Bento delivers unmatched visibility and control over how much, where and when employees spend money.

What Customers Are Saying...

- "I created a Petty Cash card on Bento. I trust my employees, but Bento gives me peace of mind, as I can turn a card off at any time and get alerts if someone misuses the card. It's great. Eventually, I would like to move the entire management team onto Bento to avoid the fees from our AMEX cards and be more fiscally responsible."*
- Principle, Executive Leadership Group (consulting)**
- "I wasn't comfortable giving credit cards to employees. Bento saves us time & money as employees don't need to come in from across town for gas money. I love that I can use the same card for gas and supplies and control everything from my PC or smartphone. The sign-up process was warm and easy. But what I love most is the service I receive from Bento!"*
- Owner, Witten Pest (pest control)**
- "I love Bento! You have helped me save money as opposed to AMEX. Bento is a great tracking system as well!"*
- Owner, Crosby Volmer (public relations)**
- "Without Bento, it was just too easy for people to use the company cash for other purposes. We even had drivers who used the remaining cash after getting fuel to take their wife out to dinner."*
- Owner, Rowan Sawdust & Shaving (small fleet)**
