Getting Started Guide

Simple cloud-based business apps that
everyone loves & anyone can use.

What Is Hiwyre Suite?

We've created Hiwyre Suite with one goal in mind: to give small and medium sized businesses the power to create, manage and publish custom content from anywhere, anytime. With its easy-to-manage cloud platform, user-friendly apps and data analysis tools, Hiwyre Suite can save your business valuable time and money while providing your customers with an interactive user experience that inspires deeper engagement.

Creating An Account?

Step 1

From the cloud-based dashboard

Visit suite.hiwyre.com and click 'Get Started'.
(Recommended)

From a Hiwyre Suite App

Visit your devices AppStore and search 'Hiwyre'. Download and install your desired Hiwyre Suite app.

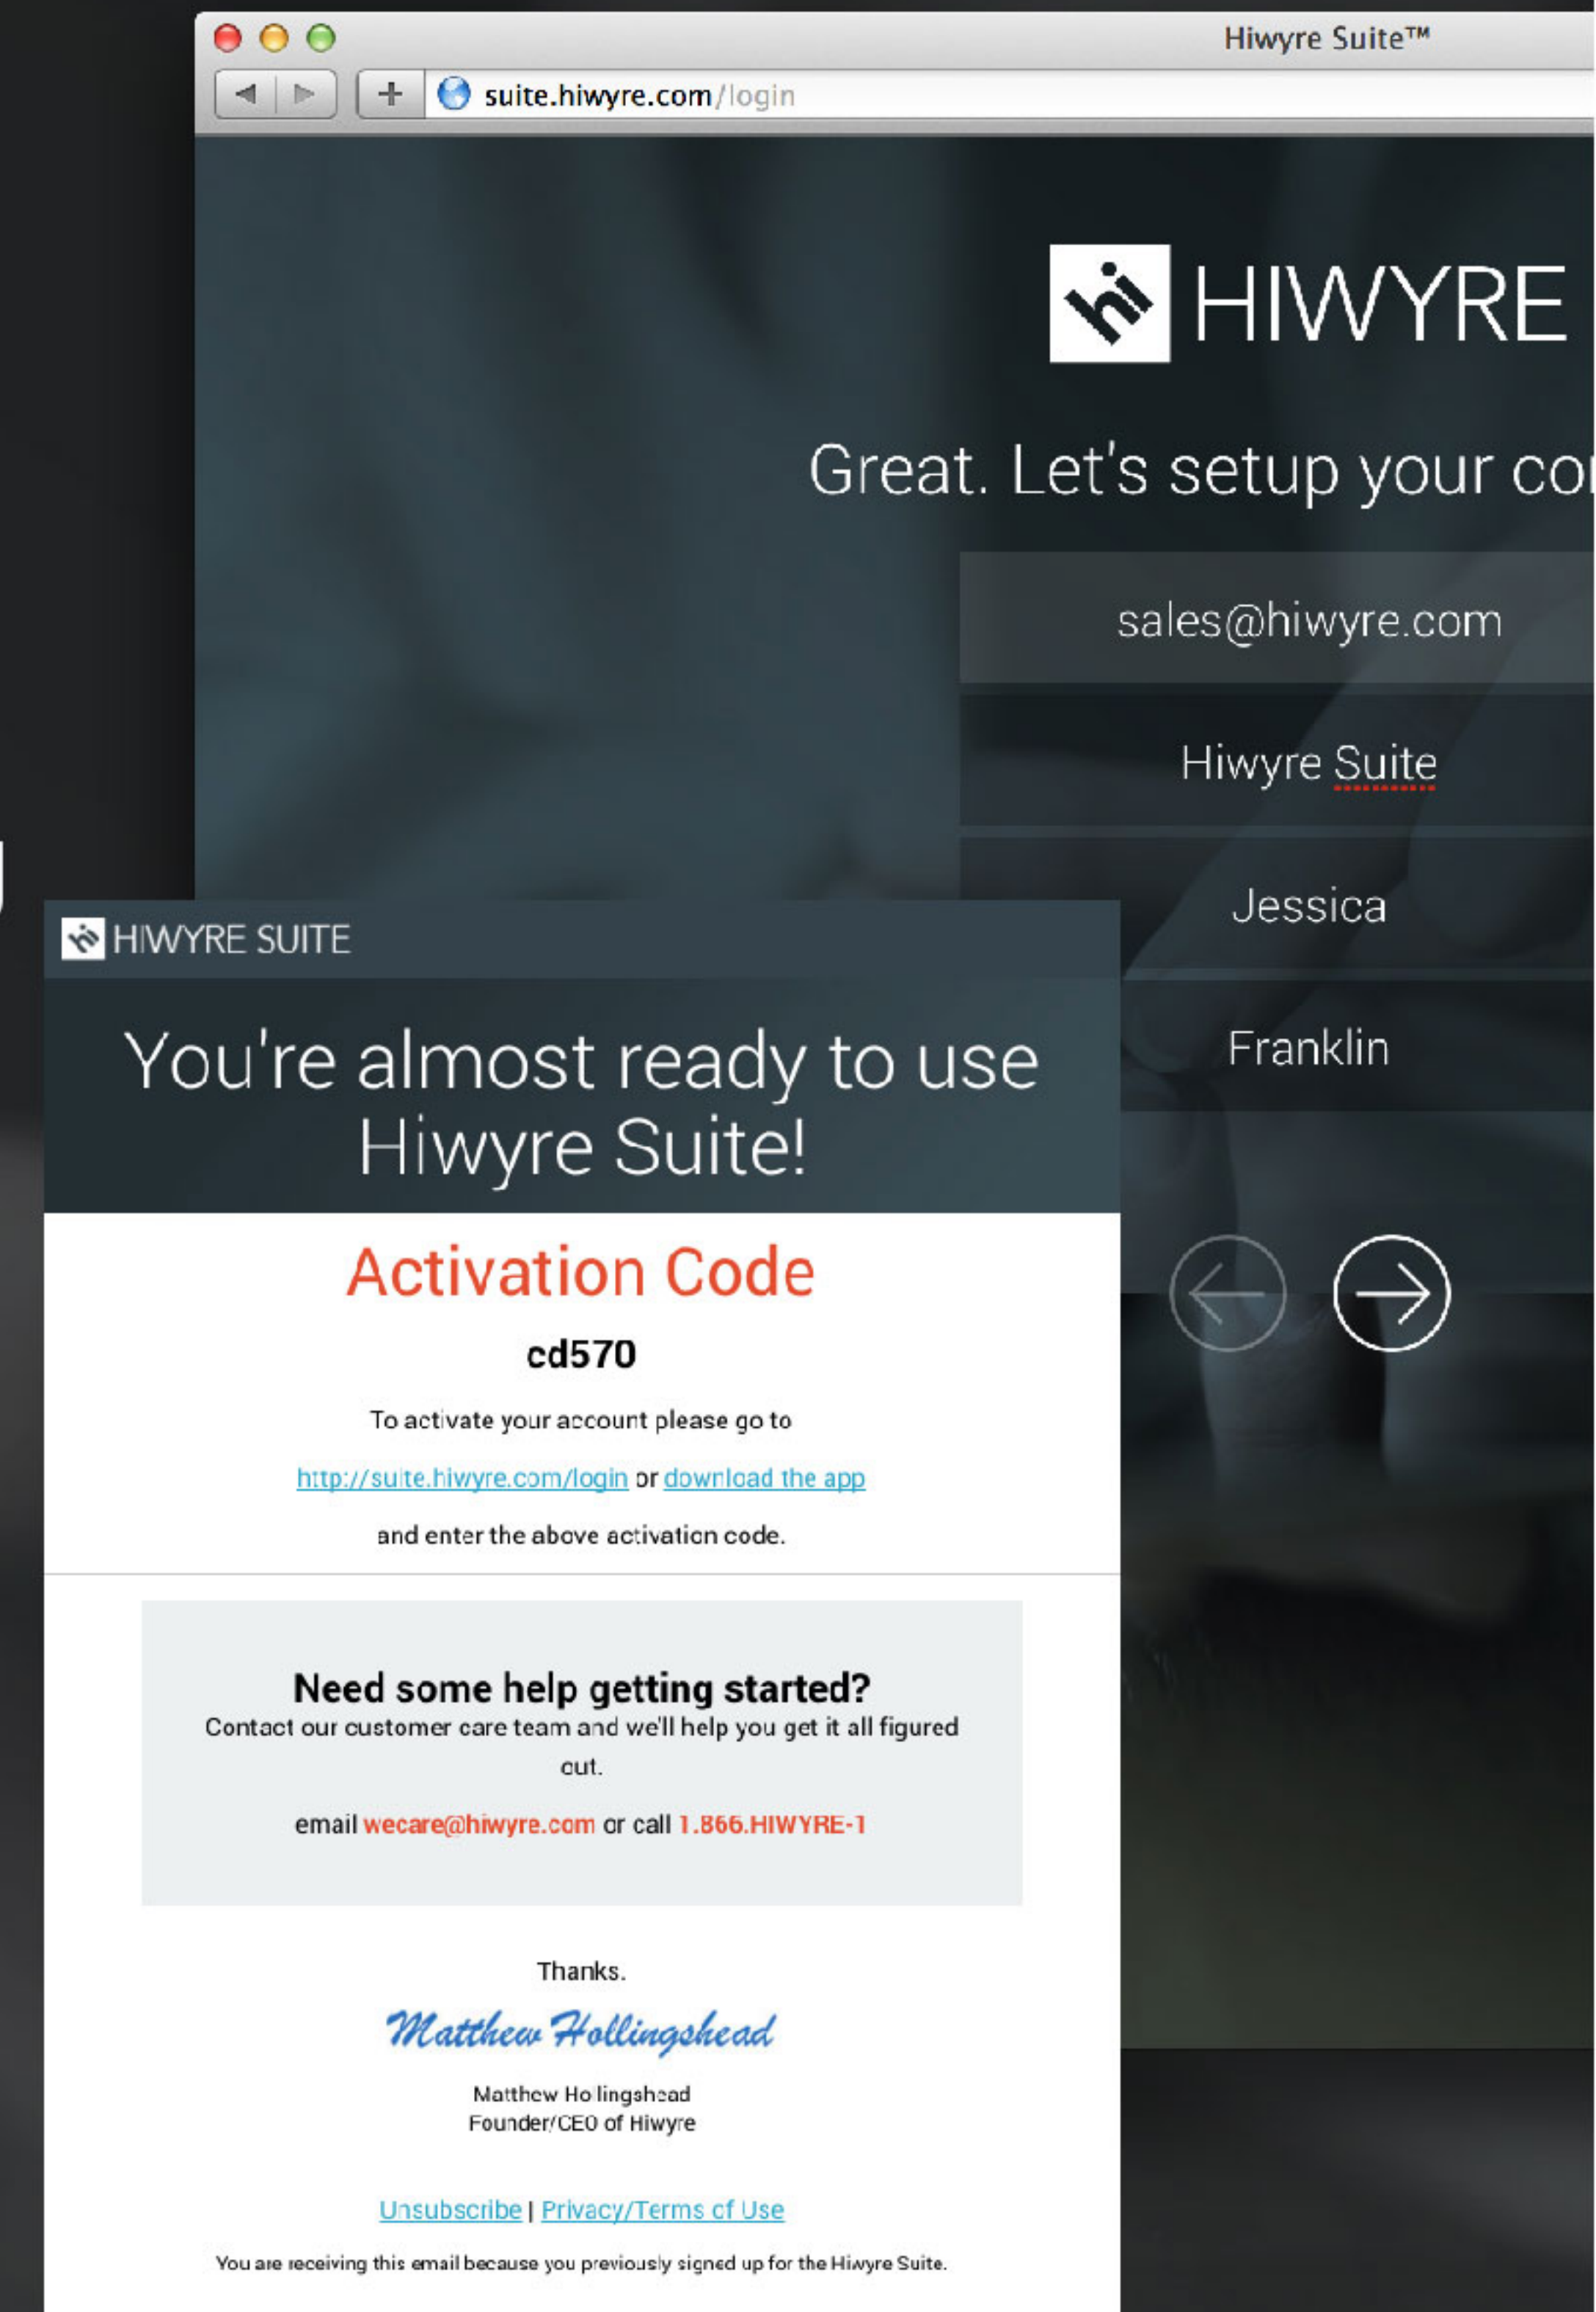

Creating An Account?

Step 2

Once you arrive at the account setup screen, either on the dashboard or in the app, enter your email address. For new accounts, you will be asked to enter a Company Name, along with a First and Last Name. Press the 'right' arrow to proceed.

From here you will be sent an email with an account 'Activation Code'. Enter this code to get started.

Note: If you are setting up your account in a Hiwyre Suite app, please proceed to suite.hiwyre.com to start creating projects.

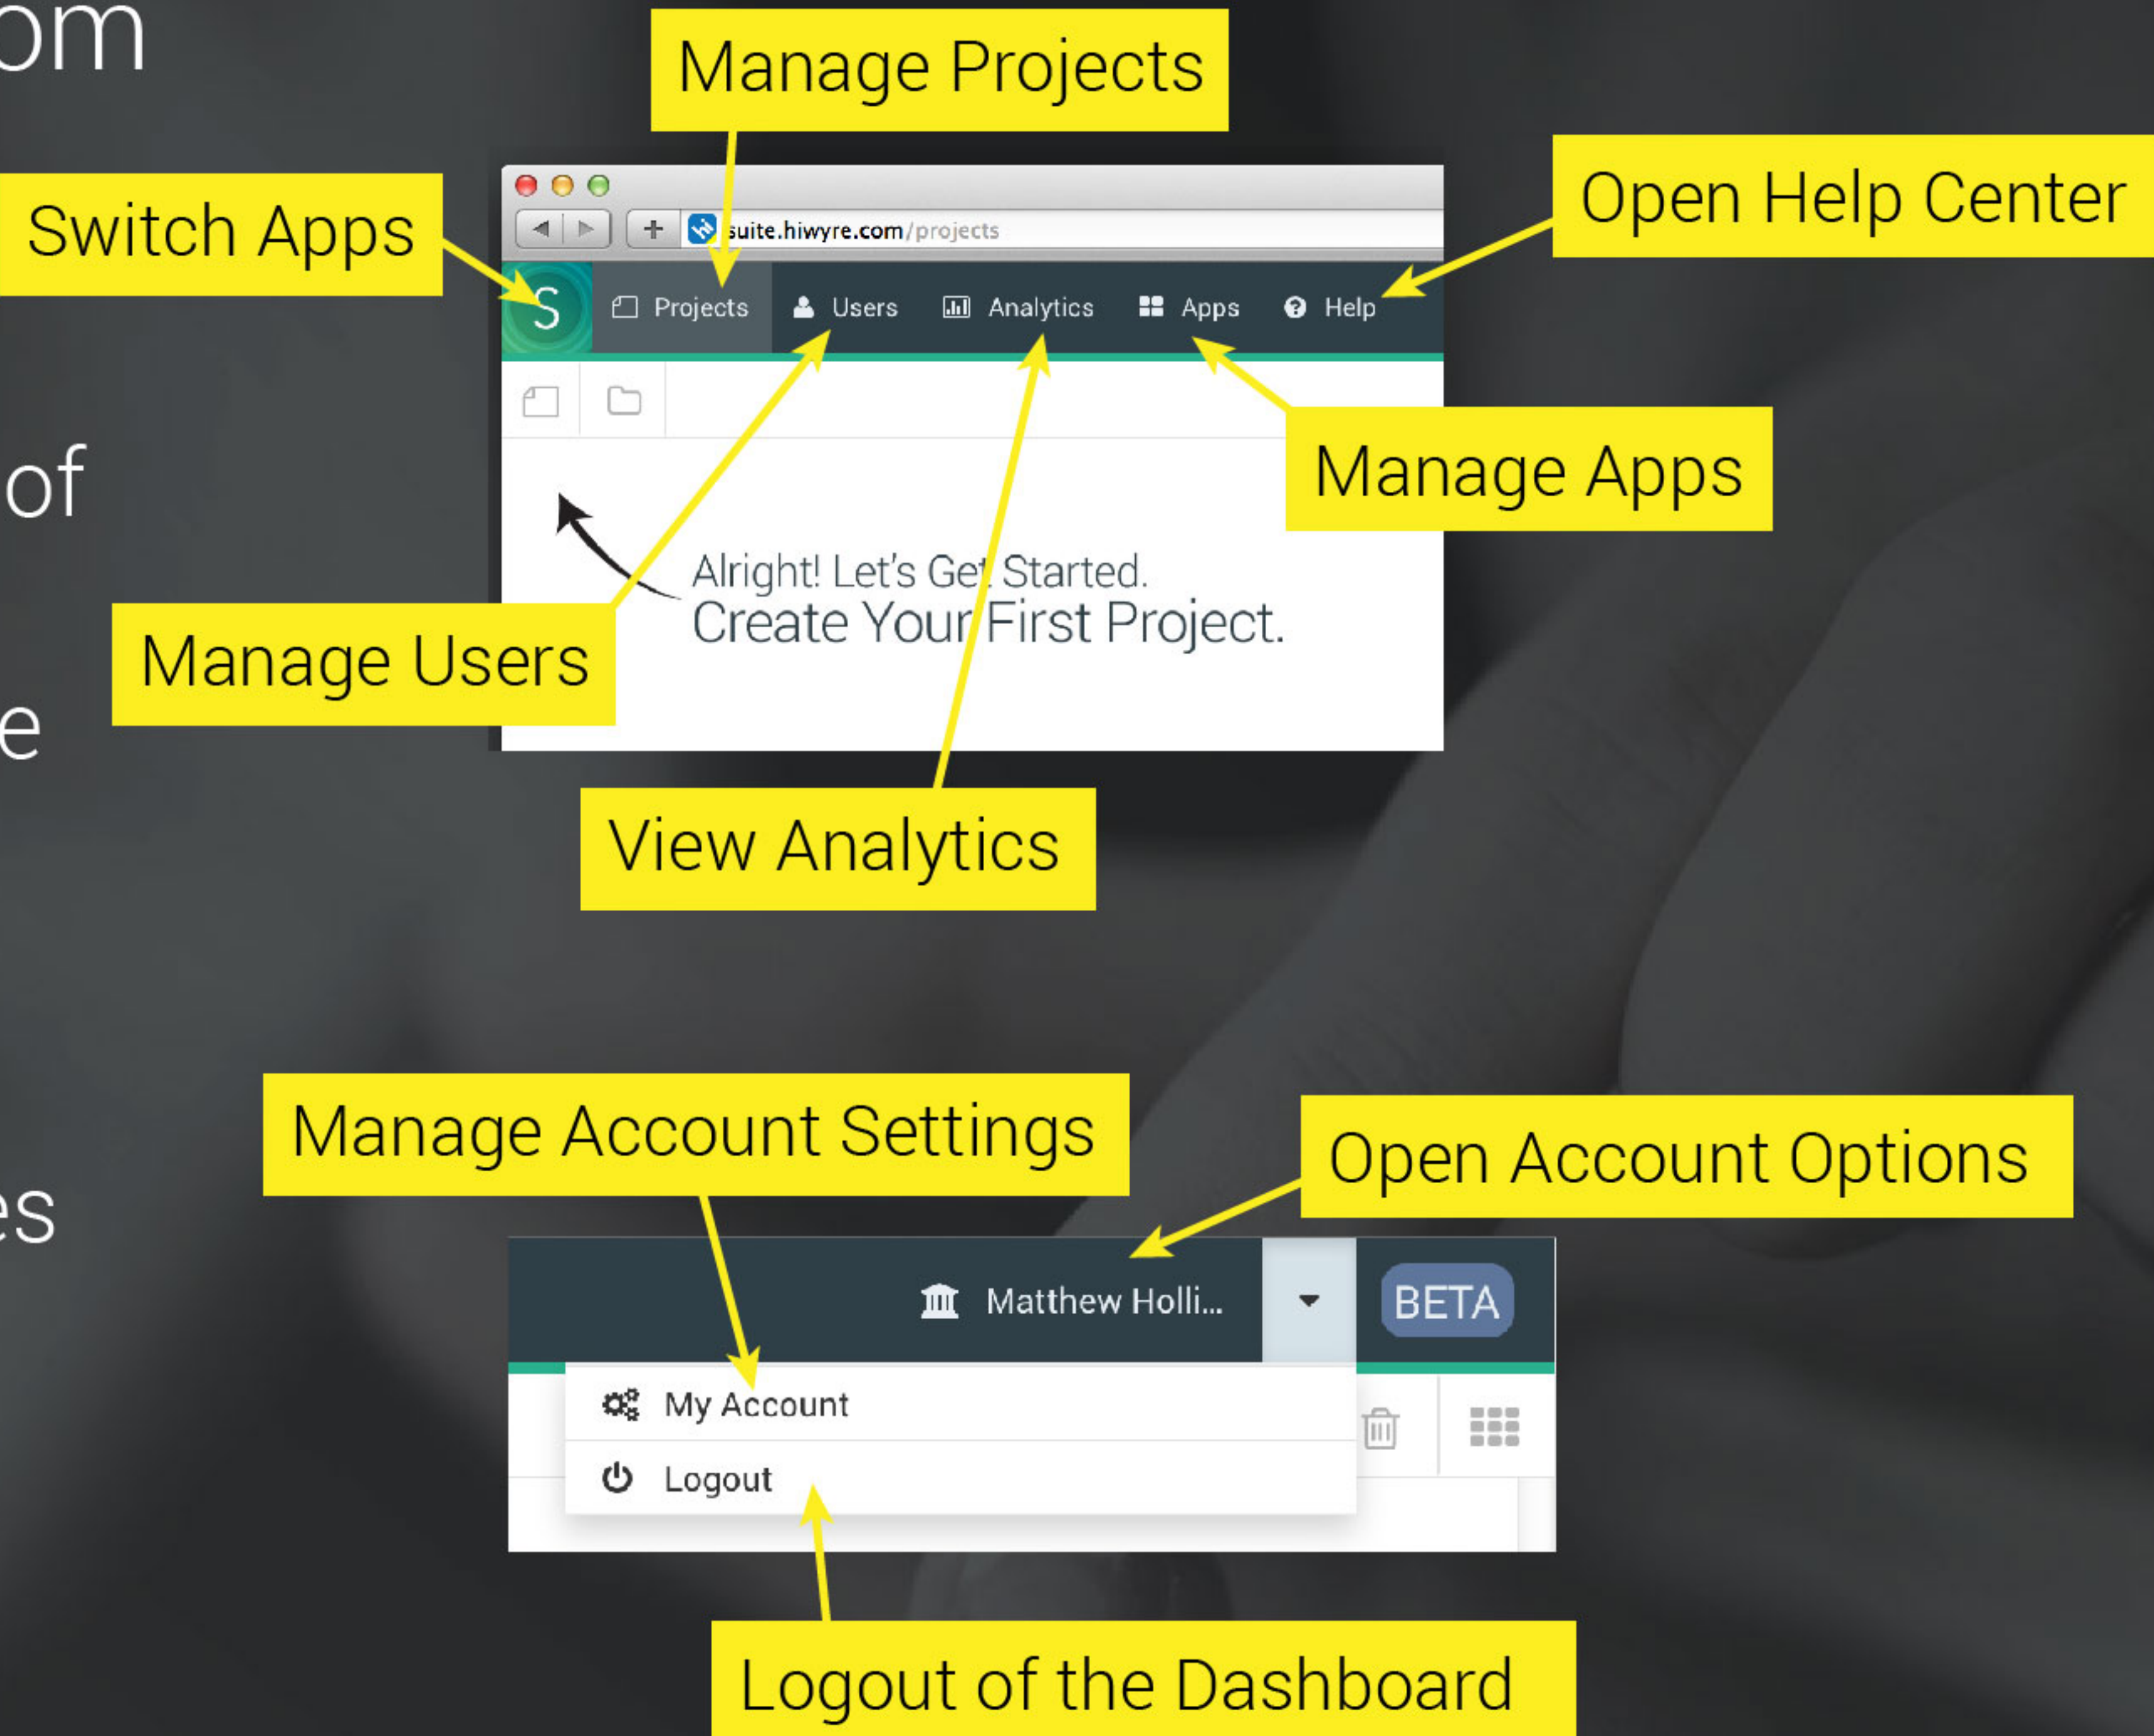

Hiwyre Suite Dashboard

<http://suite.hiwyre.com>

Top Menu

The top menu lets you switch between sections of the dashboard. All the functions you need can be located here, such as choosing the app your in, creating projects, or even managing your companies user accounts.

Projects Page

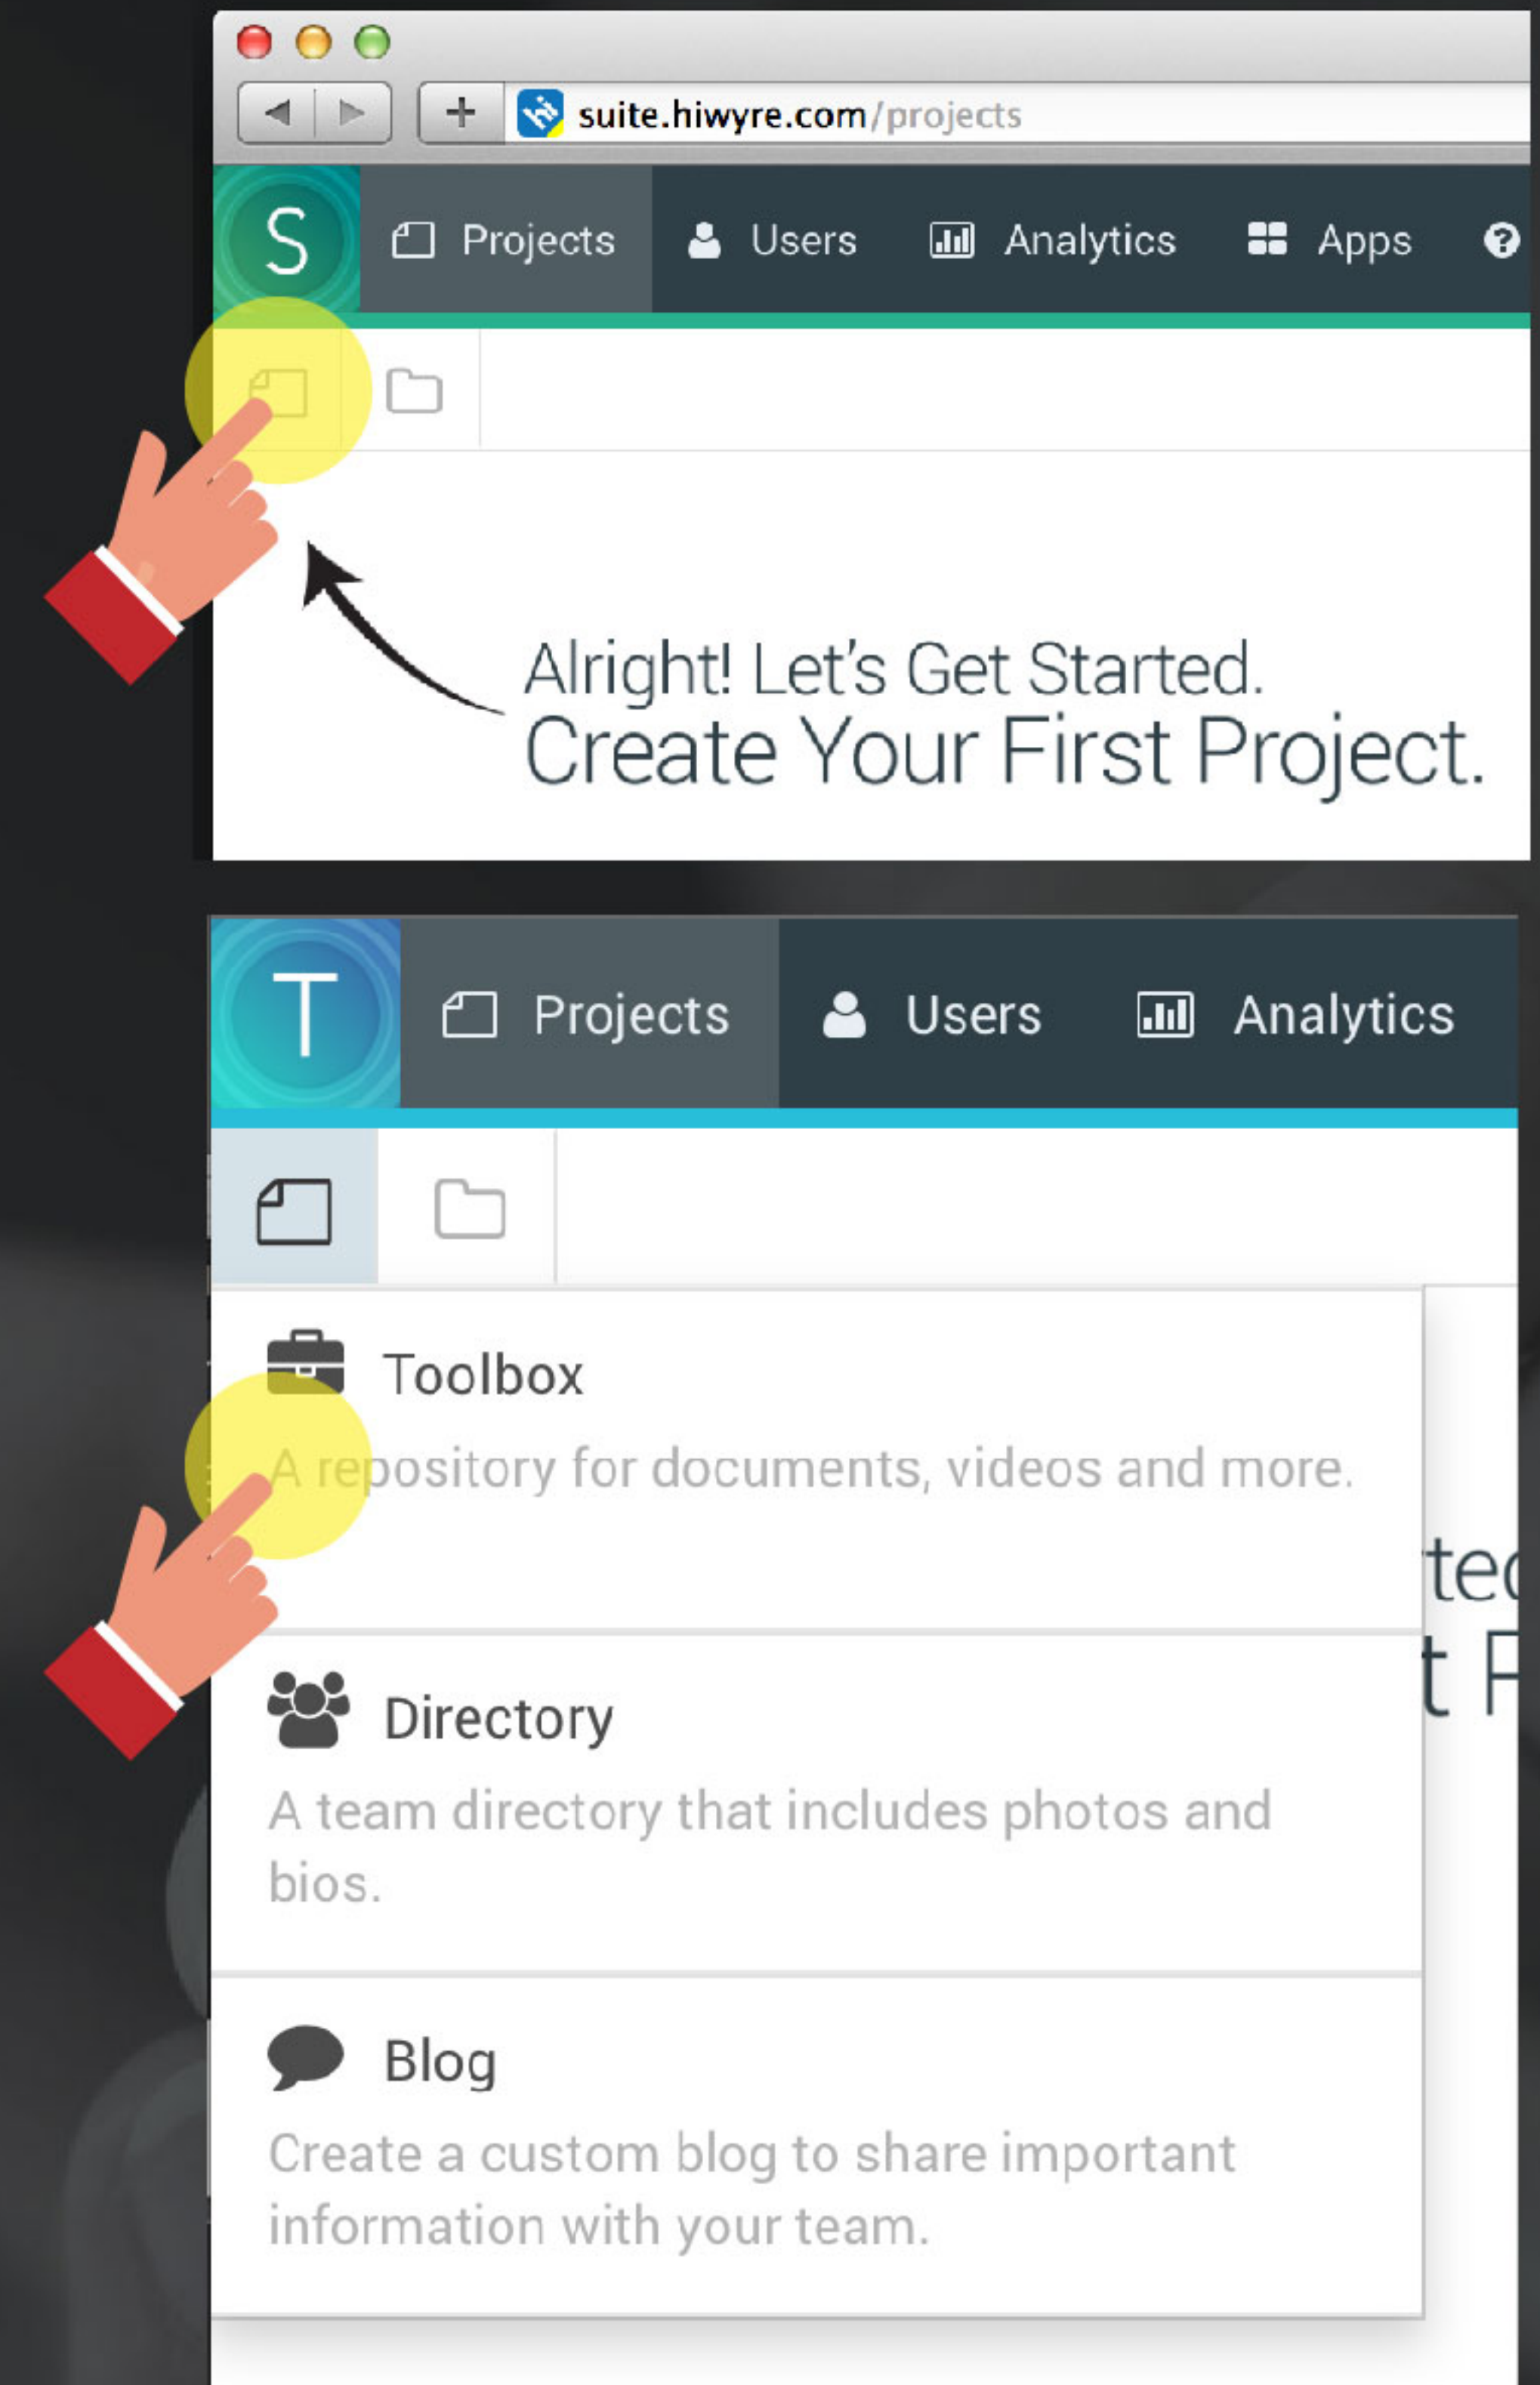

What is a Project?

Hiwyre Suite Projects are the content you create and share with your teams mobile devices. This might be a slideshow, toolbox or even a meeting agenda.

Add New Project

Step 1: To add a new project, simply tap the project icon in the top left hand side of the projects menu.

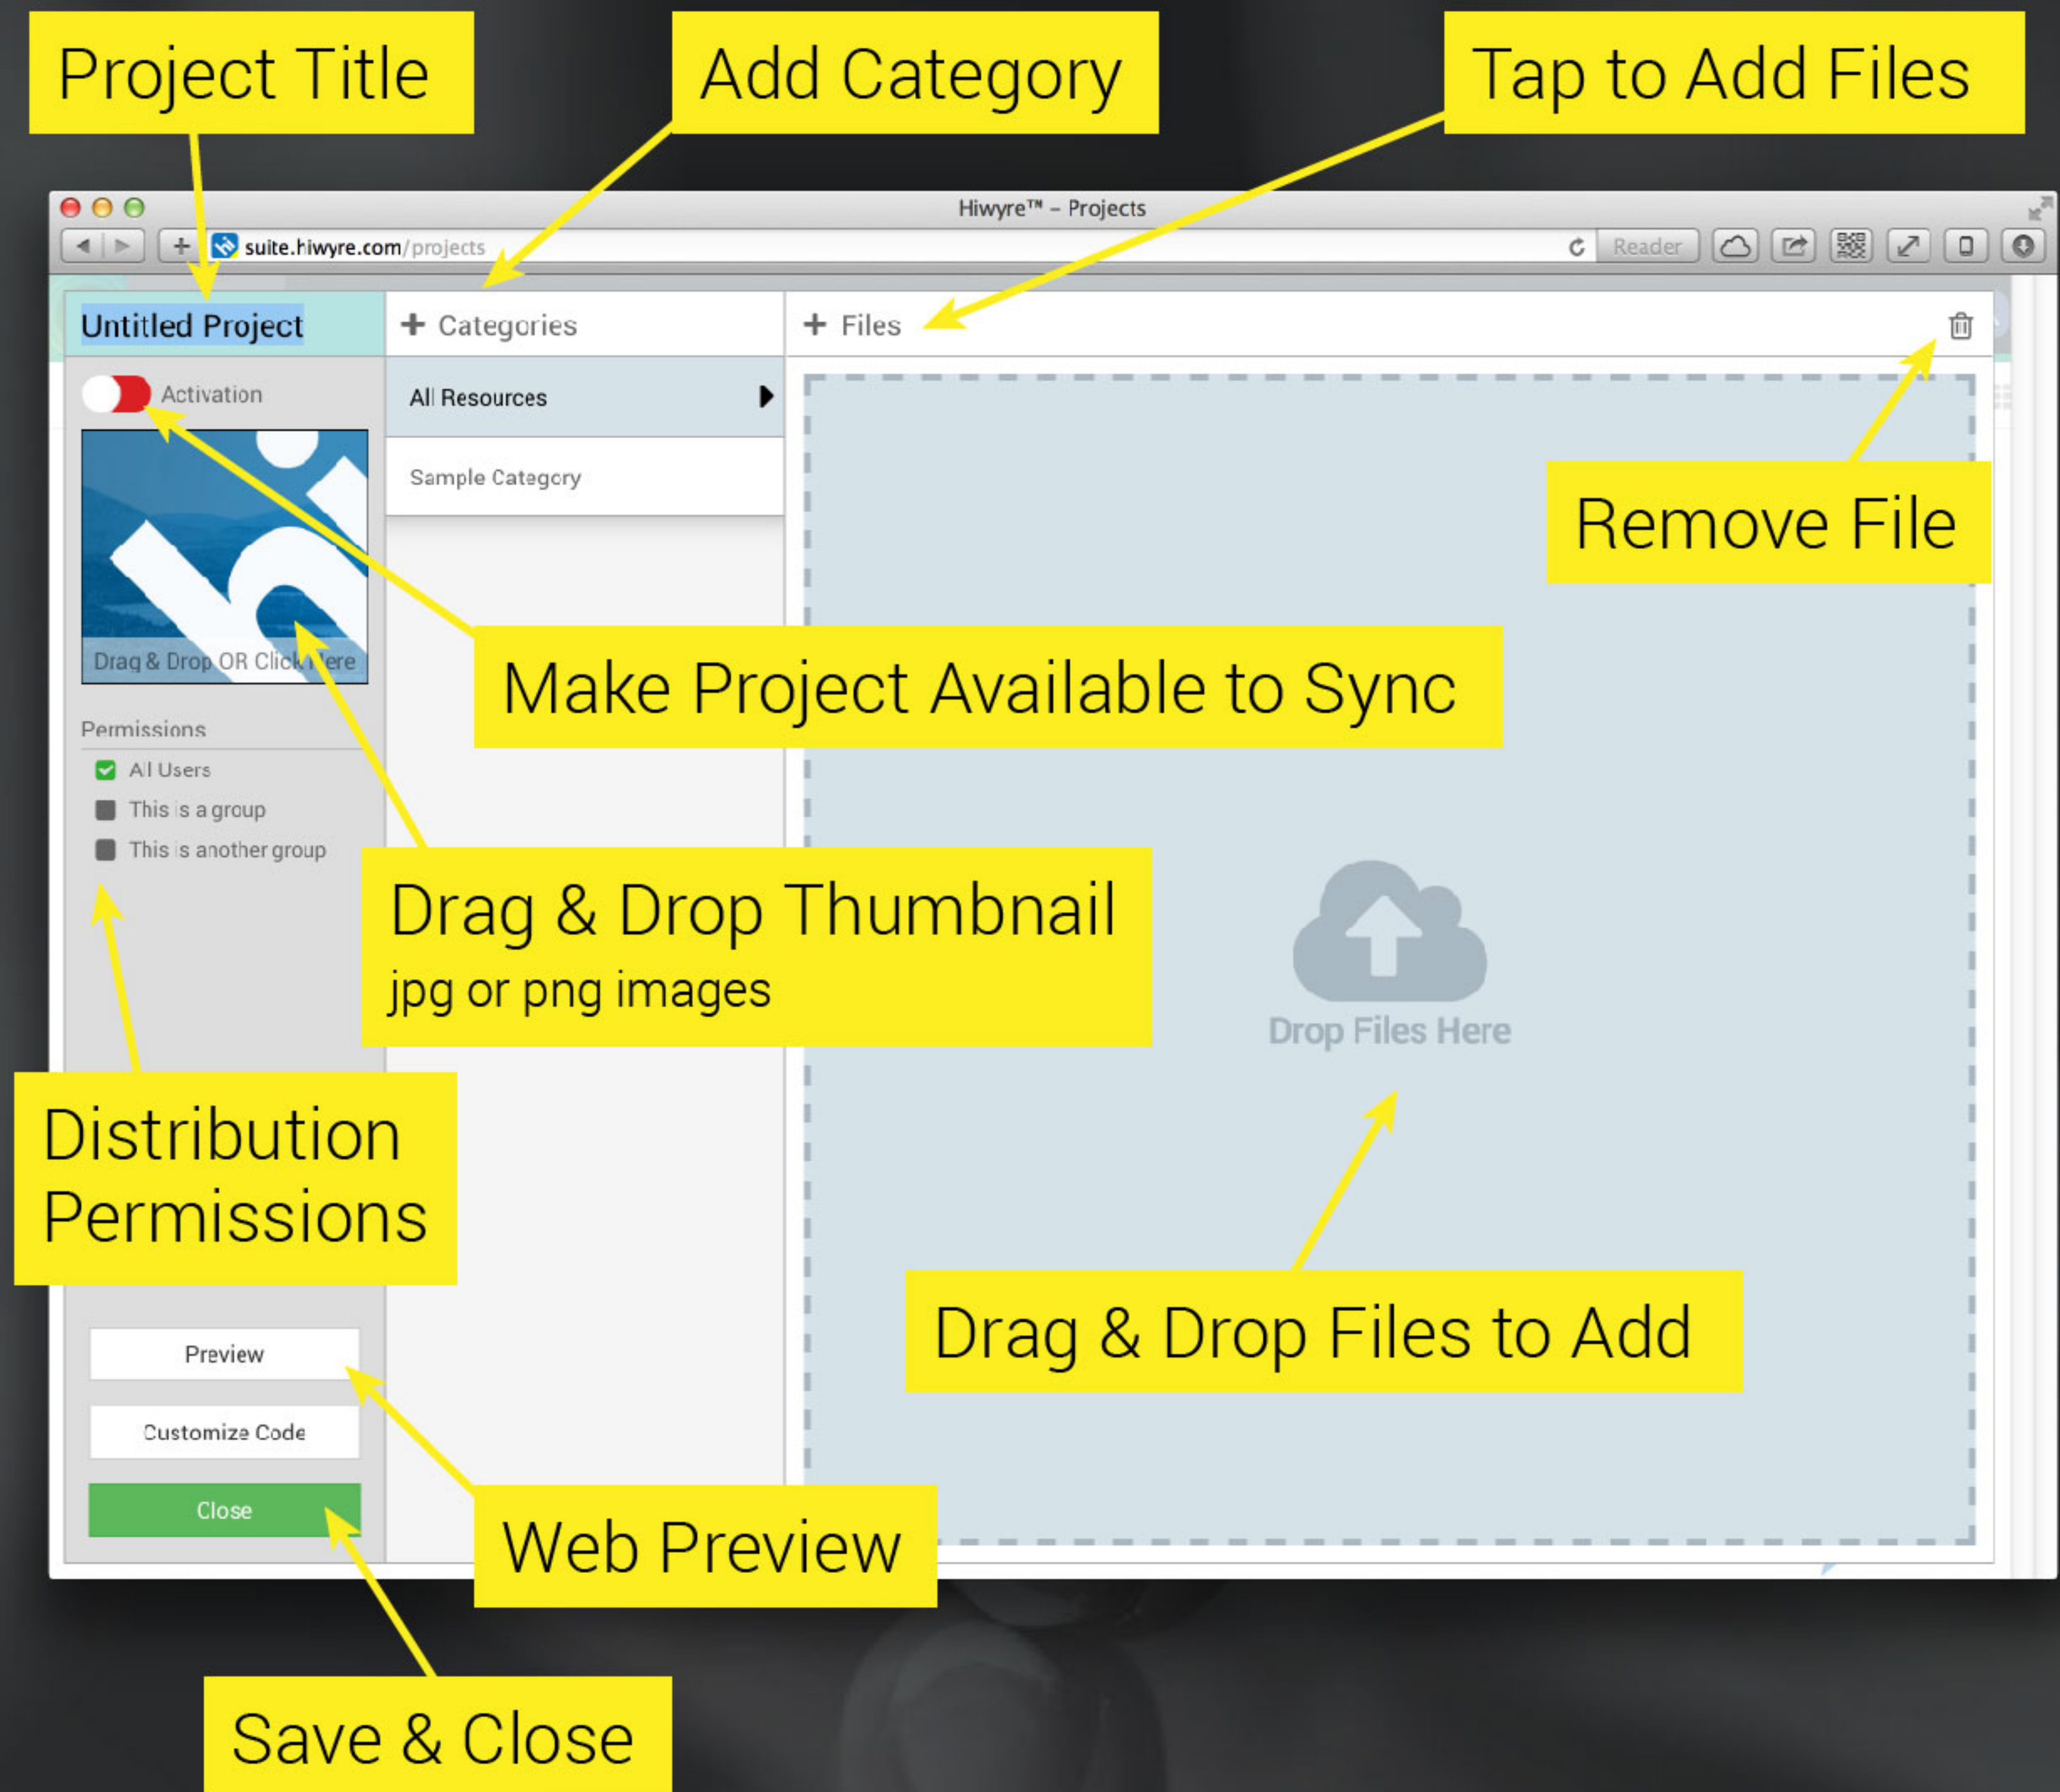

Step 2: Choose the type of project you want to create from the projects drop-down menu.

Projects Page

Project Editor

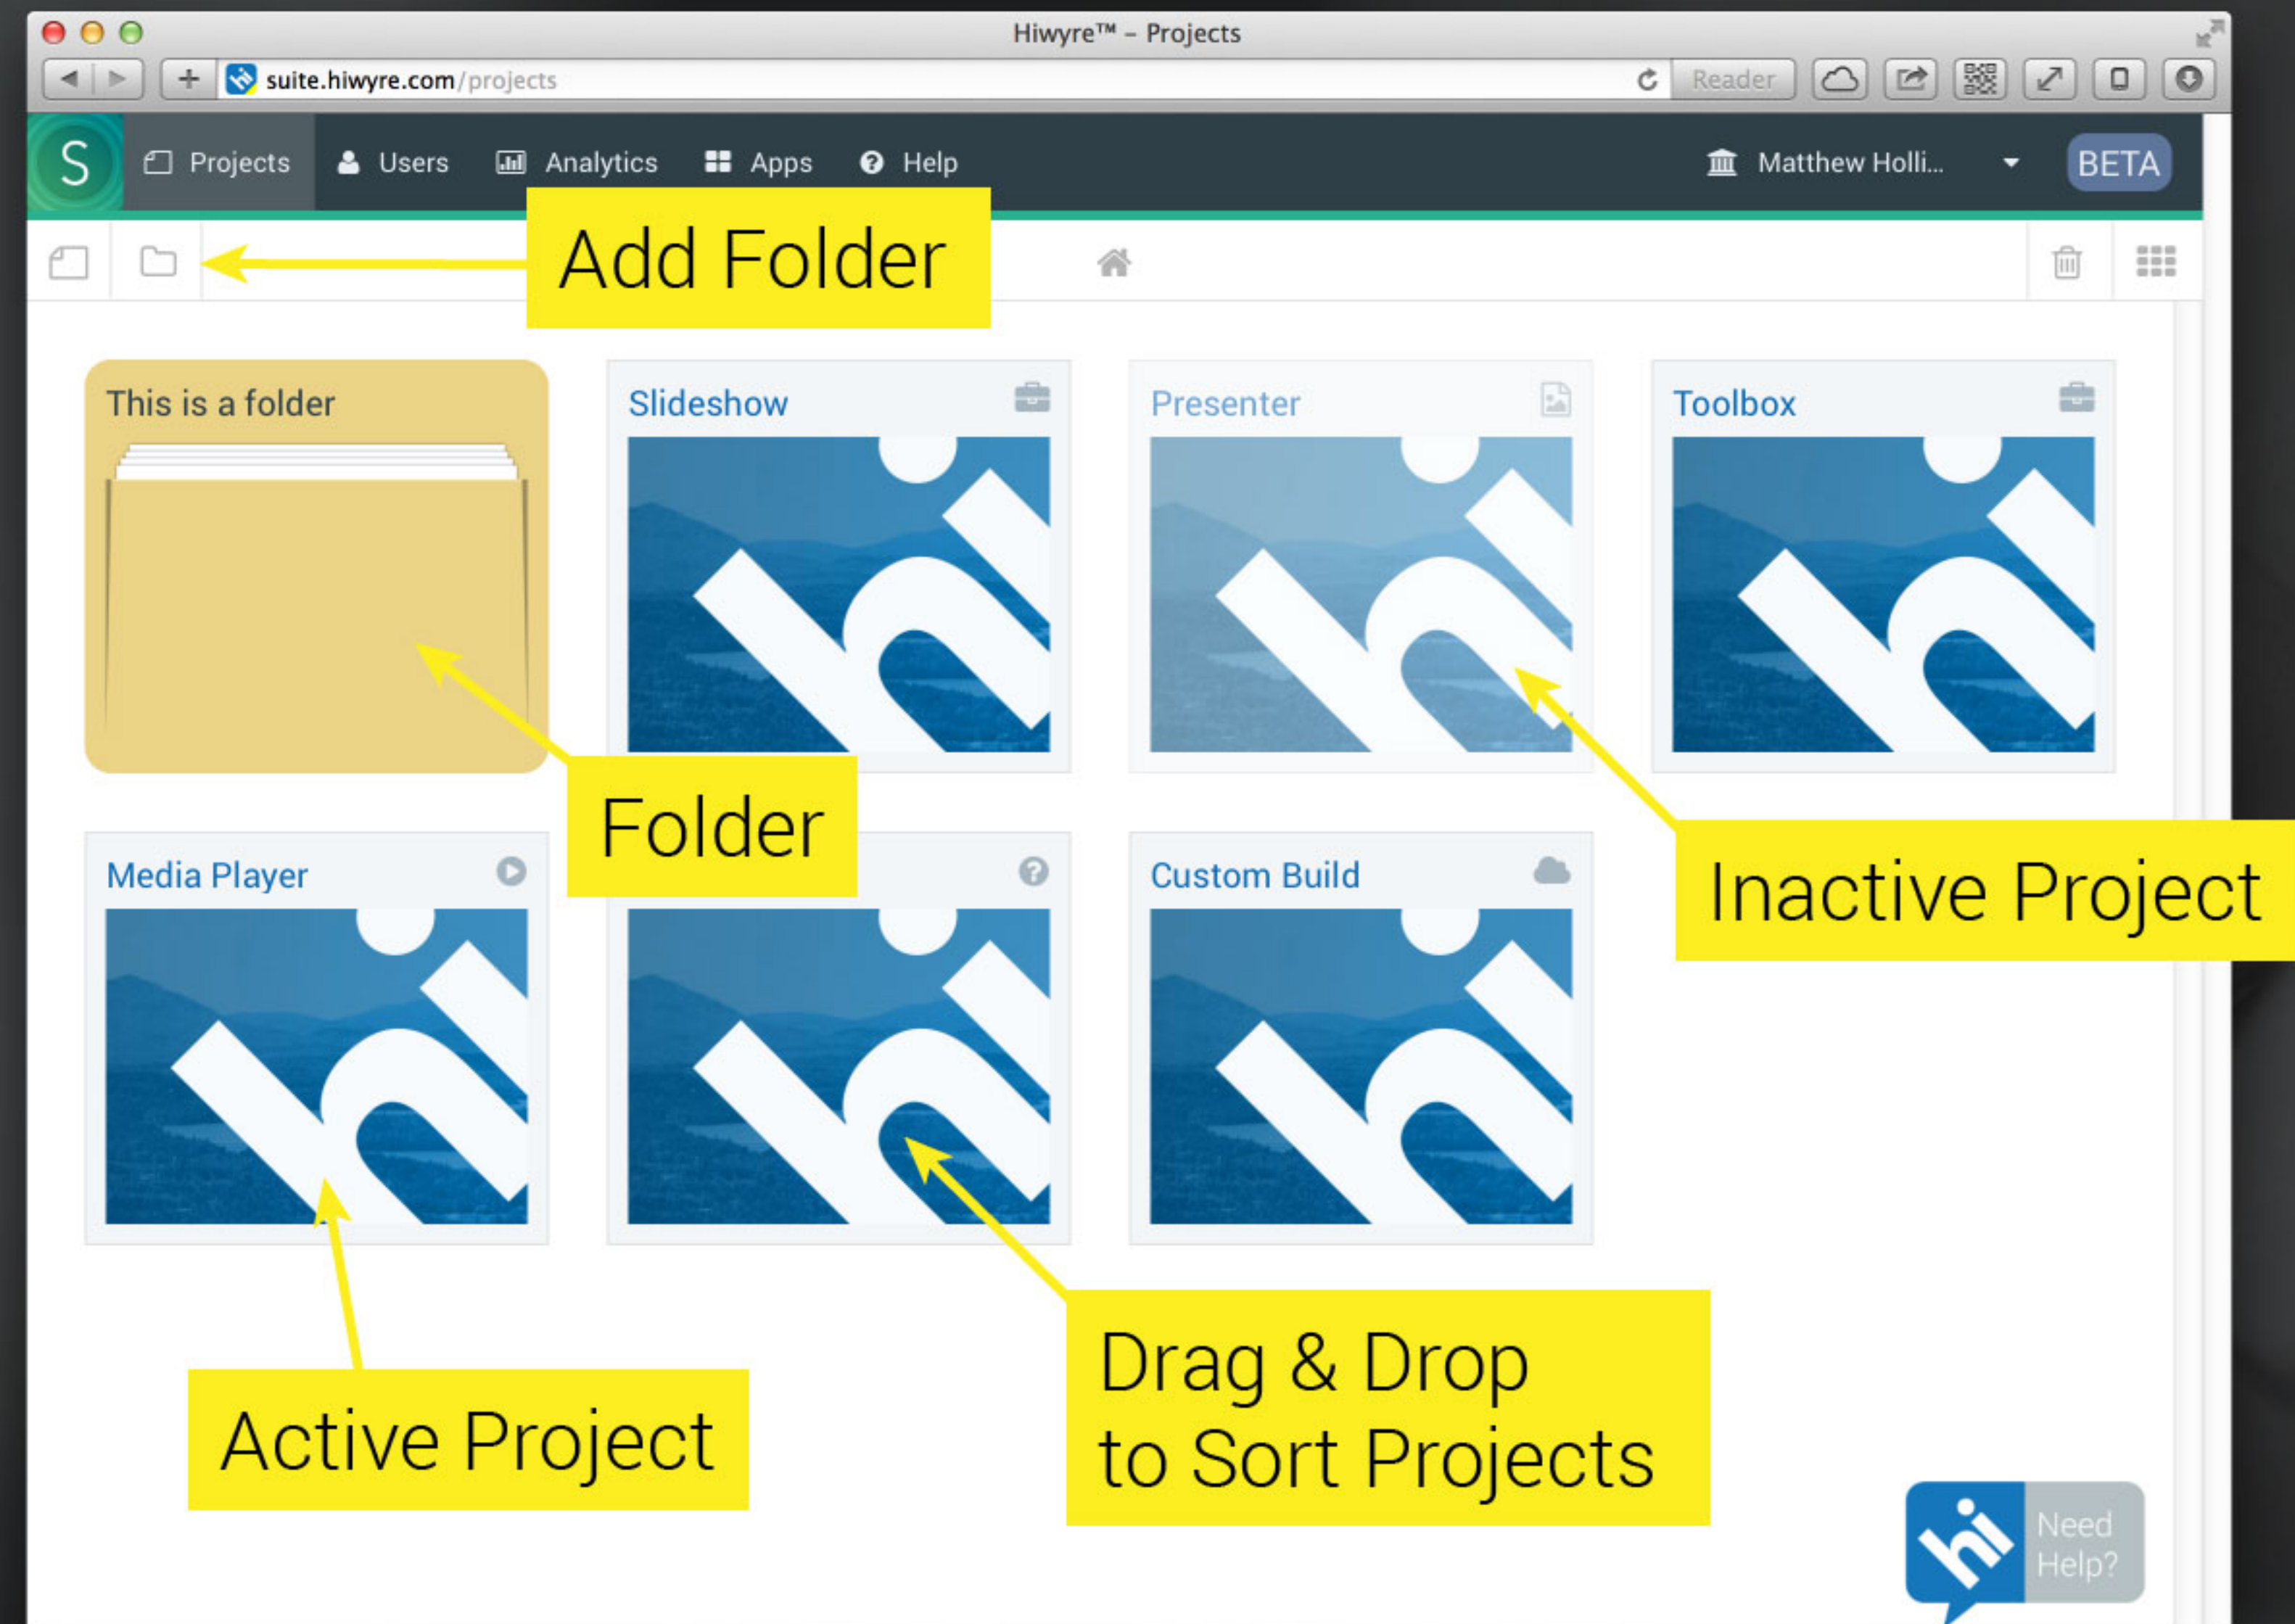

This is where you get to start creating your amazing content. Each project type has an intuitive template to help you quickly input your information or files. Once you have created your content, preview it in your web browser, and then choose who gets to see it on their device. It's just that easy to start publishing content.

Project Page

Project Organization

Once you have some projects built you can order them anyway you want, or organize them by putting them into folders. Drag and drop projects to sort them, or drag one project on top of another to create a folder containing those projects.

User Page

Adding A User

To add a new user, click on the 'Add User' icon in the top left of the user menu. This will launch the account creation pop-up. Complete the form and submit. The user will be sent an email with the activation code to get them started.

The screenshot shows the Suite Hiwyre User Page. A yellow box labeled "Add User" points to the "Add User" icon in the top left of the user menu. A yellow box labeled "Security Level" points to the "Security Level" dropdown menu in the "Add New User" pop-up. A yellow box labeled "Groups" points to the "Groups" section in the user list. A yellow box labeled "Selected User" points to the user "Matthew Hollingshead" in the user list. A yellow box labeled "Activation" points to the "Activation" toggle switch in the user list. A yellow box labeled "Reset Password" points to the "Reset Password" icon in the user list.

User Page

Managing Users

Hiwyre Suite's powerful user management tool allows you to easily add, delete or update user information. You can also add users to publishing groups. Simply click on one or multiple users to select them, then drag and drop those users onto a group.

The screenshot shows the 'Hiwyre™ - Users' interface. It features a sidebar with 'Groups' and 'Users' tabs, and a main table of users. Annotations highlight key features:

- Add Group**: Points to the 'Add Group' button in the sidebar.
- Tap to Select**: Points to the first user row (Matthew Hollingshead).
- Drag & Drop Selected Here to Delete**: Points to the trash icon in the top right corner.
- Drag & Drop Selected Users Into Groups**: Points to the 'All Users' group in the sidebar.
- Switch to Red to Deactivate**: Points to the activation toggle switch for the user John Lastman.
- Tap to Edit Information**: Points to the edit icon (pencil) for the user John Lastman.

Analytics

See who's using your app, what content they're looking at, or even when they use it the most. Hiwyre Suite offers live tracking of usage analytics, so you can uncover insightful trends on performance and engagement that will help your team refine their mobile strategy.

Apps Page

Manage all of your Hiwyre Suite apps from one spot. See how many users you have, the number of projects active and all page views for each app. You can also Activate and Deactivate apps from this page. Check back regularly for exciting new apps and project types.

Library Customization

Use Hiwyre Suite's custom capabilities to match any app interface to your company's brand, and even add your own logo, colour schemes and thumbnails.
