01 Why Good Grants

Find grantmaking software
restrictive, bloated and overpriced?
Good Grants is for you.

We're redefining grantmaking software

Good Grants is not a social good platform, a social impact platform or some other marketing ploy to convince you we're unique.

Good Grants is grantmaking software. We're not grantmakers; you are. And we won't pretend otherwise. We're here to help you be more efficient, make good grant decisions and minimise your grantmaking risks. So you can power positive change.

Why you'll be happy with Good Grants

Grantmaking for everyone

Internationally friendly features and platform. Highly intuitive and accessibility compliant.

Designed for flexibility

Whether you run an open, closed, competitive or formulaic grant, Good Grants will work for you.

Rapidly evolving

We listen, and regularly release new features and improvements to support you on your mission.

02 Trusted worldwide

We're proud to power grants and giving programs from around the world.

What our clients say

"Good Grants is like a living service organisation where you have these wonderful people who know every aspect of the program you're trying to use and their goal is to help you use it in the most efficient manner. That's where the differentiation should be made. They are collaborating partners."

Dr. Michelle Pipes
JinnYouity

"I would recommend Good Grants to anyone looking for a good and easily manageable grant platform. For multi-layered kinds of grants like ours, for example, with an application round and multiple review rounds, Good Grants has proven very suitable."

Sophie van der Erve
Aidsfonds

"This was by far the most applicable (and easy to use) software for my needs. Experimenting with the Trial version enabled me to see if the tools I needed were included in the software. As it turned out, they were, and they were easy to use. "

Rebecca Shelby
St. Louis-Jefferson SWMD

07 Post-award features

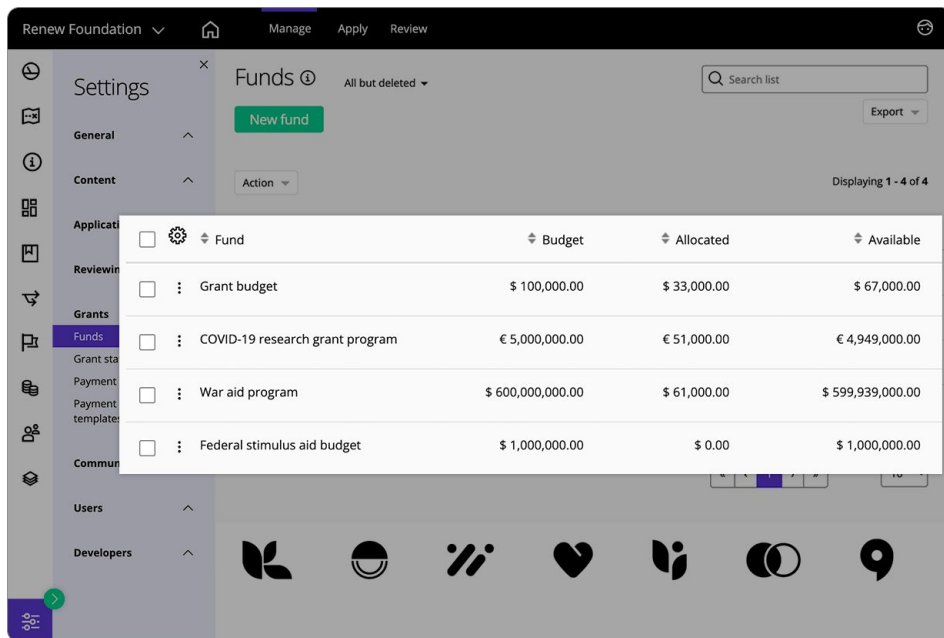

Solicit programmatic, financial and KPI reports whenever necessary and keep tabs on grant performance and impact.

Post-award features: grant performance monitoring

Manage grant performance and funding with precision.

The screenshot shows the 'Funds' section of the Renew Foundation dashboard. A table displays grant performance data with columns for Fund, Budget, Allocated, and Available. The table lists four grants: Grant budget, COVID-19 research grant program, War aid program, and Federal stimulus aid budget. The interface includes a sidebar with navigation options like Settings, Grants, and Users, and a top navigation bar with Manage, Apply, and Review tabs.
