D&B Hoovers
Accelerate the Path from Prospect to Profitable Relationship
**Sales Acceleration Drives Growth**

Sales acceleration requires alignment between sales and marketing teams to fast-track the buyer’s journey, cross-sell and upsell existing accounts, and build strong customer relationships. In order to do this effectively, organizations need to:

1. Target with intelligence
2. Shorten and simplify the buyer’s journey
3. Engage in a relevant and compelling manner

When your sellers have access to a unified view of intelligence provided on the prospect, the overall market, and their competition, the conversations they have will be more relevant and impactful.

Unfortunately, after surveying hundreds of B2B marketing professionals, we found that nearly 40% don’t feel their sales teams have the right account intelligence to engage with prospects and leads in a meaningful way. D&B Hoovers can help close that gap and accelerate the path from prospect to a profitable relationship through the effective use of data and analytics.

**Identify the Best Opportunities**

D&B Hoovers uses the world’s largest commercial database and sophisticated analytics to deliver a sales acceleration solution packed with insight. It enables B2B sales and marketing professionals to accelerate sales, enhance go-to-market activity, and increase business growth globally. D&B Hoovers leverages the best company intelligence and innovative analytical features to provide optimal coverage with deep insight. With its intuitive user experience, the solution helps you:

- Quickly build pipeline by targeting more intelligently with dynamic search capabilities and comprehensive list-building options
- Stay ahead of the competition with real-time trigger alerts and updates about business, social, and digital events
- Increase sales productivity with seamless integration to CRM platforms
- Have more informed conversations using analysis and insights about target companies and contacts

**Helping You Achieve Growth**

D&B Hoovers combines more than 150 million business records from 30,000 sources in 190 countries, updated 5 million times a day with an intuitive, dynamic user interface in order to help customers put the best data in the hands of sellers at the point of interaction. This unique combination of data, analytics, and technology, increases sales productivity by enabling more strategic targeting and the ability to have more informed conversations, so organizations can accelerate sales and drive global business growth.
