

GDPR/DSGVO compliance

Your data is safe with us

Data privacy is our top priority

Meebook is a safe platform and we do not share data with third parties.

We use firewalls and encryption to protect our platform against unauthorized access and attacks.

All Meebooks staff are trained in data protection and information security.

Meebook supports better data consistency.

GDPR/DSGVO-compliant

We follow EU general data protection regulation (GDPR) and secure your privacy.

We have annual audits and security.

Local server hosting.

No third country transfer.

Firewall and anti malware.

Yes, we are certified

We constantly strive to be at the forefront of the latest data security measures, which is why we also value data certifications very highly

Therefore, we do annual audits and data security checks to ensure our system is updated and meets the current requirements. We have independent annual audits to review our data protection and our ISAE certificates are prepared by PwC.

ISAE 3000

ISAE 3000 is applied for audits of internal control, sustainability, and compliance with laws and regulations.

ISAE 3000 Statement of handling personal data policy.

ISAE 3402

ISAE 3402 declaration documenting that operations and IT conditions meet the legal requirements and good IT practice.
