

LumApps for Human Resources.

Empower, engage and inform employees with highly personalized communications and communities.

Benefits for HR teams

Attract top talent by sharing job offers and promoting a culture of internal growth.

Onboard employees with personalized journeys, communities and mentor partnerships.

Connect everyone, including frontline workers, using LumApps Mobile. Engage employees across locations and regions.

Educate teams through knowledge sharing and organizing HR information for automated access.

Use Cases for Human Resources

HR Portal

Centralize all HR information and resources in one place. Include internal job boards, referrals, benefits, open enrollment, FAQ and more.

Onboarding Center

Deliver important content for new employees based on their role. New hires quickly build knowledge and develop relationships.

Communities of Practice

Support collaboration and knowledge sharing through department, project and campaign communities.

Social Advocacy for Hiring

Use social advocacy features to attract top talent and reduce recruiting costs. Improve the talent pipeline by leveraging the combined audience of employee social networks.

News Center

Keep employees informed and engaged by distributing must-read HR content. Available anywhere, on any device.

Recognition Center

Foster a culture that promotes recognition and excellence. Celebrate employees across regions by highlighting accomplishments and driving encouragement.

Communities of Interest

Help employees develop a sense of belonging and empowerment with communities for discussions around interests and meaningful topics.

Diversity & Inclusion

Create diversity communities to raise awareness and facilitate participation. Implement DEI initiatives with conversation-based features.

LumApps Key Features

Mobile App

Support deskless workers (Android & iOS compatible)

Global Search

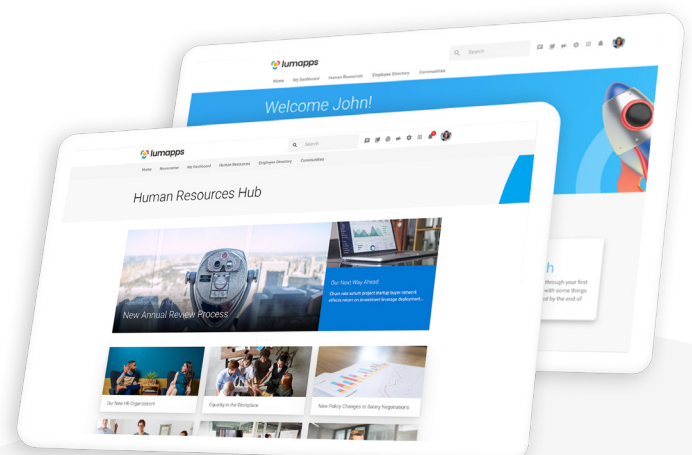

Integrated global search and single access point

Employee Directory

Living employee directory: contact info and skills

Collaborative Suite

Seamless integrations: M-365 & Google Workspace
