SaaS

On-premise

Hybrid

Features

Data-Driven Testing

- Input test data can be provided in CSV format
- It enables bulk upload of credentials through a single CSV file

Regression Testing

- It helps create regression plans by leveraging the 'execution plan' feature

Reusability

- Multiple steps in a test case or parts of it can be reused in a test case workflow

Collaboration

- Automaton™ facilitates sharing of test cases and steps with other users using the platform
- It can connect to external databases, execute functions and validate the output of the query

No-Code Testing

- It's an agile test automation tool for end to end application testing
- Its visual flowchart-based UI is tester friendly

UX & Usability

- A highly configurable GUI and CLI enable complete application testing in a single test case
- For complex user journeys, test cases can be re-arranged throughout the execution plan

Quick Adaptation

- It is designed to match with the modern interaction methods
- Its intuitive UI and support documentation help users to learn the tool quickly and easily

ABOUT TORRY HARRIS INTEGRATION SOLUTIONS

Torry Harris Integration Solutions (THIS) enables digital ecosystems through adoption and use of API driven digital opportunities. We bring 20 years of focused integration experience with impeccable, long standing references in enabling digital transformation for enterprises. We are headquartered in New Jersey, USA with offices in UK, Ireland, France, Germany, UAE and India.
