

Accredible is the world's most comprehensive digital badge and certificate platform

Easily and securely issue, manage, track, and verify your digital badges and digital certificates within one single powerful platform.

Digital Badges

Illustrate growth, incentivize behaviour, and recognize progress.

Digital Certificates

Represent achievements, eliminate fraud, and maximize value.

Blockchain Credentials

Record credentials on the blockchain for security and fraud prevention.

Integrations

Issue digital credentials seamlessly within existing systems & platforms.

Analytics

Understand your ROI, grow your program, and track engagement.

Spotlight Directory

Own and brand a recognized directory of qualified professionals.

Job Market Insights

Help recipients understand how your credentials enable career pathways.

Digital Wallet Cards

Take digital credentials everywhere for on-site presentation & verification.

Branding

Brand the recipient experience to reinforce value & legitimacy of awards.

White Labelling

Replicate the environment of your site with complete branding control.

THE PROBLEM

Credentials that lack professionalism, control, security, and visibility

Physical and PDF credentials take time to deliver, can be easily spoofed or replicated, and offer a poor recipient experience. Once they are produced and delivered, issuers lose control over the validity and visibility of credentials.

THE SOLUTION

Easy-to-manage, secure, verifiable digital credentials delivered instantly

Deliver branded credentials on qualifying actions of candidates. Retain control over credentials with automated expiration and renewals, or revoke credentials as required. Benefit from the built-in marketing power of shareability.

THE RESULTS

Digital credentials that increase visibility and offer a positive recipient experience

Support busy departments and maximize your ROI with automated credential management. Strengthen brand awareness & increase online visibility. Empower learners to back up skill assertions with portable, verifiable evidence.

4.8

Average G2 Rating

Ranked **No. 1** on G2 Crowd for Enterprise Digital Credential Management Software

WHAT OUR CUSTOMERS SAY

Potoula Chesomales, Skillsoft

“Accredible has excellent APIs for integrations which allows us to create a seamless, white-labeled experience for our users.”

Kaci Lamb, NACE Institute

“Digital credentialing is an enormous benefit to our certification holders, increasing convenience and certification security.”
