Onehub is dedicated to helping businesses become unbelievably productive. We offer enterprise-grade tools that enable secure file storage and sharing, and robust collaboration features for streamlined workflows.

File Storage

Onehub Workspaces make it easy for businesses of any size to securely store and share important data in the cloud.

DRAG-AND-DROP FUNCTIONALITY
Upload existing folder and file structures

FULL-TEXT SEARCH
Find the files you want faster

VERSION CONTROL
Ensure everyone works from the same file

SECURE FTP GATEWAY
Upload in bulk over a secure connection

Secure Sharing

Onehub's advanced sharing settings means you can collaborate with confidence. Designate who can access files and their levels of interaction.

ROLE-BASED PERMISSIONS
Narrowly define user capabilities with roles such as "Creator" and "Viewer"

FILE-SPECIFIC PERMISSIONS
Include or exclude people down to the file level

SECURE LINKS
Provide direct access to files without requiring a recipient to have a Onehub account

Security

Protecting your data is our top priority, and with Onehub you can share with certainty, thanks to our security features.

BANK-LEVEL SECURITY
We use 256-bit encryption to protect your files in transit, at rest and when backed up, and every communication through Onehub occurs over a secure, encrypted connection

ENFORCE TWO-FACTOR AUTHENTICATION
Two-Factor Authentication is available to all users, and can be enforced by Admins on Business Plan accounts.

ACTIVITY TRACKING AND AUDITS
Receive an accurate up-to-date history of who accessed your content and what was done with it

GRANULAR TOOLS
Role-based permissions, roles preview, automatic watermarking, passwords and agreements deliver enhanced security

Mobile Apps

Work from wherever you are. With our mobile apps, you have access to all your business files, right in your pocket.

ONLINE VIEWER
We support previews for tons of file types, so you can review most files right in the browser with no downloading.

iOS AND ANDROID
With dedicated iOS and Android apps, your Onehub experience remains consistent from desktop to mobile.

DEDICATED iPAD APP
Our iPad-optimized interface supports portrait and landscape viewing, as well as iPad-only features like fullscreen mode.

Smooth Collaboration

With features such as tight Google Doc integration, workflow tasks and comments, Onehub makes it easy to unify your collaboration communication into one platform and increase productivity.

Data Rooms

For companies that want enhanced privacy, Onehub offers the best Data Rooms on the market. Conduct funding rounds or M&A deals with discretion. A Onehub Data Room provides a secure place for sharing sensitive information at an affordable price point.

Client Portals

With Onehub's advanced customization options, it's easy to give Workspaces your corporate logo and branding. Transforming Onehub Workspaces into a client portal is the perfect way for service industry professionals such as lawyers, accountants, commercial realtors and more to communicate with large client bases.

Straightforward Pricing

Onehub Team and Business plans make it easy and affordable for businesses of any size to start collaborating online instantly.

See why more than one million business users trust Onehub with their corporate data.
