

PeopleMatter LEARN™

Train and grow a skilled, passionate team.

What You Get In PeopleMatter LEARN™

Course creation

Create unlimited courses on unlimited topics. Online tools help you make training custom, consistent and effective, companywide.

Test creation

Measure training comprehension with completely configurable tests that let you pick everything from question format to pre-reqs.

Question pool

Pull from a company-shared question pool to quickly build tests and a bank of best practices that your entire team can access.

Content library

Upload your own job training content – as much and as often as you want – to get new hires and team members ready to roll.

Assignments

Assign and track training by specific job, location, date, and more to make sure employees are on the right page at the right time.

Third-party content

Build out your content sourcing strategy with built-in content. Pre-made courses save you time and provide targeted industry training.

LEARN Something™ courses

Access our free, pre-loaded training videos and courses that cover fundamentals from great customer service to proper handwashing.

Free smartphone app

Stay up-to-date with what needs to get done. Our mobile app lets managers and team members track training progress and assignments on-the-go.

Online training

Take training with you. Mobile technology lets managers and employees access training 24/7 via the Web and track their progress via smartphone.

Prerequisites

Attach course pre-reqs to build a curriculum and keep your training order in order. Team members know what's expected and you know they're prepared.

Categories

Tag courses with custom categories to keep all of your training organized. Powerful filtering then makes finding exactly what you need simple.

Reports

See what's working and what's not by running company-wide reports that track training progress, comprehension and everything inbetween.

PeopleMatter LEARN™ Helps You

Build and personalize content

Not everyone learns the same way, so you should be able to cater your training to fit different learning styles. That's why PeopleMatter LEARN™ lets you personalize the courses to reflect your company and brand. Create and upload unlimited content in video, document or SCORM formats. Varying content and keeping it fresh increases your training effectiveness and keeps your team engaged.

Assign training and tests

To make sure your team is ready to put their training to use, you need to make sure they understand it. PeopleMatter offers an engaging mix of test formats to make training an interactive experience. Tests not only motivate your employees to master necessary skills, they also give you the visibility to see where training is working... and where it's not. When your team is able to grow their skills, they're happier and stay with you longer.

Measure success

With real-time performance and progress reports you can get the big picture, or drill down into the details. Measuring training success allows you to identify areas that need improvement, and address them immediately. With course feedback like employee ratings, comments and recommendations, you can make sure you're training your team in a way that resonates and allows them to deliver the best possible customer service.

How It Works

Customer Results

25%

Increase in productivity
Boloco

“PeopleMatter is the rubber band that holds us all together. As a trainer, it allows me to distribute current information to the entire workforce at once, and then track the results.”
