Boards and Committees

Laura M.

Manager of Administrative Services

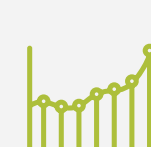

“Everybody loves using it. It’s very, very easy. It’s user-friendly. I have all age types on my board, and everyone can access it and do what they need to do.”

Why BoardEffect?

Drive Efficiency

- Streamline complex board management processes to meet your most immediate challenges
- Functionality and workflow designed to support nonprofit board management cycles
- Continuous innovation to deliver board management solution designed for mission driven organizations

Joann Cragoe

Executive Assistant to the President, American Public Media

“I didn’t realize how much of an impact the easy delivery of board materials would have... We are a nonprofit company and we liked that BoardEffect understands the needs of nonprofit organizations. That, and the fact that BoardEffect is fairly priced, really appealed to us... It’s fantastic to get service right away from a live person when I have questions and the helpdesk staff is helpful, knowledgeable and totally client-friendly.”

Enable Transparency

- Unified communication and collaboration for board members on the go
- Real-time access to agenda, board books, meeting minutes and more anywhere on any device
- Unlimited capacity to store and share board materials
- Easy integration with Diligent Minutes (Optional)
- Zoom and GoToMeeting integrations available but can be used with any video conferencing service

Sarah Griffith

Gilda’s Club South Jersey

“For me, it’s a massive time saver,” explains Sarah. “While people broadly understand the benefit of board portals to directors, BoardEffect helps me stay organized in keeping my board organized.”

5-part Security Program

- 1 Encrypt data in transit and at rest
- 2 SSAE 16 audited SOC and SOC2 Type 2 fully redundant data centers with third party penetration testing and 99.999% facility uptime
- 3 Disaster recovery and business continuity plans
- 4 Intrusion-detection systems
- 5 Self-owned and controlled data centers

Debbie B.

Director of Board and Government Relations

“We feel really confident with BoardEffect when we’re sending information to the board that they’re able to retrieve it easily, but that it’s also a secure process.”

Things to Consider When Selecting a Board Portal Solution

It pays to make the right board management choice. Because boards can be slow to adopt new approaches, the solution you choose might be with you for many years. With so many options available, many organizations are unsure what to ask about and what to look for in a board portal:

- ▶ What’s the reputation and expertise of board platform providers?
- ▶ Have their solutions been tested in real-world situations?
- ▶ How long have they been around, and what is their track record?
- ▶ What happens as your board’s needs evolve?

BoardEffect is a solution that supports a modern approach to governance, empowering boards’ interdependent responsibilities across ongoing board operation cycles.
