Global Customers

**+21**  
Year of Experience

+10 years serving US companies

## What we solve

Demand for Experts

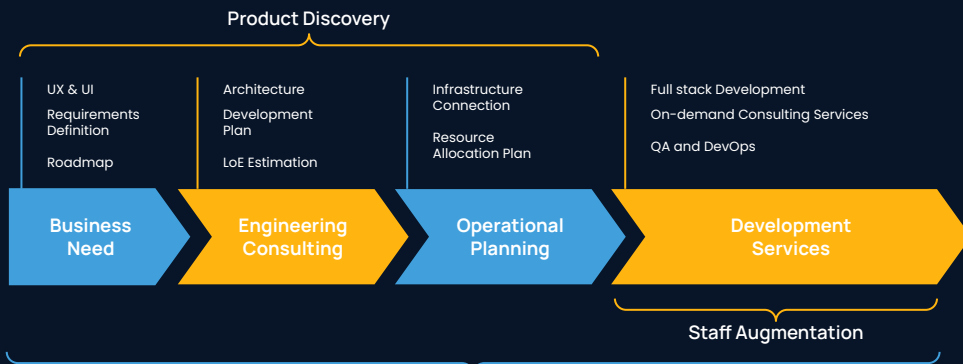

Continuous Innovation

Time to Market

Labor Shortage

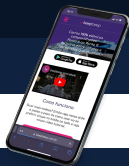

## How we solve

Conceiving, Delivering and Evolving Cutting edge Digital Products

### Extended Teams & Bespoke

Trusted by

Luby implemented an IoT-enabled platform and mobile app for instant electric car rental. Our solution integrates various components and ensures a user-friendly experience. With our support, customers can embrace the future of smart mobility.

Trusted by

**VIVIENNE TAM**

Luby created an immersive metaverse experience, allowing Vivienne Tam to replicate and merge it's NYFS show.  
Techstack: Engine Vatom + JavaScript, 3D Modeling Blender (Assembled by Propy) and Game Illustration Affinity Designer.

Trusted by

**Multi**

Luby's IoT solution connects, translates, and enhances Multi Group's devices through our bridge platform. Seamless integration, validated resources, and a unified app for management and support.

Trusted by

**FRIGOCENTER**

Luby's system ensures real-time control, efficiency and quality. FrigoCenter achieves precise equipment control, reduces problem detection time and optimizes cost management.

"Sunwest Bank has been a customer of Luby since 2017 and the Luby team have done a great job for the Bank on various development projects. Luby is certainly one of the best offshore app dev teams I have ever worked with."
