

Our Professional Services team will get your machinery compliance up to scratch.

Time to call in the experts.

Making sure all of your machines have an up to date risk assessment can be a time consuming headache. And getting all of your machinery compliance up to scratch can take resources that you just don't have.

When the consequences of compliance breaches can be catastrophic, it's critical to understand your legal obligations.

We've got the solution. The Ideagen Plant Assessor Professional Services team are machinery experts, on hand to come to you, fully assess your fleet, and help you understand your safety and compliance obligations.

What we do:

- Travel to you, with trained machinery experts
- Conduct any required risk assessments
- Photograph and catalogue machinery in Ideagen Plant Assessor
- Supply and fit safety decals
- Assist you in understanding and managing any outstanding actions
- Help you understand your legal obligations
- Take the time-consuming leg work off your plate

Take the stress out of machinery compliance, with:

- ✓ Largest qualified plant inspection team in Australia.
- ✓ Machinery risk assessments you can trust.
- ✓ Reports generated on-site, straight away.
- ✓ Friendly and professional end-to-end service.

Don't just take our word for it...

“

The guys from Plant Assessor illustrated both superior industry knowledge and customer service.

It's been a great business relationship since the very beginning and our partnership now spans over 10 years.

Bruce Connors, Pickles

“

I was impressed with the process they used to assess each piece of equipment. The team is extremely knowledgeable, efficient and thorough.

We are pleased to have found such a well credentialed business such as Plant Assessor to assist us with our safety assessment activity.

Alex Eiserman, Kennards
