# What is Concierge?

Concierge is an online scheduler that easily integrates with any existing web form.
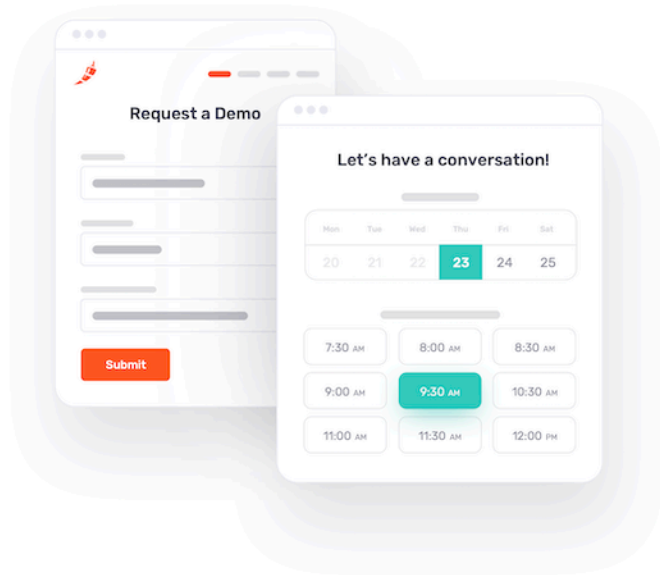

Once the form is submitted, Concierge qualifies the lead, routes it to the correct sales rep, and displays a simple self-scheduler for your prospect to book a time – all in a matter of seconds.

With Concierge you'll convert twice as many inbound demo requests into held meetings. That means double the amount of pipeline generated from your existing website traffic.

# What is Concierge?

## Web form scheduling

Automatically book demo requests and consultations on the spot. Connect Chili Piper with any web form to convert leads into meetings at the moment they submit your form.
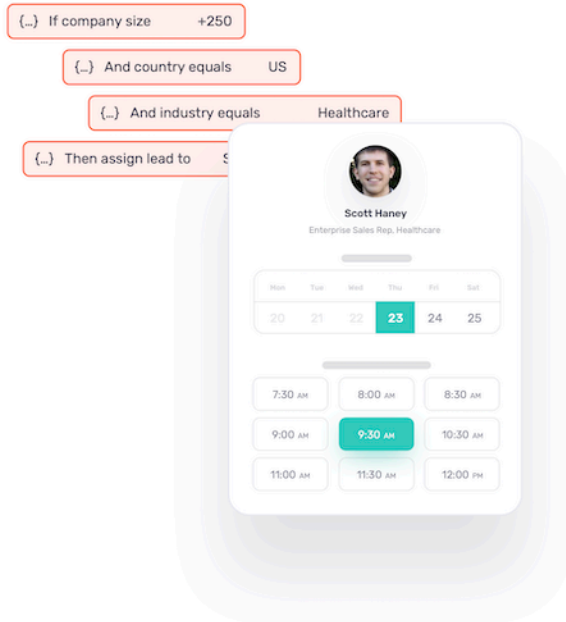

## Real-time lead qualification

Say goodbye to manually qualifying leads. Use the information collected through your webform to instantly qualify and distribute inbound meetings.
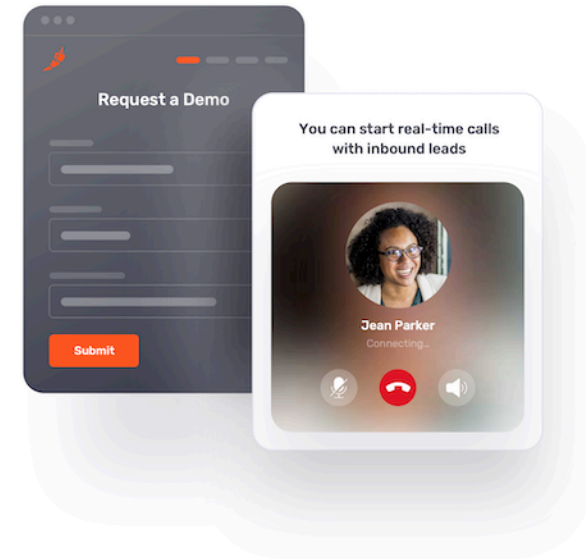

## Advanced meeting routing

Build intelligent routing rules that automatically assign leads to the correct rep based on a combination of fields, including territory, company size, account ownership, and more.

## Real-time phone and video calls

There's no better indication of a hot lead than someone who's ready to talk now. Immediately start a conversation with those inbound leads by connecting them with your reps via video or phone.

# Other Features Include

✔️ **Calendar Integrations**

with GSuite and Outlook

✔️ **Salesforce Integration**

for seamless two-way data sharing

✔️ **Email and Text Reminders**

to reduce no-shows

✔️ **Simple Re-scheduling**

to reduce cancellations and no-shows

✔️ **Round Robin Routing**

to ensure even pipeline distribution

✔️ **Group Booking**

to easily coordinate multiple calendars

✔️ **Flexible Call Rules**

to handle vacations, off-hours, busy reps, and more

✔️ **No Show Management**

to track meeting success rates in Salesforce

✔️ **Reserved Meeting Blocks**

to help reps own their schedule

✔️ **Meeting Buffers**

to add rest time before and after meetings

## The best experience for prospects and customers

When booking a meeting on your website, recipients can book instantly with one click. Other platforms kick them to a separate screen to complete another form

## The most sophisticated routing capabilities

Chili Piper is the only platform with a two-way Salesforce integration that supports advanced routing logic based on things like account ownership. Other platforms stop at a simple round-robin.

## The most robust Salesforce integration

From day one our solution has been designed to integrate seamlessly with Salesforce. No scheduling tool has a better Salesforce integration than we do.

## Only book with qualified leads

Concierge lets you qualify leads instantly and only book with prospects that meet your criteria. With other tools, every lead can book, even if they're a terrible fit – resulting in wasted time and poor conversion rates.

> Right after we implemented Chili Piper we saw a 50% lift in inbound meetings booked. We now see 5x as many meetings as we did before starting with Chili Piper and our revenue is around 300% - even with half the size of the sales team.
