

● PURPOSE-BUILT FOR MULTI-ENTITY SMES

Your month-end close shouldn't take *days*.

BrizoSystem automates group consolidation end-to-end — from data sync and intercompany eliminations to live dashboards, health insights, and automated report delivery. One platform. Complete clarity.

- ✗ Days of manual consolidation
- ✗ Spreadsheet version chaos
- ✗ Intercompany errors & rework
- ✗ Decisions on stale data
- ✗ Hours compiling reports

WHAT BRIZOSYSTEM DOES

01 Automated Consolidation

Visual group hierarchy, auto intercompany eliminations, NCI calculations, multi-currency support, and IFRS / GAAP adjustments — all automated, period after period.

02 Live Reports & Dashboards

P&L, Balance Sheet, Cash Flow — out of the box. Drill into any number, compare actuals vs forecast, collaborate with @mentions, and export to PDF or Excel instantly.

03 Pulse — Financial Health

Real-time KPI health scores, cash flow waterfalls, and receivables aging. Custom KPI formulas and adjustable weightings so every business tracks what matters most.

04 Automated Insight Packages

Bundle dashboards, Pulse insights, and reports into professional PDFs. Schedule automated delivery to management or clients — zero manual effort, every month.

05 AI Financial Assistant

Ask natural language questions — "What's net profit in February?" — and get instant answers from your live data without running a single report manually.

06 Everything Connected

Any change in the org structure flows instantly across all reports, dashboards, and packages — no re-mapping, no duplication, no manual fixes. Ever.
