Companies like yours face the challenge of managing their most valuable information and powering critical processes across teams — including people both inside and outside the organization. These workflows involve more content than ever before. With collaboration so widespread, securing your critical files and managing risk across your people, devices, and apps is now an urgent issue. That’s where we come in.

Box gives you a single content platform for secure content management, workflow, and collaboration

<table>
<thead>
<tr>
<th>Frictionless security and compliance</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Visibility and control</strong></td>
</tr>
<tr>
<td>Gain visibility with one console for all users and integrations</td>
</tr>
<tr>
<td><strong>Information governance</strong></td>
</tr>
<tr>
