12 reasons why you need PleaseReview

PleaseReview is an advanced collaborative document review, co-authoring and redaction solution used by organisations across industries to improve document creation and review processes.

Maximise productivity with real-time collaboration preventing duplication of effort

Produce higher quality documents by focusing reviewers on content rather than formatting, process or tools

Robust consolidation report gives an audit trail of every contribution for full traceability

Collaborate with 3rd parties without compromising document control or security

Achieve faster turnaround times and meet tight deadlines by reducing review times by up to 65%

Redact confidential data to allow for selective disclosure of information and compliance with regulations

Reduce review costs by up to 35%

Gain better visibility of reviews and easily track progress of reviewers

Improve version control with all contributions and comments made in one version of the document

Keep everyone involved with automated emails to alert reviewers when they need to take action

Gain better control over the document with customisable reviewer roles and zone allocation

Secure access anytime time anywhere with access via mobile device and offline
