

Carrus Workforce Placement

Connect with experienced Allied Health professionals in your area to fill in-demand roles – fast.

Strong Connections Build Stronger Team

The cost of turnover for your organization is steep—running as high as 150% of every former employee's annual salary.

And because it takes an average of 49 days to fill one vacancy, you probably find yourself caught in a revolving door of employees.

Let's change that.

The Carrus Workforce Placement portal is built to connect trained, certified, and experienced professionals with the health systems looking to stack their teams with exceptional talent.

How it Works

Assess Your Needs

Diverse populations, varying resources, and assorted specialties all result in unique staffing needs. We'll customize our approach to help you find the best placement solutions.

Reduce Hiring Costs

The average healthcare institution spends between \$10,000 and \$20,000 to find, fill, and train for every open position. Today, health systems using the Carrus Workforce Placement portal **save upwards of 70% for every hire.**

Definitive Results for Greater Success

How quality hires from the Carrus Workforce Placement portal can impact your business:

30%

more likely to stay for at least one year

2x

more productivity across teams

100%

trained in defined and distinguished skills

Fill In-Demand Roles

Our technology makes it easy to cross-reference credentials and skills with working professionals in your area so you can build strong relationships and fill the roles your organization needs most **in half the time.**
