EFFICIENT DUE DILIGENCE
M&A DATAROOMS

skyhatch
redefine information

WITH SO MANY INDUSTRY-LEADING OPTIONS, WHY WOULD YOU CONSIDER ANOTHER DATAROOM PROVIDER?

WHY CHOOSE SKYHATCH?

Here are just a few ways Skyhatch can take you to the next level

Competitive pricing
Most importantly, experience the main features and security of corporate datarooms without a hefty price tag. Our pricing is up to 50% less expensive than providers like Ansarada and Intralinks.

Fast setup
Our system provisions your new dataroom within 24 hours of invoice acceptance. You'll find it easy to navigate the simple but power-ful user interface. Of course, support is at hand if you require it.

Innovating due diligence
After consulting a deal advisory team, we designed and built a powerful document upload, review and approval feature. We've also added a global Q&A tool which provides better visibility over negotiating points.

We value your deal's success.

WE'VE GOT THE FUNDAMENTALS RIGHT

Our service is different, but we still focus on the basics. Exerience the difference while still having:

Access Control
Not every user needs or deserves to have the same level of access to your documents and folders. Control access using roles, action types & more. You can setup users in various user groups (e.g. bidders, regulators, seller employees) and assign very specific permissions to each group e.g. disable downloads etc.
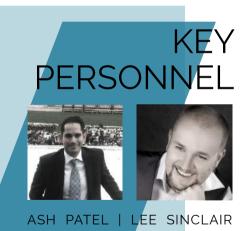

Audit Logs
Have ready access to an automatic, legal-binding audit trail for proof-of-disclosure and client reporting purposes. Track activity for every user (even you) since they joined the dataroom including IP addresses and actions taken. You'll even be able to gauge interest in specific aspects of the deal by seeing how long each user has spent in minutes/hours reviewing each document.

Security
Have peace of mind knowing that your dataroom has next generation "zero-knowledge" security. Our staff cannot access your documents without your invitation. If our servers get physically stolen, hackers will not be able to access your files. The service has been confirmed secure by 3rd party Internet Security experts.

ABOUT SKYHATCH

Since 2011, we've focused on helping businesses build a competitive advantage using information. Our mission for now and the future is to bridge the human-information gap.

KEY PERSONNEL

ASH PATEL | LEE SINCLAIR
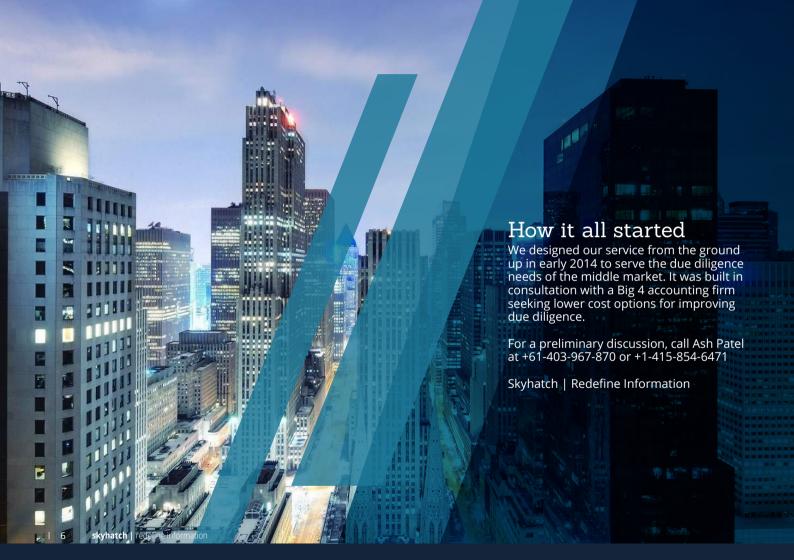

Ash Patel, Director
Ash founded Skyhatch as a software consultancy in 2011 after resolving business IT issues for many years prior.

Before Skyhatch, he began his career in the pharmaceutical industry, which he remains part of today. He's responsible for business development as well as guiding the design of our software.

Lee Sinclair, Technical Leader
Lee brings over 15 years of technical expertise to make sure Skyhatch's products are robust and reliable. He's had substantial stinsts managing digital products at companies like Channel 4 (UK), ING (UK), USQ (Australia) and Brisbane City Council (Australia).

Lee also devotes part of his time helping startups launch their products.

How it all started

We designed our service from the ground up in early 2014 to serve the due diligence needs of the middle market. It was built in consultation with a Big 4 accounting firm seeking lower cost options for improving due diligence.

For a preliminary discussion, call Ash Patel at +61-403-967-870 or +1-415-854-6471
