

Invoice Automation

Improve cash flow management and alleviate the costs and risks of invoice processing lags by turning emailed invoices into digital transactions.

Manufacturers and distributors are facing the compounding challenges of pressure on margins due to inflation and rising labor costs in an era of higher expectations for perfection from customers. It has never been more important to manage cash flows effectively, control costs, and maintain smooth supply flows in support of serving customers profitably with high customer satisfaction.

Leading manufacturers and distributors rely on Conexiom to improve cash positions, reduce costs and errors, amplify productivity, and empower relationships with vendors. With Conexiom you gain the speed, accuracy, and efficiency of digital channels like ecommerce or EDI — all without changing how your suppliers submit invoices.

Turn Speed Into Money With Fast and Accurate Digital Invoice Processing

The perpetual queue of emailed invoices is impeding your ability to manage cash flows, creates risk of supplier cutoff or delays that impact the ability to fulfill your customer orders, and is costing you money. With Conexiom you can:

- Avoid supplier sanctions including cutoffs, prepayment, or C.O.D.
- Avoid late payment penalties.
- Collect early payment discounts.
- Eliminate duplicate payments.
- Alleviate errors and their effect on vendors and your customers.

Perfect, Speedy Invoice Processing So Your Customers Can Rely On You

Conexiom delivers the best outcomes for you, your suppliers, and your customers by letting your staff focus on solving problems and deepening relationships with suppliers.

- Digital transactions eliminate invoice backlogs to assure a smooth flow of the supplies you need to serve your customers.
- Efficient processes reduce processing costs per invoice to help protect your margins.
- Minimized human touch points with 80% to 95% straight-through processing lets happier staff do high-value work.
- Rapid-deploy integrations to all leading ERPs delivers fast time to value — complete standard integrations in as little as a day.

The Conexiom Difference

- ✓ **No change** in how your vendors submit invoices.
- ✓ **Deep experience** with over 95,000 trading partners on the Conexiom network – 16 of North America's 20 largest distributors and hundreds of leading manufacturers with over \$1.5 Trillion in combined sales rely on Conexiom
- ✓ **Amplify productivity** and scale your business without having to add headcount.
- ✓ **Pre-built Validations** of over 70 pre-configured validations to auto-correct repetitive exceptions so AP staff are reserved for valid and valued activities that contribute to productivity and vendor relations.

Conexiom 2024 Study of 898 Manufacturing and Distribution Leaders Conducted by Rep Data.

Conexiom Turns Every Invoice into a Perfect Invoice

Clean invoices without exceptions are extracted, contextualized, and validated for straight-through processing.

Imperfect invoices with repetitive exceptions such as currency conversions can be fixed once and auto-corrected for future occurrences.

Imperfect invoices that break business rules such as misalignment on payment terms or due dates or have missing data are sent to AP staff to assess and action.

The Conexiom Community

About Conexiom

Conexiom is the only SaaS platform that transforms emailed trade documents from customers and suppliers into fully automated digital transactions with 100% accuracy across order-to-cash and procure-to-pay processes. Leading manufacturers and distributors, including 16 of the top 20 industrial distributors, rely on Conexiom to increase order fill rates and accuracy, improve operating efficiency, maximize timely payment discounts, provide transparency for regulatory compliance, and redeploy their team's valuable time to improve the customer experience. The Conexiom Trading Network includes over 95,000 industrial buyers and suppliers and transforms over one billion emailed line items per year into digital transactions.

Conexiom is backed by leading growth capital partners Luminata Capital Partners, Warburg Pincus, and ICONIQ Capital. Headquartered in Vancouver, British Columbia, it has offices in Kitchener Ontario, and London England.
