## EVOLVE: The EVOLVE Talent Acquisition

Our proprietary EVOLVE Talent Acquisition Framework provides a roadmap for developing a top-performing TA team. Our customer experience teams leverage EVOLVE to understand where an organization is currently in TA maturity, identify opportunities to move forward, and help to put advancement strategies into action.

Start by taking the initial EVOLVE assessment to learn what your organization is getting right along with areas for improvement. The Jobvite Customer Team will partner with you to develop strategic goals for maturing your talent function using the EVOLVE framework.

### Take the TA Maturity Assessment

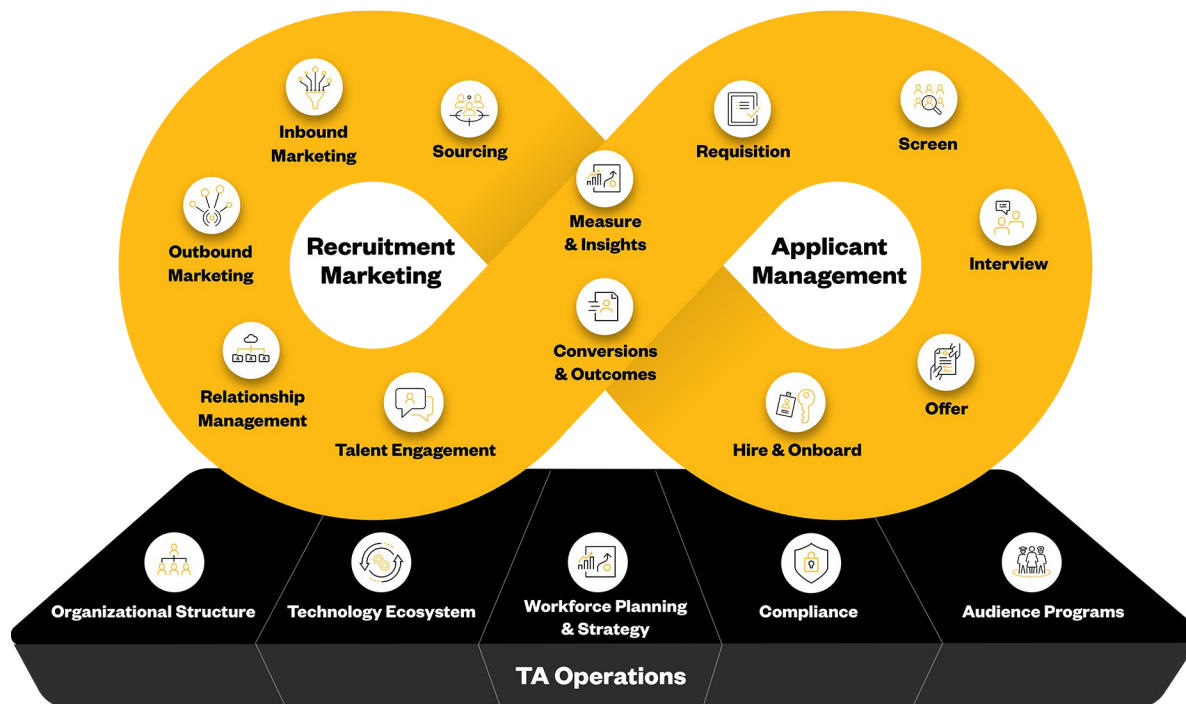

Complete the assessment by yourself or with your stakeholders to determine your organization's TA maturity level. Your assessment will help align your people, process, and technologies around each of the 17 process areas where your TA function has opportunities to evolve.
