Attendance & Behavior

Attendance Marking and Reporting

Choose daily attendance – featuring commenting and tracking for multiple attributes – or take attendance for each subject – with optional conduct grades.

Attendance is a snap to enter. And, once submitted, these records are immediately available to the school office. Administrators can then see who was marked absent, tardy, etc. A plethora of attendance reports can then be generated.

Behavior

Discipline incidents and behavioral issues can be entered and tracked by administrators, and optionally, by teachers. See patterns and notify teachers of potential conflicts.

Preschool Sign-In

Make a great impression on parents with Gradelink's secure Preschool Sign-In.

It's easy for parents or authorized guardians to check students in and out on a computer, tablet or smartphone. Administrative staff can see instantly which students are on campus.

Use Preschool Sign-In to automatically record attendance each day and speed up your billing process with a record of each student's time in the classroom.

Have a parent who needs to authorize someone to pickup their child on a particular day? Or how about an entire week? It can handle that, too.
