

WebCargo Book

# Air Cargo Booking Made Simple

Join **10,000+** forwarding offices that search, compare and book air cargo more efficiently with the world's leading air cargo platform.

Instant air freight pricing, capacity, transit and more across 55+ airlines for IATAs and IACs, including\*:

## Features

FREE

### Pricing and capacity in real-time

- **Search options** based on rate, speed, value (best rate & transit time) or carbon footprint
- Includes **surcharges** and **fees** provided directly from airlines
- Support for free-sale **ULDs**, **temperature-controlled**, **express shipments** and more

### Book air cargo in seconds

- **24/7 access** to real-time bookable rates with industry-leading acceptance rate > 95%
- Leverage **AWB stock**, **auto-AWB options** or **direct eAWB integration**
- Integrated shipment status **confirmation** and **tracking**
- **Save over one hour per day** per team member on booking air cargo

### Packed with features that...

- Increase business and profit margins with global imports through **delegation options**
- Enhance booking efficiency by **bookmarking searches** and share with team members
- **Streamline searches** and automatically pre-fill with AI-powered autofill units
- Offer **customizable settings**, such as dimensions in imperial, metric, or both systems
- Reduce financial reconciliation efforts with **integrated payments**
- Plus currency conversions, CO2 visibility and offsetting, TMS integrations, and more

## Future-proof your freight pricing, booking and sales with WebCargo's forwarder suite

We're using WebCargo for obviously online booking. We're looking for rate look-up...from an end to end perspective, which is rather important for us...to be capable to give information in no time to our customers... It's for sure faster and more on the spot than sending out emails to different partners or carriers.
