

ORACLE NETSUITE
Solution Provider

SuiteSpaces is ERP Buddies custom built NetSuite business management solution for the Self-Storage industry. This intuitive solution provides facility managers and operators an efficient way to manage the day-to-day operations of a storage facility and to provide a unified view of the entire business.

It is also important to note that ERP Buddies is the ONLY NetSuite Solution Provider with a custom-built NetSuite solution for the Self-Storage industry. SuiteSpaces solution is a powerful software that target the issues of the self-storage facilities and online rentals facilities. This solution ensures businesses are equipped with a modern functionality that streamlines every department within a storage facility. As this self-storage software is built natively within NetSuite, users can access it via smart phones, tablets Windows, Apple MacBook's etc. making it an all-in-one cloud-based self-business management solution.

Key Features

Tablet, Mobile, Desktop and Laptop compatibility

Employees can work from anywhere, anytime as SuiteSpaces is fully cloud-based self-storage businesses management system. Users can use SuiteSpaces via their cellphones, tablets etc.

Cross platform and software integration

Integrate other software's with SuiteSpaces with ease. Our custom-built SuiteSpaces, NetSuite solution is fully integrable with your 3rd party software's, applications, websites etc.

Online tenant access for optimal customer service

Give your tenants complete access to make rent payments via credit card processing, view documents, check storage space, insurance status and more. Customers can also rent additional units online, provide electronic signature confirmations and skip the in-store processes. On the other hand, self-storage facilities can use SuiteSpaces on smart tablets where customers can log-in when they're present on-site.

Multi storage facility business access with OneWorld

Eliminate the need to maintain multiple business management solutions across multiple locations, as SuiteSpaces can provide multi-facility access from a single solution. Businesses that operate their self-storage operations in multiple locations, languages and currencies can implement NetSuite OneWorld to make this multi-facility management easy and convenient.

Convenient storage facility wide search bar

Users can navigate through loads of user data in matter of seconds with the search bar that can track tenants, leads and storage units with just their first and last name.

Hover cards for customer management & financial reporting

Team members hover over the customer profile to get a quick look at their balance, user status, occupants, transaction history and more. Employees can always click on the customer profile to get a detailed historical reporting of the customer.

**ERP Buddies' Custom built NetSuite
Solution for the Storage industry**

Key Features

Create a complete colour-coded interactive facility map

Users can use the unique drag and drop builder to create an interactive property map which can be used to create a complete colour-coded interactive facility map of the storage facility with information regarding which units are vacant/rented.

Software for landlords, property buyers & real estate management

Buy plot of land and convert it into a fully functional self-storage facility. With SuiteSpaces you can handle Change management, Plot management, Time & material tracking, Daily field reporting & more

Integrated priority list management

Users can create and setup priority lists for easy work management. Custom notifications can be setup to be triggered whenever a specific action is taken.

User roles & permissions

Define and setup custom rules/roles for your Users. Choose the action they can perform, give limited access, and secure your facility by giving the right amount of access to your departments and teams.

Get customer payments

Payments from tenants and customers can be processed securely with SuiteSpaces. Customers can make rental payment online, via email, or through a customer portal as well.

Vacate or rent the storage unit with ease

By clicking the "Move-out" button on the customer profile, the facility manager can get ready to vacate, inspect, get final payments from tenant, and clean the rented unit to keep it ready for the next potential tenant.

SuiteSpaces Revenue Management

Improve business profitability by conveying unit pricing changes conveniently. Managers can overlook current tenant status and can also get a complete overview of unpaid invoices, balances, paid units etc.

SuiteSpaces Advanced Electronic Bank Payments

Generate payment files to facilitate the transfer of payments across local and international bank accounts. SuiteSpaces also supports different types of payments formats and also accepts multi-currency payment processing
