

CONFIDENCE IN EVERY BID

Win more of the right jobs at the right price and give every estimator the tools they need to build accurate, defensible estimates, fast. From conceptual planning to final proposal, deliver consistent, high-quality bids that keep you competitive in even the most demanding markets.

KEY FEATURES

FLEXIBLE ESTIMATE STRUCTURES

Avoid costly surprises with precise, detailed estimates that reflect the full scope and real-world complexity of the job.

BUILT-IN BENCHMARKING

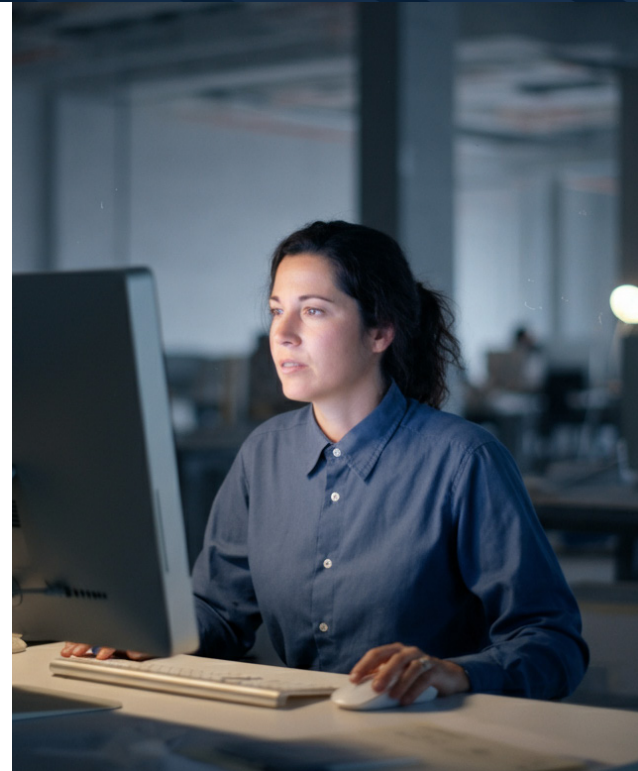

Reduce the risk of under- or overbidding. View high, low, and average costs and productivity rates from past projects to visually assess if your numbers are within a realistic range.

BID WIZARD

Take the manual grind out of creating estimates from scratch with InEight's bid wizard feature. Generate bids in a fraction of the time using templates, predefined workflows, and reusable estimate data.

QUOTE MANAGEMENT

Send, receive, and compare subcontractor and vendor quotes directly within your estimates. Efficiently manage last-minute changes and ensure you're always working with the most accurate and competitive pricing.

ENSURE WELL-DOCUMENTED ACCURACY MAKE EVERY BID YOU WIN A PROFITABLE PROJECT

Always have a solid answer when someone asks, "Where'd you get that number?" Ground every estimate in real, historical data about labor, equipment, and productivity, so that every bid is accurate and defensible. And because you can always set up projects at the appropriate level of detail, you get the right degree of precision. Feel confident the jobs you win will be profitable.

STANDARDIZE FOR SPEED DELIVER HIGH-QUALITY BIDS EFFICIENTLY

Give every estimator the tools they need to quickly deliver high quality bids. Capture team expertise in shared templates, master libraries, and repeatable workflows. Create a consistent estimating process that accelerates bid turnaround and drives efficiency across estimating teams.

FLEXIBILITY ADAPTABLE TO THE WAY YOU BUILD

Structure estimates the way you build, not the other way around. With InEight Estimate, you can set up your estimate flexibly, which is especially critical for complex or unique projects that need a different structure. Tailor your crew setup, activity structure, cost breakdowns, work breakdown structures, templates, and more to match your project-specific needs.
