Seamless Integration with CCH SureTax Platform

that can improve tax determination accuracy

CCH SureTax, the end-to-end reliable sales tax software, allows you to stay on top of constant tax legislation changes, collect taxes precisely, and automatically populates return documents - all within one platform.

“Using the CCH SureTax Returns allows the employees in our tax department to be productive in areas that would normally be used in filing sales tax returns. I am sure the products also allow us to perform the duties in the tax department without hiring additional employees.

We file in all jurisdictions throughout the United States. Some states require very extensive location-based filing. This translates, in our case, into 150 – 250 page returns in some states. We simply would not have the manpower to map data to the returns not to mention e-filing the returns.

Our company is approaching 1,000,000 transactions a month. The ability CCH SureTax give us to map this data into returns automatically is crucial to our job functions. I would recommend CCH’s products and services to other sales and use tax professionals.”
