

World class leading LMS for planning, knowledge sharing, and collaboration

INTERNATIONAL SCHOOLS

Meebook changes the classroom

The teachers' role in class and the collaboration between school and home, are some of the most important factors in relation to the individual child's learning and well-being. Meebook supports this by:

- Creating a change in relation to the teachers' understanding and use of knowledge sharing and collaboration.
- Creating a digital overview for the students.
- Giving parents insight into their child's well-being and academic progression in school.
- Better insights for school leadership regarding the didactical and pedagogical aims for the school.
- To be used for any pedagogical trend - now and in the future.

The vision of world's best learning platform

- 1 Well tested world class leading LMS technology 2.0.
- 2 Graphical user interface and extremely easy to use meaning low technology barrier for everyone.
- 3 No files, no folders.
- 4 Free online implementation and support of all staff.
- 5 Seamless integration to +100 online multimodal production tools.
