Your Solution

We offer the following three fraud plans, to meet your evolving needs:

- **Shop Protection** - We review all incoming orders, effectively taking over the entire review process and taking on all fraud liability by guaranteeing approved orders.
- **International** - We review all international orders, allowing you to confidently expand to new markets by guaranteeing all approved orders.
- **Select & Submit** - We review select orders flagged as high-risk, boosting your shop's sales volume by approving and guaranteeing orders you may have otherwise declined.

Pricing

Riskified's performance-based pricing is aligned with your business goals.

You pay a percentage of the value of the orders we approve and guarantee, with no additional charges for integration, service, or declined transactions. Pricing depends on the value we deliver to your store and on the order volume, but as a starting point the fee is 0.7% for Shop Protection, 2.4% for International and 4.9% for Select & Submit.
