SPIFF COMMISSION DESIGNER

Built for scale &
simplicity

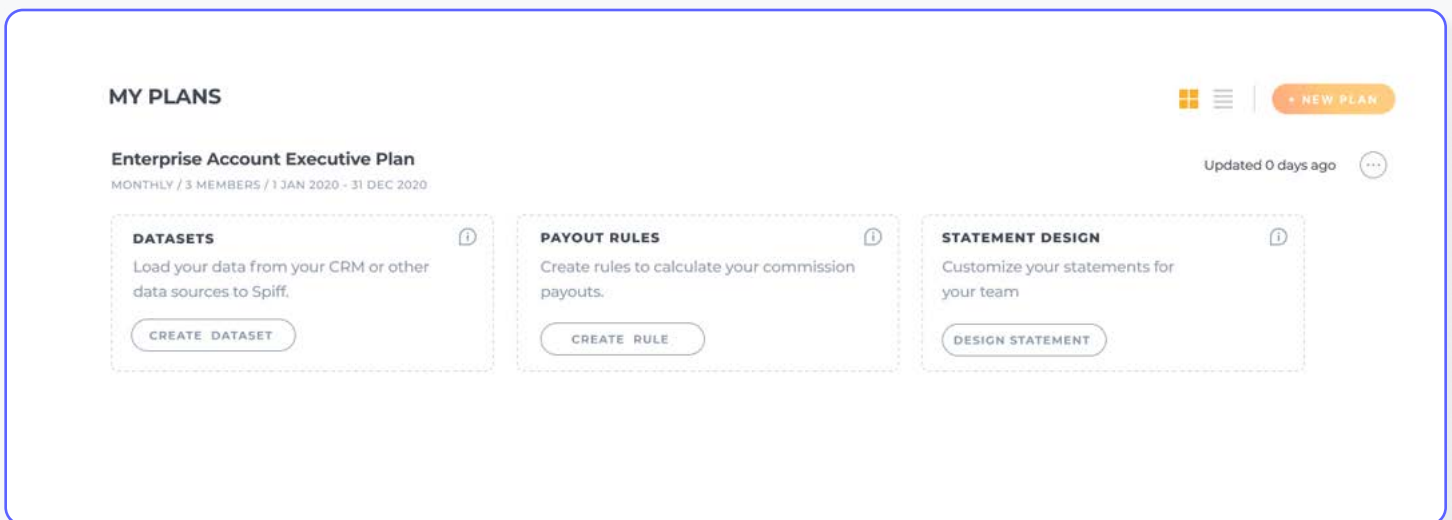

OVERVIEW

When it comes to designing your commission plans, choose the partner that will help you implement and automate your plans with ease without sacrificing power or flexibility. The Spiff Commission Designer turns the historically ambiguous process of adding, building, and maintaining commissions from something outdated, or manual in spreadsheets, into a step-by-step workflow, no matter how simple or complex. If you need a little bit of extra help, don't worry; our dedicated account managers and implementation specialists are here for you.

WITH SPIFF'S COMMISSION DESIGNER YOU CAN:

- Create a step-by-step workflow that is repeatable and simple to understand
- See preview of commission plan changes in real-time while building
- Offer full transparency for the sales team for changing commission plans without waiting days, weeks, or months for the changes to go live
- Get up and running faster with easier implementation and self- service capabilities
- The step-by-step flow makes it easier to build a new plan or make changes to your plans anytime you need it
- Industry leading speed calculates thousands of commission statements in seconds
- Save time with powerful functions such as Marginal Payout, Range Lookup, and many more

COMPLEXITY SIMPLIFIED

FLEXIBLE SETUP

Commission plans setup in weeks, not months. Powerful workflows, simplified. Make changes when you need even on the most complicated commission plans.

POWERFUL ENGINE

Handle the most intricate commission structures and nuances such as accelerators, tiers, multiple triggers, and more.

REAL-TIME VISIBILITY

Instant calculations give you real-time visibility into the plans while you build them. Push directly to your sales team for instant visibility so they can focus on selling.

SEAMLESS INTEGRATIONS

Native integrations into all of the top CRM's, ERP's, etc. Seamlessly pull all of the data needed to run commissions and then push it wherever you might need it. Easily map and pair data together with a simple relationship builder.
