

Expense Management

Build + submit claims on the go, manage and reimburse expenses, and increase spend visibility via reporting.

Features of expenses management software

| Integrated + secure

Our cloud-based expense software integrates with over 50 finance systems. Your sensitive information is protected to the highest security standards via Amazon Web Services - meaning your data is safe, yet accessible from almost anywhere.

| Mobile expenses app

Manage expenses on the go with Webexpenses Google Vision-powered OCR technology. Users can capture their receipt and create a claim in under 30 seconds. Admins can review, approve, reject, and track expense reports via desktop or mobile.

| Mileage tracking

Driving expenses have never been easier to reimburse. Webexpenses mileage feature enables accurate point-to-point mileage calculation for users and automatic verification and policy flags for admins.

| Automated policy compliance

We build your specific company expense policy into the software. Policies are defined at the point of entry and out-of-policy claims are eliminated through active policy enforcement and automatic alerts.

| Account + admin dashboard

Webexpenses' dashboard offers accounts and admins an interactive way of analysing company spend. Features include: top 10 clients and vendors, out of policy approvers, time to review, and spend forecast.

| Corporate card matching

Intelligent Receipt Matching automatically pairs receipts to their correct card purchases. This feature eases user and admin workflow to provide quick and accurate expense reports for credit card management and reimbursement.

Benefits of expense management software

| 3 hours saved per claim

Free up time with a digital approach to expenses. Expense on the go, manage time to approve, and report on spend.

| 43% reduction in errors

Automatic policy enforcement and controls means no more duplications, expense fraud, or manual entry.

| 400% ROI

Fair pricing, eliminating ERP rekeying, increasing visibility, and automating T&E, means our software pays for itself.

| 24-hour support

Global support is available to all users. Webexpenses protect sensitive data by eliminating the need for third-party access.
