

Optimize your hiring process to make recruiting what your company does best

JazzHR Pro is an applicant tracking system that will help your company re-shape its entire recruiting process. With JazzHR Pro, you'll have access to powerful features that will optimize both how and who your company hires.

Powerful recruitment software for your entire hiring process:

Accurately assess and easily compare potential hires

Assist hiring managers in aligning recruiting teams around a profile of the ideal candidate with role-based criteria requirements.

Digitize all the paperwork of the offer process

Offer management made easy, digitally create and send offer letters in minutes and accept electronic signatures.

Generate critical recruiting reports in seconds

Stay compliant and easily identify where the best candidates are found. Dig deeper to expose bottlenecks in your process.

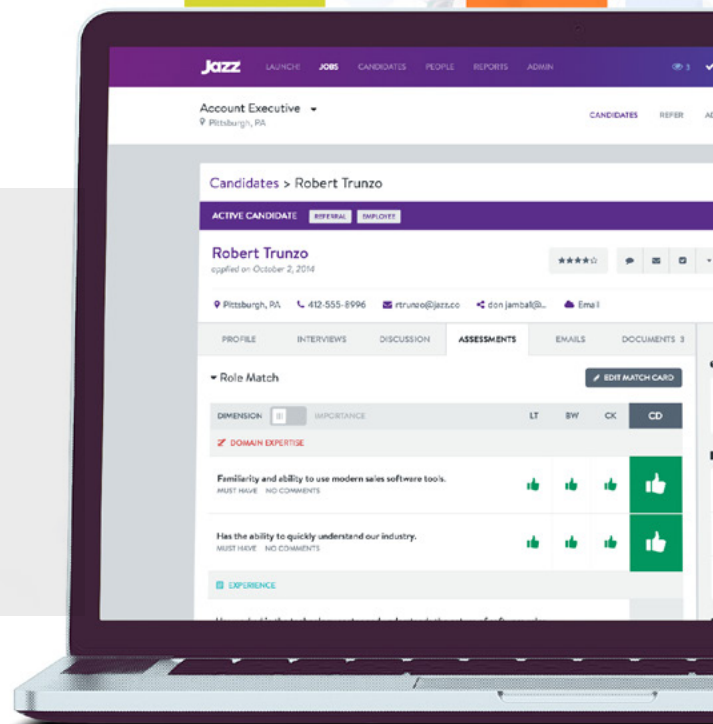

MUSEUMHACK

"JazzHR has been a big time and "mental energy" saver for us. We used to get hundreds of emails that would come during the day and need to be filtered or responded to. Now we have one access point that we can handle on OUR schedule."
