Learning is at the heart of any top-performing organization. In a world where change is the only constant, businesses must now be able to reskill, upskill, onboard, maintain compliance, and protect the physical and mental health of workers with greater agility than ever. As companies seek the “adaptive advantage,” learning is critical to moving the organization forward with a centralized strategy but also with agile, targeted paths for different learner groups both inside and outside the company.

Products in the SAP Litmos solutions portfolio:
- SAP Litmos Training
- SAP Litmos Training Content
Why SAP Litmos Solutions?

SAP Litmos solutions enable companies to leverage learning as a key connection between people and performance – both individual and organizational. Trusted by thousands of global brands, SAP Litmos Training delivers powerful but easy-to-use LMS features for admins and learners alike. SAP Litmos Training Content is an off-the-shelf content library full of professionally-created, video-based courses on topics from compliance to sales and service skills to health and well-being – and everything in between.

The combination of the LMS and content library save vast amounts of time and effort for L&D teams. Countless tasks and communications can be automated. Content can be curated from the built-in library. And, the interface can be easily customized to match the company’s brand, even offering different layouts and designs to create unique experiences for different audiences.

SAP Litmos solutions enable businesses to deliver critical knowledge to employees, customers, and partners at any time, on any device — even offline. They empower employees to perform at their best; increase customer engagement and loyalty; and deepen commitment and contribution from the extended enterprise. It’s the only learning platform a company needs to centralize and deliver training across the entire business.
Key features

**Quick deployment & simple integration**
Deploy in minutes not months and easily integrate with the rest of your ecosystem. Choose from 30+ out-of-the-box connectors or build your own using open APIs.

**Custom UI branding & dashboards**
Customize SAP Litmos Training to match your company’s brand. With basic CSS and HTML knowledge, admins can customize the interface down to the finest details from fonts and colors to headers and footers and more. Also, dashboards can be configured to meet the needs of different learner types.

**Fast, automated user onboarding**
Get learners started immediately with automated email invitations, an intuitive UI, and single sign-on through integrated systems. Create rules to automatically assign courses, learning paths, and team placement.

**Built-in content authoring**
Create dynamic and visually-appealing SCORM content within the LMS. Designed to support everyone from the novice trainer to the expert instructional designer, this eliminates the need for external content creation applications.

**High engagement & adoption**
Increase engagement with built-in tools like gamification (leaderboards, badges, points), interactive hotspots, achievement social sharing, and discussion forums.

**Universal accessibility**
Make training accessible from anywhere 24/7 on or offline, and to learners with disabilities. With 35+ preconfigured languages, users can select their language of choice, eliminating barriers to learning.

**Rapid automation & embedded AI**
Automate alerts to prompt users to take training. Define assignment rules; schedule automated reports; and score learners’ video assessments with AI-powered analysis.

**Robust reporting & analytics**
Measure and influence performance; and track course completions, test averages, content popularity, and more with built-in reporting and analytics.

**Industry-leading security**
Trust that all data is encrypted and stored behind a firewall, transferred over HTTPS, keyed with a private certificate, and GDPR compliant.

**Limitless global scalability**
Scale your solution up to millions of global users. You can even start small and scale as your needs grow, adjusting as you increase your number of learners or expand into new areas of your business.
