

## Connecting your vendors in one easy-to-use system.

SimpleVMS was founded on the core business principle of helping companies streamline interactions with their staffing vendors in procuring and managing contract employees. We handle the time-consuming manual processes, so your vendors can focus on what they do best - recruiting and retention.

## What is SimpleVMS?

SimpleVMS is a web-based vendor management system (VMS) designed to simplify all aspects of working with staffing agencies. Developed by staffing industry veterans, the platform was designed with simplicity and flexibility to support your existing processes and needs.

**100% vendor-paid system.**  
**Implementation, integrations, custom reporting, and continued support at no cost to your company.**

- ✓ **Job Order Management**
  - Automated order distribution.
  - Manage vendor tiers and multiple hire types in one system.
- ✓ **Candidate Review**
  - Stay informed during the hiring process.
  - Easily review candidate flow and rankings in the dashboard.
- ✓ **Workforce Management**
  - Effortlessly manage your contingent staff.
  - Automate schedules, track attendance, and transfer workers between cost centers in a single tool.
- ✓ **Onboarding & Compliance**
  - Manage pre-employment documentation.
  - Automated reminders and new hire requirements for all vendors.
- ✓ **Client Risk Mitigation**
  - Mitigate co-employment risks.
  - Log and track all OSHA incidents and documentation for auditing in one place.
