your Clinic May
Have!

IOTA
INFORMATICS

DigiQure

It all started in 2018 when three NIT-Bhopal alumni & friends collaborated to serve the greater good in India's Healthcare Sector

DigiQure is a *State-of-the-Art* Clinic Management Software owned and marketed by IOTA Informatics Pvt. Ltd. It provides infrastructure to doctors and guidance to the patients, right from initial consultation through every stage of the treating cycle.

Streamline your clinic while improving productivity & patient care

It becomes our moral responsibility to serve the healthcare community during these tough times.

Digitize your Clinical Practice with DigiQure

Complete Clinic Management Software with Digital Prescription, Electronic Health Records, Billing, Bulk and Transactional SMS and Integrated Payment System.

Cloud based solution with unlimited media upload of prescriptions & reports, and ability to directly share data with patients and pharmacists

Video Consultation including video/voice call and chat

Dedicated staff who will set everything up online while you are in the comfort of your home.

Excellent 24x7 Support to ensure you're happy with DigiQure

During such a challenging time, **DigiQure** wants to show its commitment and support for doctors and the Healthcare Industry!

If not now, then when?

- ❑ Your **data will be deleted after one month of inactivation**

Want to be a part of "The Future of Healthcare System"?

[Fill up this quick form](#) & we'll get your system ready in no time!

Video Consultation || Telemedicine

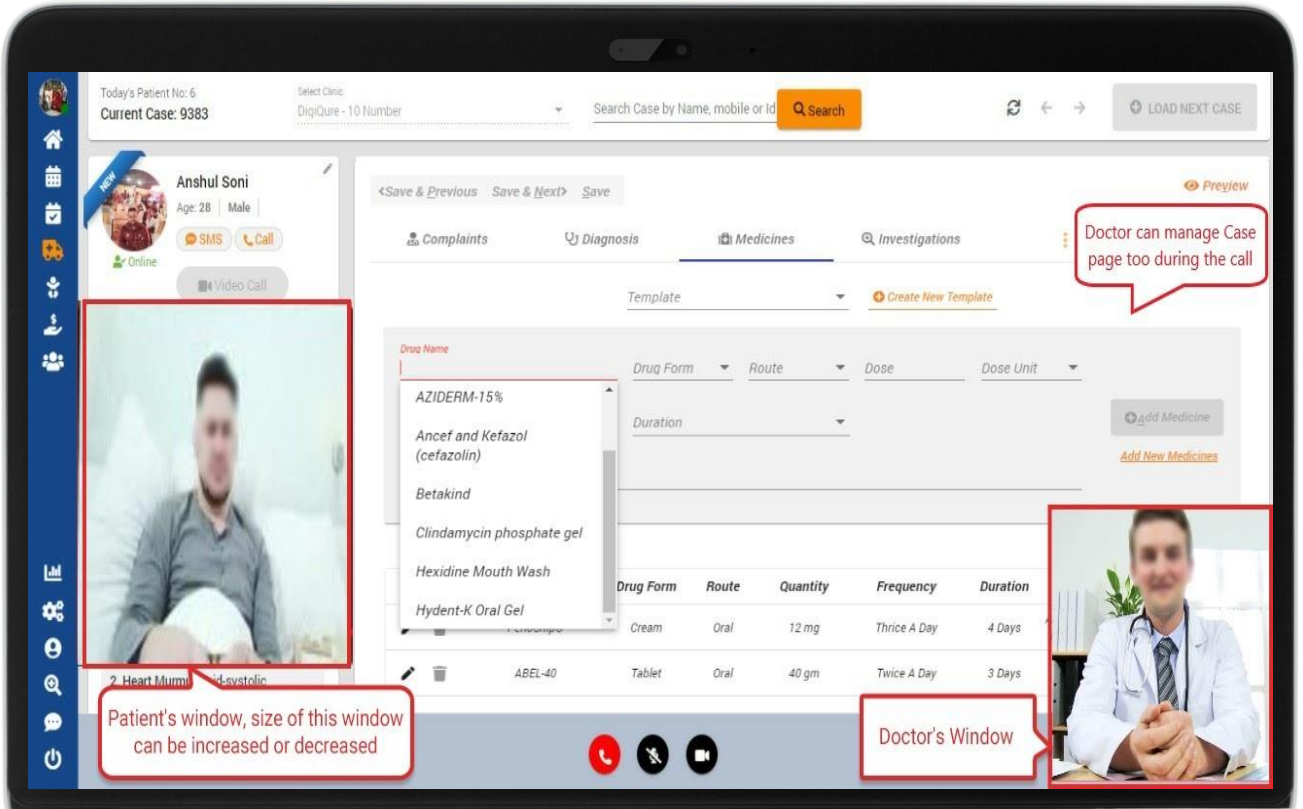

- ❑ **Serve your patients remotely** who are in need of medical assistance, even while we're learning to live with COVID-19
- ❑ Through **Video Call** feature, consult your patient from a safe distance
- ❑ The services for Video Call are **completely free**
- ❑ For Telemedicine, we **abide by & adhere to** all the **guidelines issued by Government of India**
- ❑ **Chat or talk** with your patients when they are in need while not losing crucial patient information

How to provide Video Consultation?

- ❑ Patient will book a video consultation via [Patient's App](#) or by visiting DigiQure.com
- ❑ Once booked, you'll get a **notification via SMS** with patient details and appointment schedule
- ❑ Alternatively, you can also book a Video Call on patient's behalf via your panel
- ❑ Using the appointments tab you can then start the video call on your own
- ❑ You can check if patient is online right from the patient's case page
- ❑ While giving video consultation, you can add patient's complaints, diagnosis, medicines to **make comprehensive digital prescriptions**

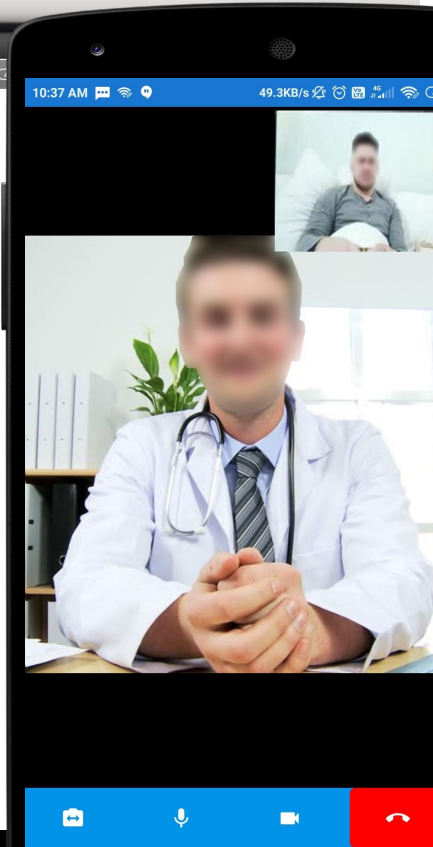

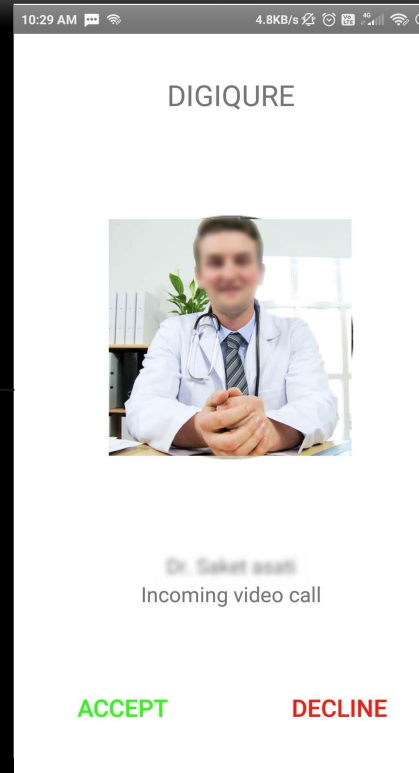

It's up to you to charge for video call or make your consultation free. If chargeable, patient will pay using **UPI, Paytm, Debit/ Credit Card payments, Netbanking**, etc. Payments will be collected by us and we'll settle all payments in the same week.

You can use **Bulk SMS services** to educate your patients on Telemedicine & Video Call facility.
