

Corporations

Kira is an award-winning machine learning software that identifies, extracts, and analyzes content in your contracts and documents with unparalleled accuracy and efficiency.

Corporations can effectively mitigate risk, increase efficiency, and respond to regulatory changes by leveraging Kira to extract insights from their contracts to make data-driven decisions for their organizations.

PATENTED MACHINE LEARNING TECHNOLOGY

Kira is a patented machine learning platform augmented by our in-house subject matter experts, adding intelligence and visualization capabilities to enhance the accuracy and efficiency of your contract and document review process.

1,000+ BUILT-IN SMART FIELDS

Instantly get started on contract review projects by using Kira's built-in smart fields. Trained by experienced accountants and subject matter experts, this out-of-the-box feature extracts over 1,000 common provisions, clauses, and data points for you with high accuracy.

QUICK STUDY

Empower your corporation to meet the unique needs of your client or business by easily creating custom smart fields so Kira can accurately identify any desired provisions, clauses, and data points you want.

PARTNER ECOSYSTEM.

We collaborate with partners to optimize workflows for your team, enabling you to review, export and report with ease. Our ecosystem allows the flexibility to embed Kira into any existing frameworks with the capability to build new solutions, ultimately working better together.

ONE PLATFORM, MULTIPLE USE CASES

Kira amplifies your corporation’s capabilities, helping your various business teams analyze more contracts and documents with high efficiency and accuracy. Gain greater visibility within your contracts to make data-driven decisions by leveraging the use cases below. Our software is available in the cloud or on-premises, depending on your firm’s needs.

CONTRACT METADATA EXTRACTION.

Empower your company and advisors to accurately extract contract metadata in the implementation of a new contract management system (CMS) and its continuous population.

FINANCE. Immediately access loan terms with Kira for current or historical transactions and complete loan agreement due diligence quickly and accurately.

M&A DUE DILIGENCE. Streamline your due diligence process to rapidly find and prioritize contract liabilities and risk.

AUDIT. Complete audit reviews in a timely and cost-effective manner and reduce your team’s audit risk by reviewing more comprehensive sample sets.

CORPORATE ORGANIZATION. Optimize the drafting, negotiation, and management of all content within your shareholders’ agreements.

LEASE ABSTRACTION. Quickly access lease terms for a single building or an entire portfolio and use Kira to complete real estate due diligence efficiently with high accuracy.

COMPLIANCE. Ensure your corporation remains compliant and is able to respond quickly to all regulatory changes and unplanned events with a cost-effective approach.

GENERAL COMMERCIAL. Easily manage and determine valuable provisions, clauses, and data points in your service, supply, distribution, management, employment, and license agreements.

PROJECT MANAGEMENT. Improve the efficiency of any review project with Kira’s intuitive user interface, machine learning models, and workflow features.

“ Kira’s ease of use and scalability will help our team automate the extraction of business-critical information and... provide our clients with even more powerful and comprehensive contract discovery and analysis solutions.”
