

HOW WE HELP YOUR BUSINESS GROW

THE CHALLENGE

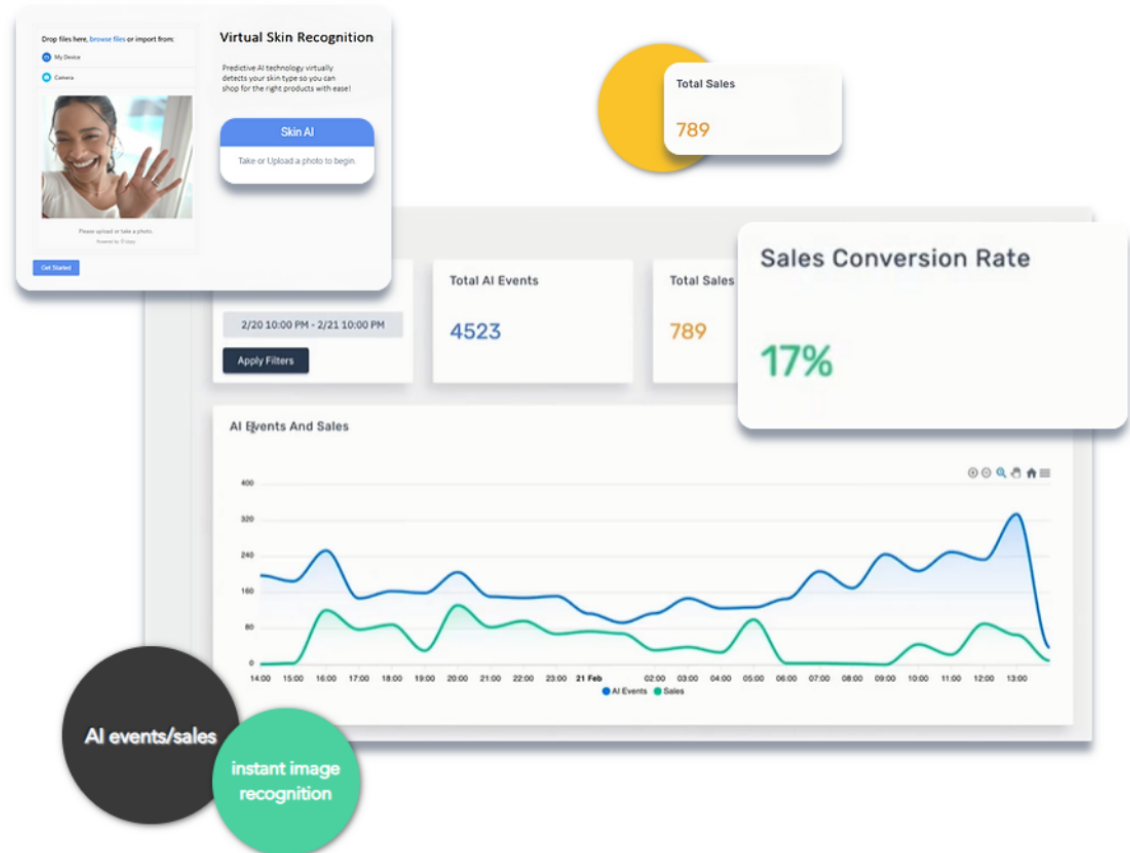

Online customer-brand interactions must match the experience users have come to expect in stores. So how can businesses solve for lack of retail personalization?

THE SOLUTION

Our AI vision API *instantly* predicts skin types from user photos and recommends beauty products on your website catered specifically to the customer's photo/skin type.

BENEFITS

- Setup API within minutes
- Increase sales conversion rate AND see it for yourself on dashboard
- Predict sales volume & inventory management
- *Free 30-day trial* (no credit card needed)
