PACKAGE OVERVIEW

GOTV Sword & Shield facilitates on-demand opposition research and candidate vetting, run by AI research agents. We provide in-depth intelligence dossiers on any political figure — an opponent and everyone in their orbit, or your own candidates and team — and deliver them in hours, not weeks.

It is the caliber of research once reserved for the best-funded campaigns in the country, delivered for a fraction of the cost. **You identify the target, we deliver the intel.**

EVERY BRIEF INCLUDES

- **The intelligence suite:** OSINT background, digital footprint, reverse-username search, campaign-finance intelligence, and network mapping.
- **Relationship Tree:** a visual map of everyone in the subject's orbit — donors, consultants, staff, family, business partners — showing how money, influence, and loyalty actually flow around them.
- **Digital Footprint Report:** an index of the subject's online presence — accounts, handles, posts, articles, comments, and forum activity — timestamped and organized so your team can move straight to what matters.
- **Delivered in hours:** preliminary reports typically within 2 hours; the finished dossier is yours to keep.

SWORD // OFFENSE

In-depth, cited dossiers on your opponents — and people connected to their campaign: consultants, finance teams, surrogates, and major donors.

SHIELD // DEFENSE

Vet and fortify your own candidates. Surface vulnerabilities before the other side does — with rebuttals written before the first hit drops.

GOTV Sword & Shield is designed as a turnkey research desk: you set the targets, we deliver the intelligence that drives your outreach.

About These Reports

GOTV Sword & Shield dossiers are generated by third-party, AI-powered research technology drawing on public and third-party data sources. FullPAC delivers these reports to clients but does not write or independently verify their contents, and does not warrant or guarantee the accuracy, completeness, currency, or legality of any information they contain. Reports are AI-generated research leads provided for the client's independent review and verification, on an "as is" basis, without warranty of any kind. Clients are solely responsible for verifying any information before relying on, publishing, or otherwise acting on it, and for their use of the reports in compliance with applicable law.

PACKAGES & PRICING

Sword & Shield runs on credits. A full dossier on any target is 10 credits and typically delivered in under two hours. Credits are sold in batches with volume discounts as you scale. Credits work on any target, any race, and never expire.

Need to go deeper into something we uncovered? Tell us where to focus and we'll run a follow-up Deep Dive using 2 additional credits.

PACKAGE	INVESTMENT	CREDITS	BUILT FOR
Single Brief	\$1,000	10	Spot-check one candidate.
Field	\$10,000 Save \$5K	150	One priority race, end to end — candidate + network.
War Room ★ <i>MOST POPULAR</i>	\$30,000 Save \$20K	500	A cluster of competitive races.
Command	\$100,000 Save \$100K	2,000	Your full target map — offense and defense.

INTELLIGENCE MONITORING

Optional Add-On — **2 credits per update, per target.**

A brief is a snapshot. Monitoring turns your whole target list into a live intelligence feed.

- **Live Dossiers:** every file stays open and can be re-run on the latest information anytime — fresh intel for 2 credits instead of a new 10-credit brief.
- **Live Monitoring Dashboard:** the newest developments rise to the top, and you pick the signals to track for each target — see the shift the moment it happens and move first.
- **Update Anytime:** have the report update daily, weekly, or monthly. You choose, credits are automatically pulled from your account.

READY TO DIVE IN?

GOTV Sword & Shield is a powerful tool, and we're deliberate about who wields it. Every account is vetted before it's approved so we can control who gets access to this powerful intelligence. Once approved, the full arsenal is yours.
