“

SchoolMint [Enroll] has helped us communicate better with families, especially in regards to interdistrict transfers . . . those [enrollments] translate to additional dollars for the bottom line and help us balance our budget.”

Dr. Mike McLaughlin

Superintendent
San Leandro Unified
School District

Why Districts Love SchoolMint Enroll

- **Flexible and Easy to Use:** SchoolMint Enroll was built to be flexible, functional, and intuitive for districts. Whether your needs are simple or complex, you can customize the system to be exactly what you need.
- **Easy for Parents:** Families don't need a computer (or even an email address) to enroll. SchoolMint Enroll empowers parents to enroll, upload documents, and receive text updates all through their phone.
- **Equitable, Fair, Accessible:** With 16 fully built-in languages and Google Translate integration for all others, SchoolMint Enroll ensures all families in your community can access enrollment.
- **Data Management at Scale:** Effortlessly collect, sort, and move district-wide family and enrollment data, then easily sync it into your SIS when ready.
- **Student Data is Safe:** SchoolMint Enroll has rigid controls in place to protect student information and is compliant with FERPA and SOC 2.

End-to-End Enrollment Management

SchoolMint Enroll supports every phase of the enrollment process — including student transfers, magnet and choice programs, ECE, out-of-district enrollment, and SIS synchronization.

- Application management
- Lottery and placement
- Registration and re-enrollment
