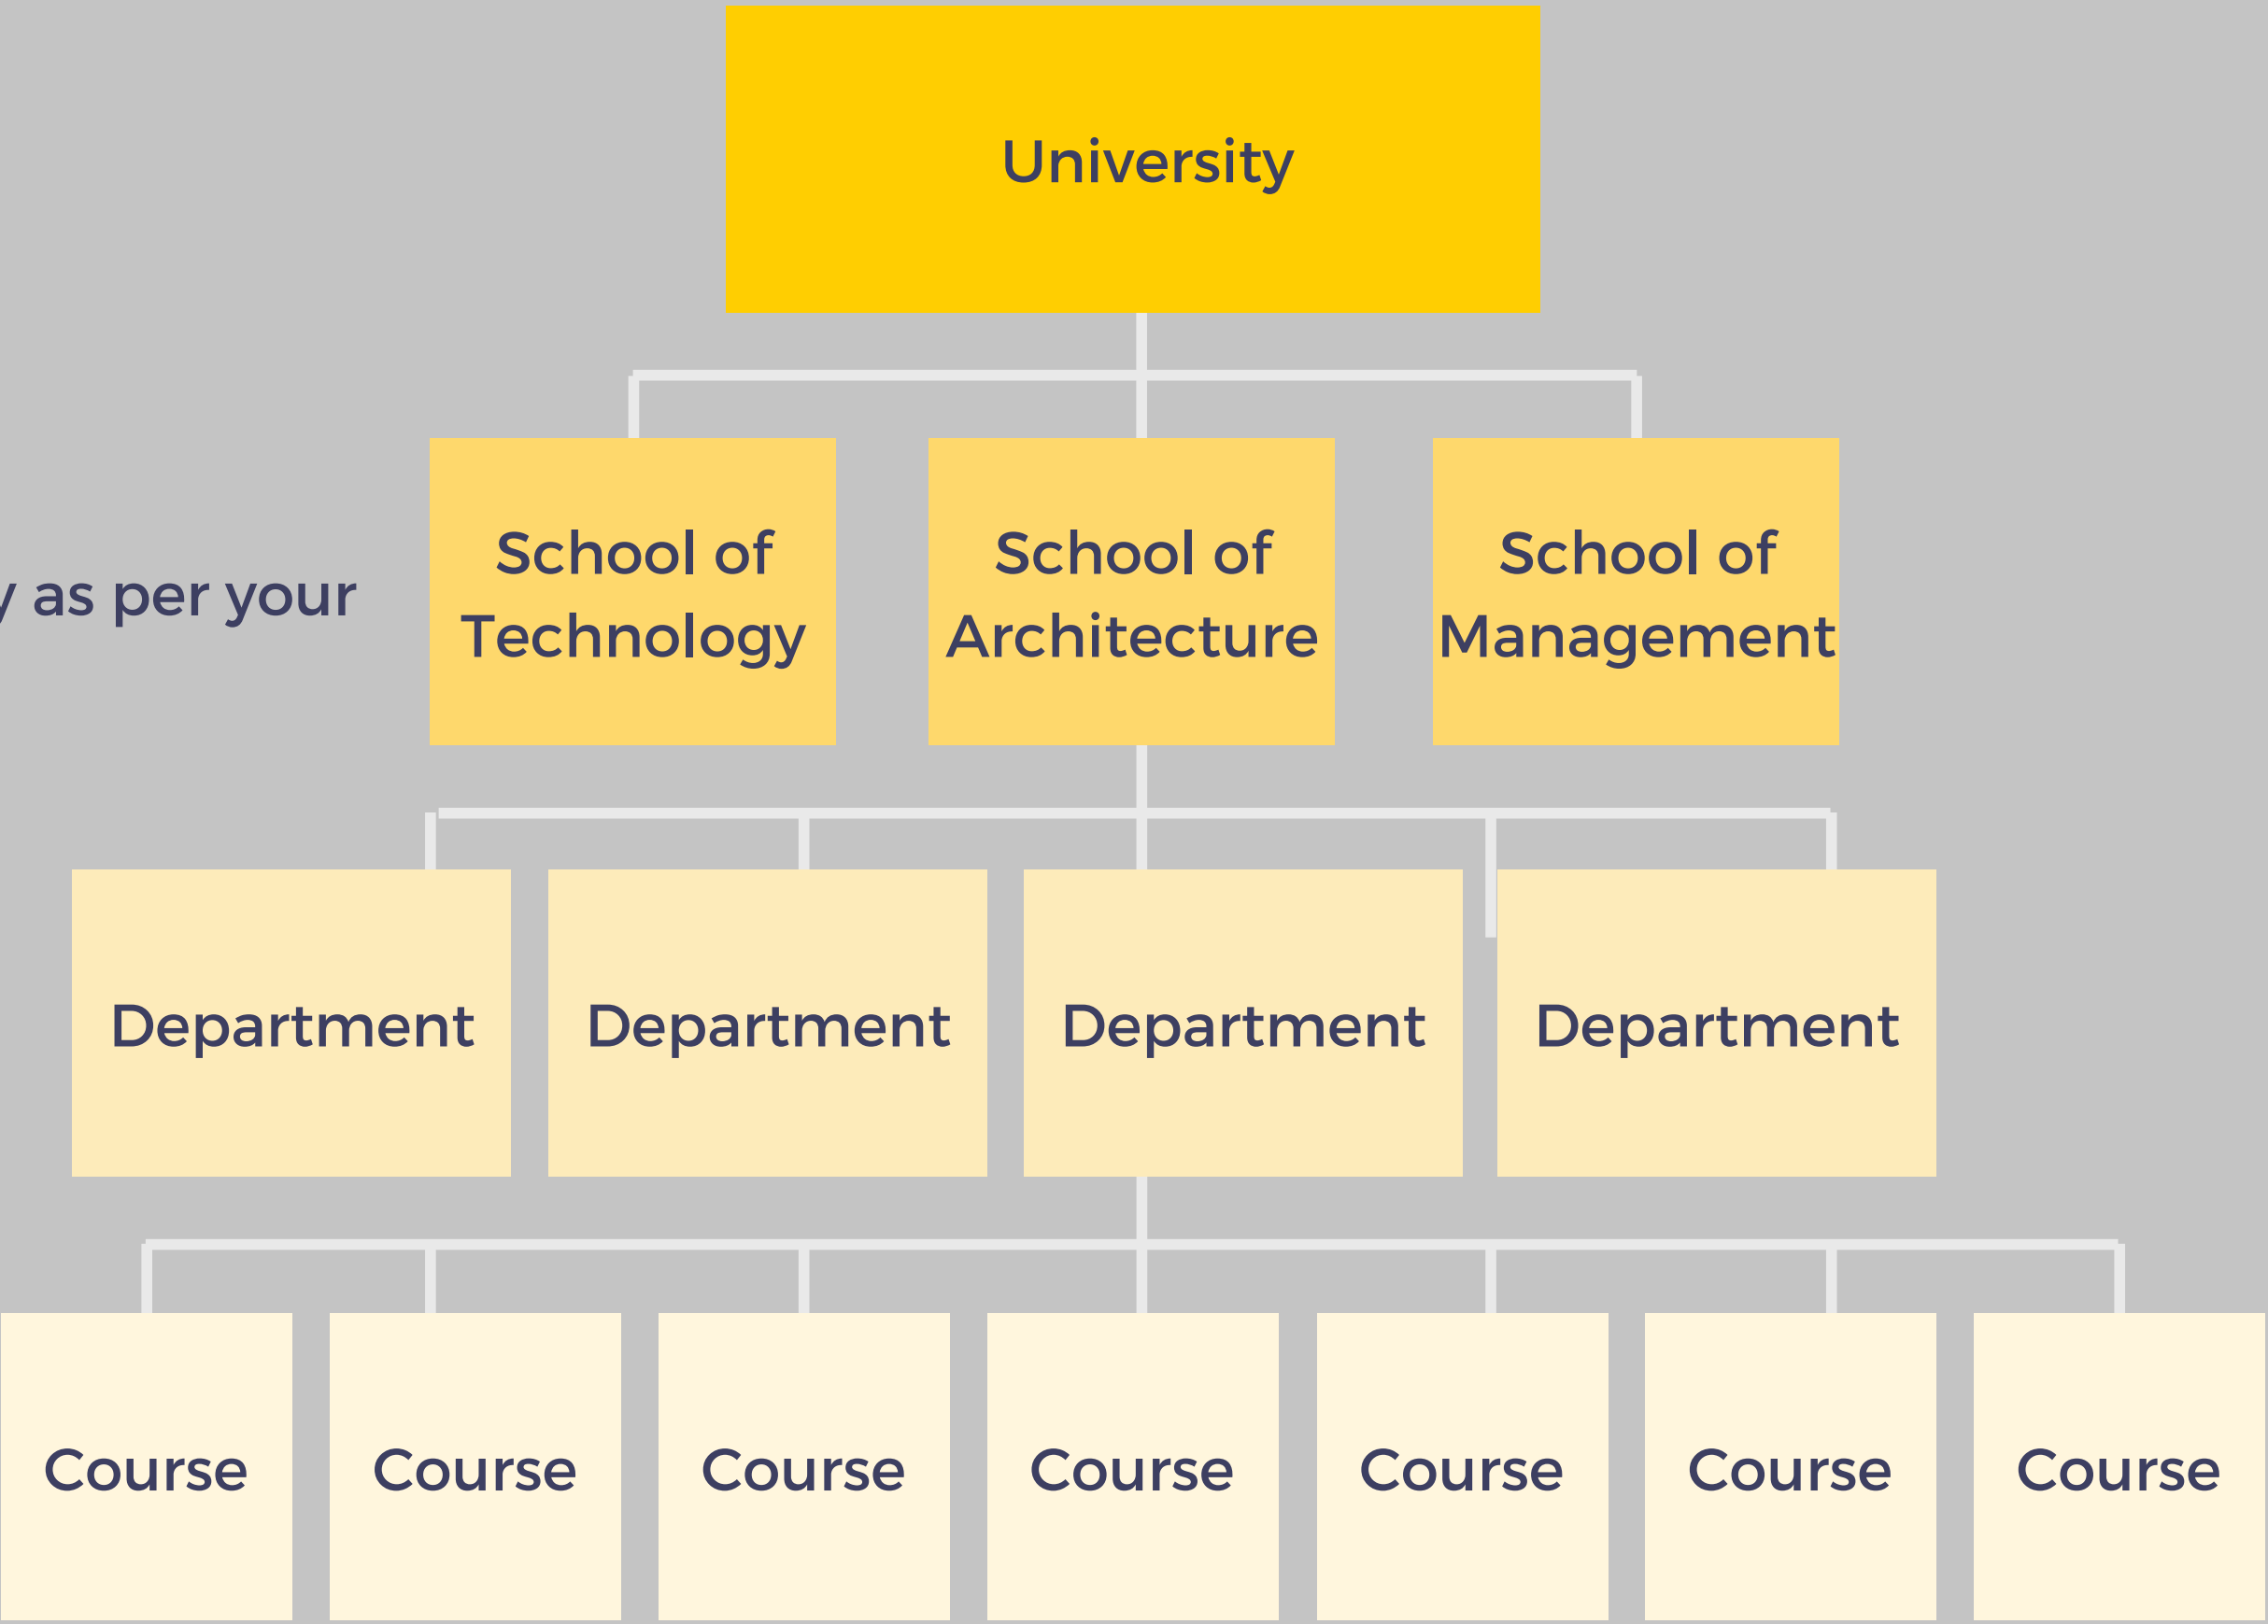

Upload all kind of question types on your platform

Centralised Structure

Customised structure heirarchy as per your Institute

Centralised Information

Institute Information

View information like address, classrooms, and other custom fields about all institutes at one place

Stakeholder Information and Profile

Easy collection of all student/Professor/Staff data like student count, caste-wise classification and other custom student information

Instant Information Collection - Forms

Create forms and share to collect information

Real-Time Sharing & Monitoring

Share Videos or Files

Share videos or files through the university

Have central LMS monitoring

Graphical representation of all student and faculty reports

Reporting 04

Communication Channels

Notices with controlled distribution

All teachers & authorities communication

Structured communication storage for later access

Reporting 05

Digital Presence

Websites

Dynamic Website for your institute

Social Media Sharing Tools

Digital Brochures and cards which can be shared on Facebook, WhatsApp etc

Online listing & SEO assistance

Assistance to list your school online for more digital presence

Future Feature 01

Future Value Proposition

What

At CleverGround we believe in building the technology of the future. We plan to come up with efficiency building modules to have a faster transition from paper based to digital education

Examination Module

- Create question bank
- Set exam papers
- Collect online marks or fill manual marks
- Generate automatic reportcards

NAAC & NBA Dashboards

Smart Timetable and Attendance

Future Feature 02

Future Value Proposition

Why

Improving the quality of education efficiently

Utilizing the power of the Internet

Opportunities like Distance Learning and Digital Institutes

- It is easy to build software...It is difficult to build good software.

Thank You

Choose the Right LMS at first, and you will
never have to worry ever again.
