## 10 LEAVE APPLICATION

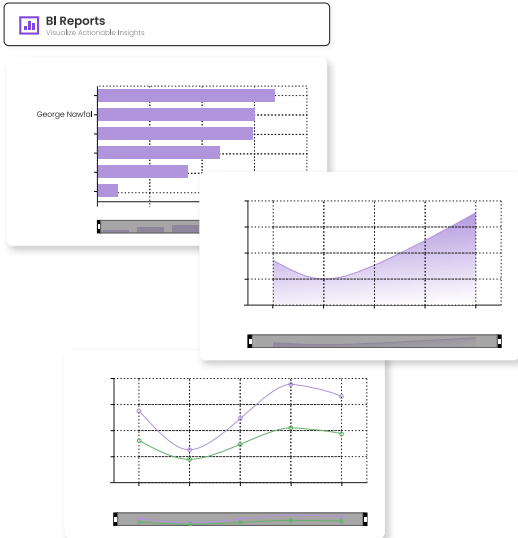

We have developed an Advance leave application module which will help your employees to apply leave and you as an Admin can approve or decline it. Life with we360.ai becomes easy for you and your employees.

# 11 KANBAN TASK MANAGEMENT

We at We360.ai have developed kanban board , an agile project management tool designed to help visualize work, limit work-in-progress, and maximize efficiency (or flow). It can help both agile and DevOps teams establish order in their daily work. Kanban boards use cards, columns, and continuous improvement to help technology and service teams commit to the right amount of work, and get it done!

To increase their efficiency

# 12 BI DASHBOARD

A Business Intelligence Dashboard or BI Dashboard is a powerful reporting tool that simplifies visualization and analysis of complex data. With We360.ai's BI Dashboard an organisation can track key performance indicators (KPIs), trends, metrics, and other information important to the entire organization, departments, or teams.
