

The GoFormz Quickstart Guide

Learn how to create, fill out, and share mobile forms with this step-by-step guide.

1

Log in from a computer and create a form Template

Use our Template Editor to build a form Template from scratch or upload a PDF/JPG to digitize an existing form. Simply drag-and-drop fields onto your form!

2

Fill out forms on mobile devices or online

You can now input data (including Images, GPS, Sketches, and Signatures) into your digital forms. Download the GoFormz mobile apps or login from a computer to get started.

3

Share and route forms and data

Instantly route completed forms to colleagues, customers, and connected applications.
