CALCULATE THE COST OF ABUSE

DISA's Drug Test Calculator uses the historical 24 months of drug test data in safety-sensitive industries to forecast the positivity rates for a company as they begin drug testing. As more and more companies are also doing background checks in their employee screening, we also include background check data for the same time frame.

Con Edison	N/A

MARIJUANA LAWS BY STATE

Marijuana laws are changing at a rapid pace across all 50 states, making things a bit confusing at times. In order to keep up with the ever-changing laws, DISA has provided this interactive map for information on legalization, medical use, recreational use, and anything in between. DISA updates this interactive map monthly.
