

What is SpaceRunner?

SpaceRunner is a web-based planning and management solution that visualizes equipment, assets, and other data on any virtual image, map or floor plan.

SpaceRunner helps users keep track of their devices, objects, gizmos and other "Things".

What's a Xyicon?

Xyicons are dynamic data containers that visually represent devices, objects, gizmos, and other "Things".

SpaceRunner Highlights

- Upload your floor plans or images and place your Xyicons on your "Space"
- Easily update the details of your Xyicons
- Track your Xyicon issues and events
- Quickly share information securely across teams
- Maintain accurate records of all types of assets

SpaceRunner is an easy to use web-based facilities management application which assists your teams to operate more efficiently while producing a higher level of customer service.

Using SpaceRunner, your teams can keep track of work order requests for equipment and maintenance, helping to reduce the total cost of ownership for your organization.

Think Outside the Spreadsheet.
