

# Secure IT Asset Disposal

*Safe, Ethical and Secure Asset disposal.*

## Do you have old IT equipment sitting unused and taking up space?

Why not make money whilst protecting the environment, by recycling your redundant and unwanted IT equipment using Technimove, a certified and licensed waste carrier!

By providing a full end-to-end disposal solution, from fully uniformed staff collecting all assets in a modern GPS tracked fleet of vehicles to providing full comprehensive certification upon disposal, we cater to all IT Asset Disposal needs from a single device to entire facilities.

With an established internal logistics infrastructure, our secure recycling facility is situated in South London within touching distance of the M25. Technimove provide UK and European disposal collections, often at short notice and at competitive rates.

## What sets us apart?

- ★ One of only 44 companies globally to hold the rigorous ADISA accreditation.
- ★ Purpose-built state of the art recycling facility.
- ★ Dedicated engineers cleared to DBS and NPPV2 as a minimum.
- ★ All devices we collect are wiped as standard utilising industry leading Blancco software.
- ★ Items are crushed or shredded down to 6mm on request.
- ★ Certification to ensure our clients remain compliant of all regulatory requirements.

## Why choose Technimove?

As well as being ADISA accredited, Technimove also hold ISO 9001 and ISO 27001 certifications to ensure that the service provided to its clients is of the highest standard. With these processes in place, along with the established recycling and logistical infrastructure, Technimove can satisfy all your IT asset disposal requests.

- ⊙ ADISA accredited.
- ⊙ ISO 9001 accredited.
- ⊙ ISO 27001 accredited.
- ⊙ Fully certified by the Environment Agency.
