SPACE
MANAGEMENT

Space Management

Bringing your employees back to the office is all about communicating safety, navigation and productivity — with a smart, interactive solution that manages hot desking and space reservations, wayfinding and relevant communications.

Create and manage interactive maps of the workplace to enable employees to easily find and reserve safe and flexible spaces to work.

Communicate the hybrid work experience through digital signage, desktops and mobile devices that guide employees to find and reserve available conference rooms and workstations for teams and individuals.

Make Every Space in Your Organization Searchable and Bookable

## Find the best, safe space for the individual, team and task.

Our flexible, real-time reservation system easily matches your people with available rooms and workstations, aligned with employee needs for health, safety, and productivity.
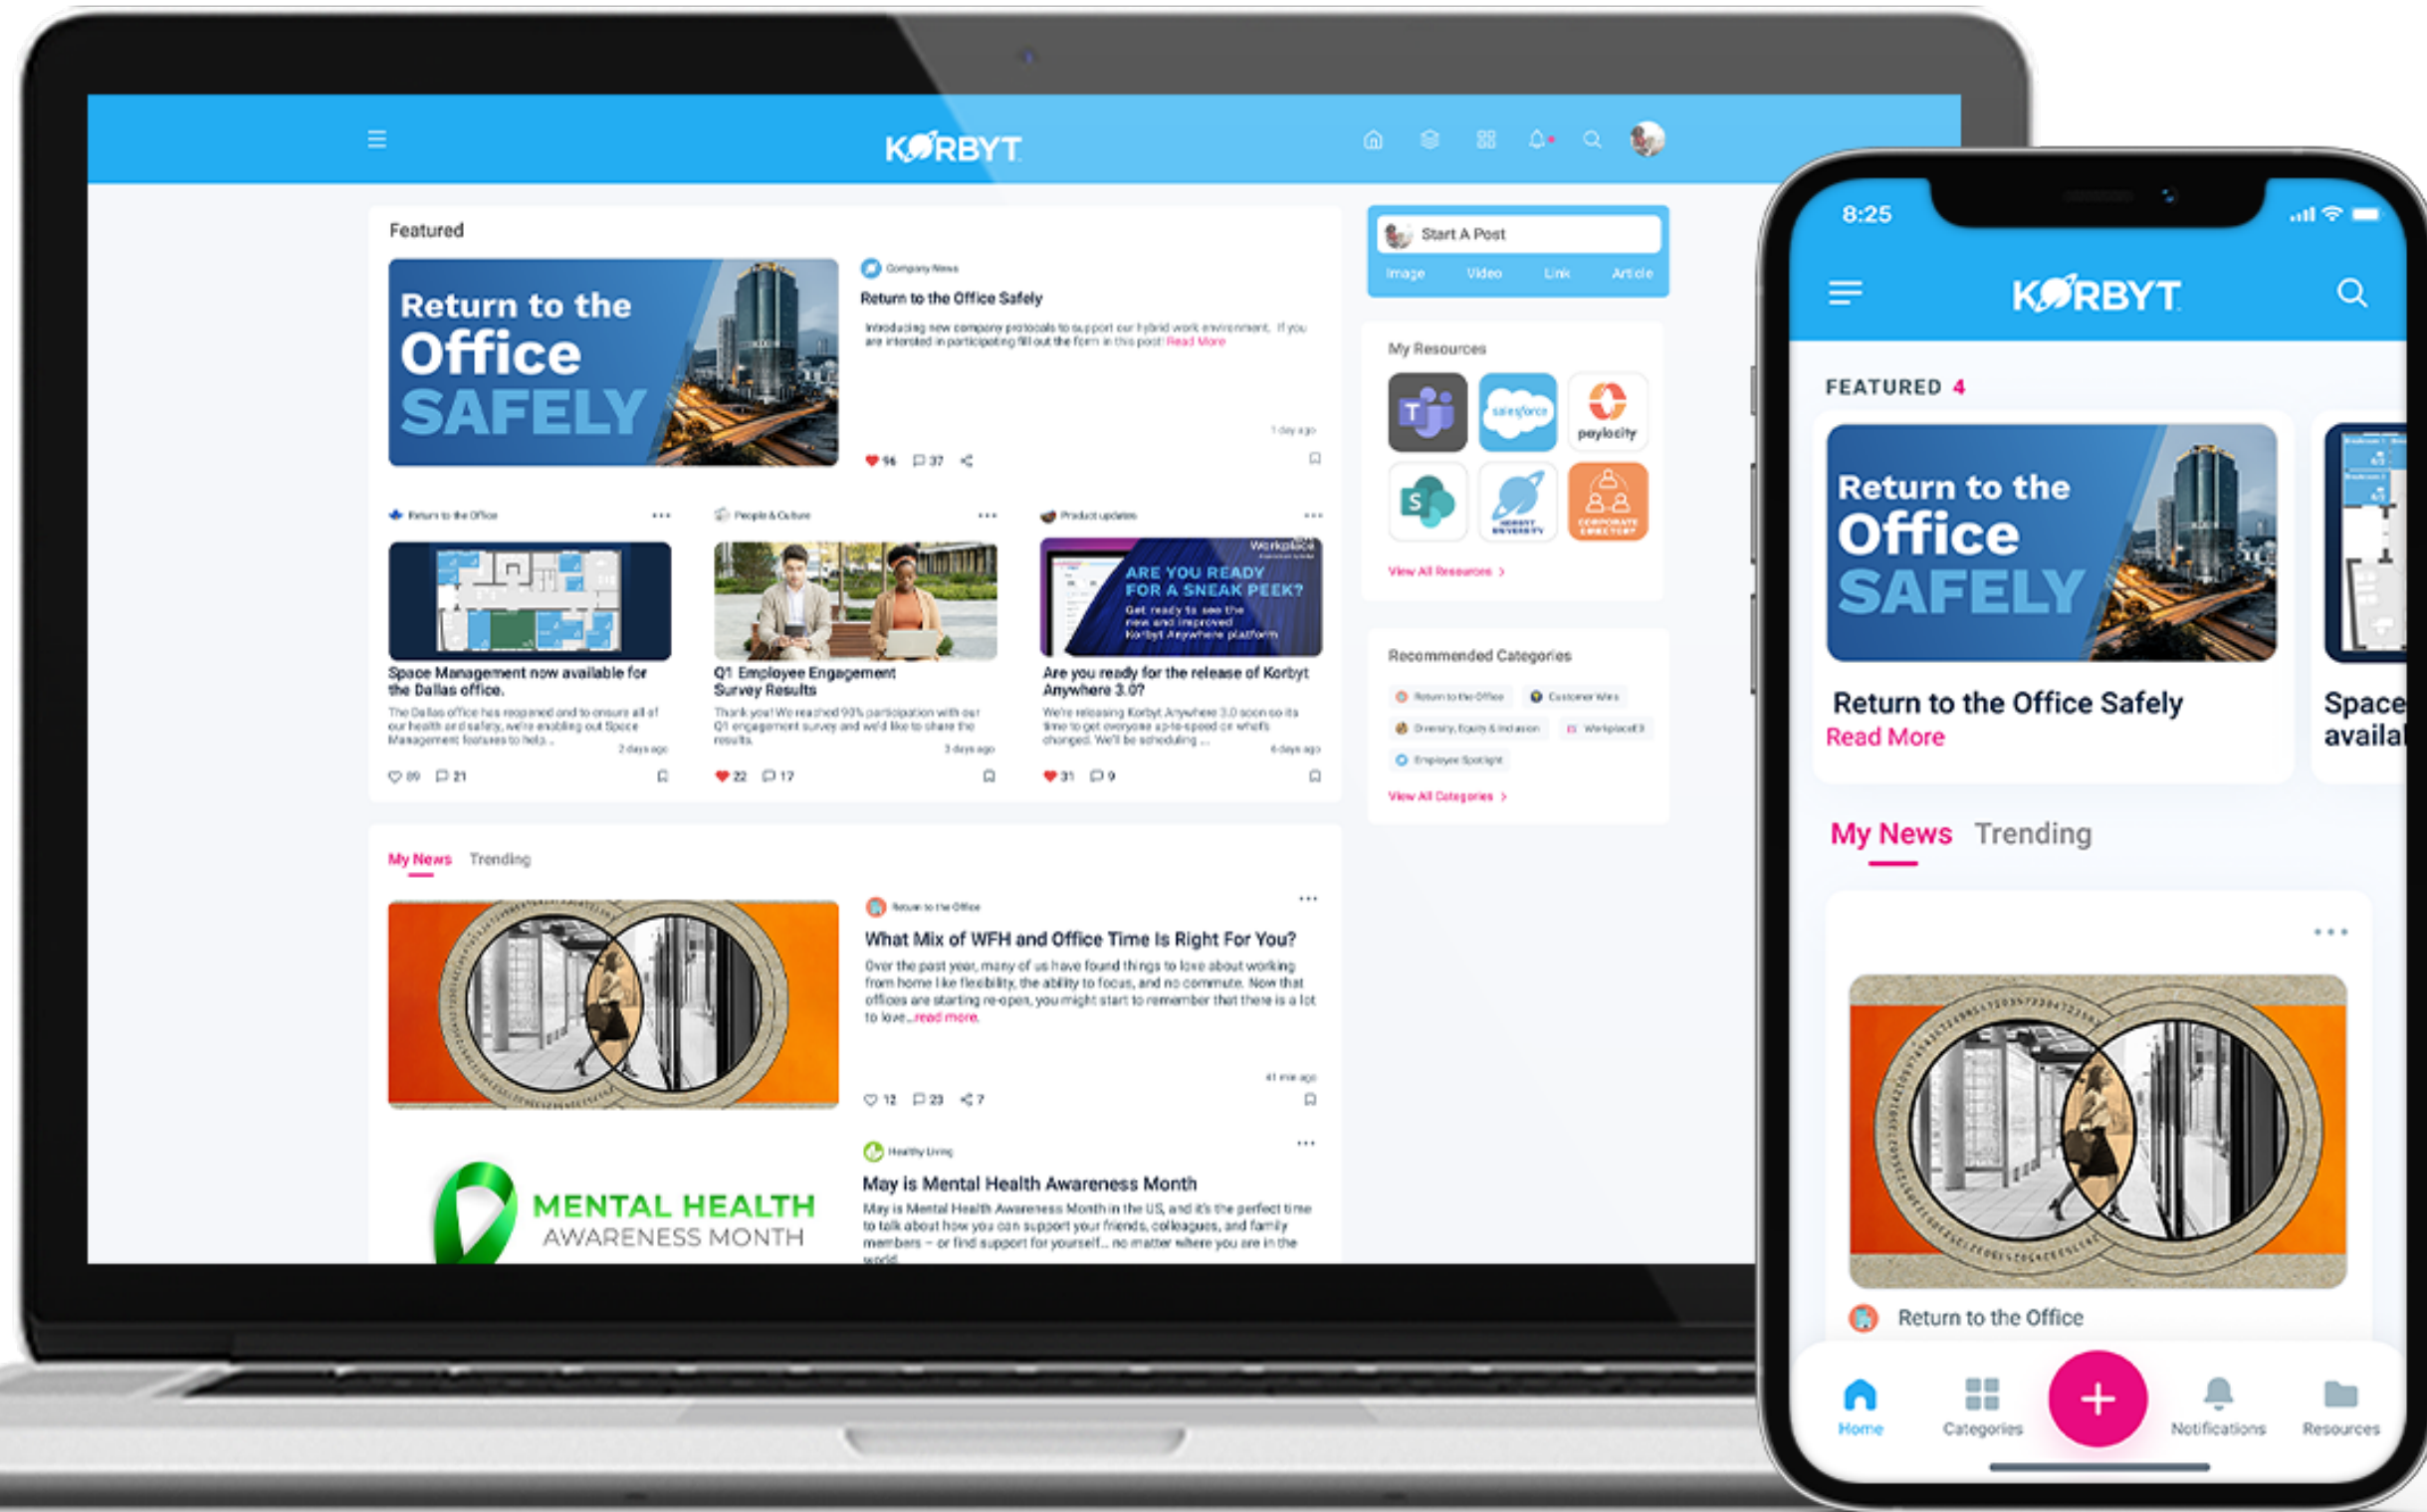

› Locate and reserve rooms, desks and workspaces

› Check-in, change or extend reservations via an easy, touchless mobile interface

› Manage workspace check-in and capacity through notifications and alerts

Wayfinding Maps that Navigate People to Places

Turn maps of your workplace into enhanced wayfinding screens that interactively guide employees to find their way around the office.

As employees come back to the office, inform and empower them with an easy way to navigate changes made to your physical workplace. Maps uploaded to Korbyt Anywhere can be 2D or 3D and help employees acclimate to new changes to physical office spaces while directing them from where they are to where they need to get to.

> Upload maps of a single floor or a building

> Search for and discover locations

> Plot your course and find the most efficient route

Communicate with Employees to Build Trust

Communicate your commitment to a safe, healthy, and welcoming back-to-office experience for employees.

❯ Establish trust through personalized employee communications to encourage the return to the office

❯ Reach every worker based on any targeted criteria like job type, geography, frontline, on-premises, or remote

❯ Ease minds and empower employees with simple self-serve workspace booking and touchless check-in

Workplace Analytics & Insights

Act on your data to measure and manage space utilization needs and opportunities across your hybrid workplace.

❯ Analyze how office space is being used

❯ Track which employees are using space

❯ Calculate space occupancy and usage by time of day and days of week
