Work Orders

Techs can create or receive work orders and add pictures, notes, expenses, time and materials.

Safety

Add our templated safety forms, or your own checklists, to work orders.

Accounting

ServiceBox connects seamlessly with Sage 50 Canada, Sage 300, QuickBooks desktop and QuickBooks online accounting software.

Schedules

Drag work orders into your online calendar to schedule and dispatch at the same time. Easy!

Invoices

Work orders convert to invoices with the push of a button, for easy emailing.

Inventory

Keep track of what's where, and pre-set alarms to warn you when stock is low.

Ongoing Maintenance

Program recurring maintenance workorders to spawn in the schedule automatically.

Payments

Collect payment quickly with links in the e-invoice, or by using a handpoint device onsite.

Your all-in-one field service management & payments solution

ServiceBox has partnered with Paysafe to offer best in class payments technology for field service management companies.

Testimonial

"ServiceBox is an amazing organizational tool that has completely changed the efficiency of our business."
