# Native Integrations

## Gmail

Avoid the spam filters by sending your confirmations via Gmail.

## Zapier

Link to hundreds of other systems via Zapier.

## Salesforce

Automatically updated Salesforce records, when bookings are made through YouCanBookMe.

## Zoom

Automatically create video conferences with Zoom when bookings are made.

## Google Analytics

Get insights and track engagement on your booking pages.

## Meta Pixel

Get insights and track engagement on your booking pages.

## LinkedIn Pixel

Get insights and track engagement on your booking pages.

## MS Teams

Automatically create video conferences with MS Teams when bookings are made.

# Customize Workflows

## Custom notifications and workflow

Be it emails, SMS messages, or webhooks, you can customize the type of notifications and messages that works best for your scheduling process.

You also control what these notifications say, and when they are sent.

### After a new booking is made

Send **email** to booker, **immediately after** .

### If booking is rescheduled

Send **SMS** to booker, **3 minutes after** .

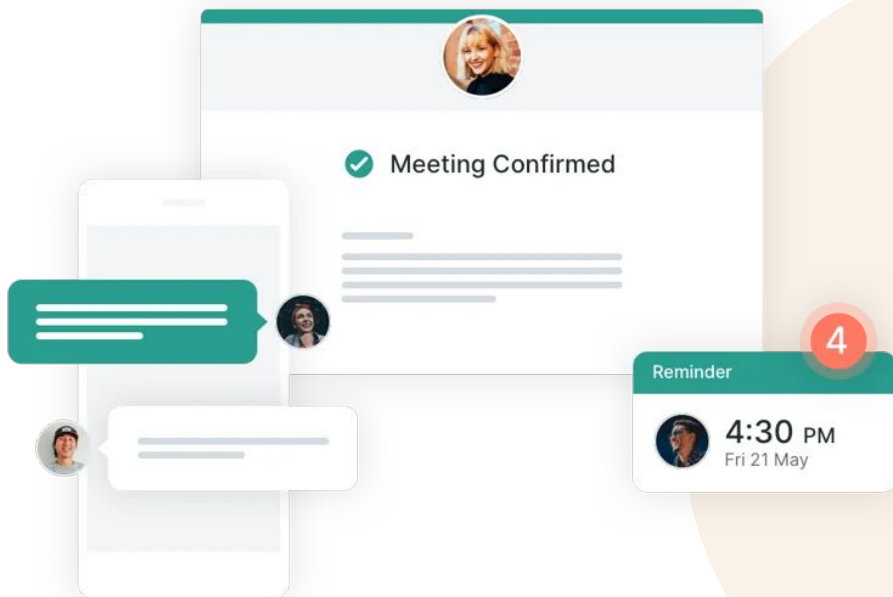

### If booking is cancelled

Send **email** and **SMS** to booker, **immediately after** .

### Before the meeting

Send **email** to booker, **1 hour before** .

# Automated Follow Ups

## Booking confirmations, reminders & follow-ups

You and your customer receive a booking confirmation whenever a booking is made.

Reduce no-shows by sending your customers booking reminders, and use follow-up emails to send more information after a meeting, ask for feedback, or to simply thank them for their time.

Take advantage of automated SMS reminders to ensure your customers keep appointments front of mind, and eliminate no-shows.

# Customizable Booking Forms & Pages At Your Fingertips

Be prepared for every booking. Add, edit and arrange questions like multiple choice, dropdown, and long text.

Customize our built-in confirmation page, or redirect customers to a webpage of your choice.

[View all of our product updates here →](#)

The screenshot shows a booking form interface. At the top, there is a header bar with a profile picture of Ben Murphy and his name. Below this, the form contains several input fields: a text field, a dropdown menu, another text field, a third text field, and a checkbox. A green 'Confirm Booking' button is at the bottom. A dropdown menu is open on the right side, showing options for adding questions: 'Short answer', 'Long answer', 'Email address', 'Phone number' (which is highlighted with a double-headed arrow), 'Checkbox', 'Multiple choice', 'Passthrough question', and 'Hidden question'. There are also three yellow diamond icons above the dropdown menu.

# A Global Leader In Scheduling Software

Hear from hundreds of happy customers about why they love using YouCanBookMe.
